

RANGAT NATURALS

SOCIAL MEDIA + CONTENT + META ADS + SALES
GROWTH MASTER PLAN

Asli skin. Asli result. — From zero. Gujarat first. India next.

*Prepared September 2026 — Complete strategy document — All 30 strategy sections
preserved in full*

Attention → Trust → Customers → Sales → Repeat → Profit → Brand Growth

TABLE OF CONTENTS

RANGAT NATURALS — Complete Social Media → Sales Strategy (From Zero) . 8

THE 10 DECISIONS THAT DEFINE THIS ENTIRE PLAN 8

MARKET CONTEXT (why this plan is built this way) 9

FILE MAP — READ IN THIS ORDER 10

COMPLIANCE — NON-NEGOTIABLES (applies to every file) 11

§1 PLATFORM STRATEGY + §2 BRAND POSITIONING — RANGAT NATURALS . 13

PART A: PLATFORM RANKING (do NOT manage all equally) 13

PART B: BRAND POSITIONING — How RANGAT NATURALS looks and sounds online 14

§3 CONTENT PILLARS — RANGAT NATURALS (7 pillars) 18

PILLAR 1 — "INDIAN SKIN, INDIAN PROBLEMS" (Customer Problems) 18

PILLAR 2 — "1 REEL, 1 FACT" (Skincare Education) 18

PILLAR 3 — "SEE IT, THEN BUY IT" (Product Education & Demonstration) 19

PILLAR 4 — "ASLI LOG, ASALI RESULT" (UGC & Testimonials — the trust pillar) 19

PILLAR 5 — "4 HAFTON KA SAFAQ" (Safe Before/After & Transformation) 20

PILLAR 6 — "GHAR JAISA, SAACHA" (Founder & Brand Story) 20

PILLAR 7 — "ABHI KA BANAU" (Offers & Sales) 21

PILLAR → STAGE MAP (quick reference) 21

§4 NEW ACCOUNT LAUNCH STRATEGY — RANGAT NATURALS (Day 1 → Week 4) 22

WEEK 1: DAY 1 → DAY 7 ("WHO IS THIS?") 22

WEEK 2 ("WHAT DO THEY KNOW?") — Days 8-14, one-line plan per day 25

WEEK 3 ("IS IT REAL?") — Days 15-21 26

WEEK 4 ("HOW DO I BUY?") — Days 22-30 27

§5 THE 30-DAY DAILY CONTENT CALENDAR — RANGAT NATURALS (DAYS 1-10) 28

DAY 1 (Mon) — REEL · 30-45s · Pillar 6: FOUNDER INTRO 28

DAY 2 (Tue) — REEL · 25-35s · Pillar 1: PROBLEM (no product) 29

DAY 3 (Wed) — CAROUSEL · 6 slides · Pillar 2: EDUCATION 29

DAY 4 (Thu) — REEL · 30-40s · Pillar 2: MYTH VS REALITY 30

DAY 5 (Fri) — REEL · 25-40s · Pillar 6+1: RELATABLE (G) — SHAREABLE 30

DAY 6 (Sat) — REEL · 40-50s · Pillar 6: BRAND STORY / TEASER 31

DAY 7 (Sun) — REEL · 40-60s · Pillar 1+6: Q&A; (community) + heavy Story day 32

DAY 8 (Mon) — REEL · 35-45s · Pillar 3: HERO PRODUCT INTRO (first product post) 32

DAY 9 (Tue) — REEL · 30-40s · Pillar 2+3: HOW-TO (save-bait) 33

DAY 10 (Wed) — CAROUSEL · 7 slides · Pillar 2: INGREDIENT DEEP DIVE 34

§5 THE 30-DAY DAILY CONTENT CALENDAR — RANGAT NATURALS (DAYS 11-20).

DAY 11 (Thu) — REEL · 30-40s · Pillar 1+3: PROBLEM → SOFT SOLUTION	36
DAY 12 (Fri) — REEL · 30-40s · Pillar 4: FIRST REAL TESTER REACTION (week 2)	36
DAY 13 (Sat) — REEL · 40-55s · Pillar 6: FOUNDER STORY #2 — "KITNA MUSHKIL THA"	37
DAY 14 (Sun) — REEL · 30-40s · Pillar 7 (soft) + Q&A; Story day	38
DAY 15 (Mon) — REEL · 30-40s · Pillar 1: MISTAKES ("stop doing this")	38
DAY 16 (Tue) — REEL · 20-30s · Pillar 3: PRODUCT TEXTURE / DEMO (ASMR-style)	39
DAY 17 (Wed) — REEL · 40-55s · Pillar 5: FIRST REAL BEFORE/AFTER (the trust drop)	40
DAY 18 (Thu) — REEL · 30-40s · Pillar 2: EDUCATION — SUNSCREEN (seed Month-2)	40
DAY 19 (Fri) — REEL · Creator collab drop · Pillar 4: FIRST MICRO-CREATOR	41
DAY 20 (Sat) — REEL · 35-45s · Pillar 6+7: LAUNCH COUNTDOWN + BTS PACKING	42

§5 THE 30-DAY DAILY CONTENT CALENDAR — RANGAT NATURALS (DAYS 21-30).

DAY 21 (Sun) — REEL · 45-60s · Pillar 7: LAUNCH — "FOUNDING 100" (THE day)	43
DAY 22 (Mon) — REEL · 30-40s · Pillar 7: OBJECTION KILLER (new brand fear)	44
DAY 23 (Tue) — REEL · 40-50s · Pillar 3: 60-SECOND 3-STEP ROUTINE (bundle logic)	44
DAY 24 (Wed) — REEL · 30-40s · Pillar 4: FIRST CUSTOMER UNBOXING	45
DAY 25 (Thu) — REEL · 30-40s · Pillar 2: MYTH — "VC se chehra orange?"	45
DAY 26 (Fri) — REEL · 30-45s · Pillar 4: FIRST VIDEO REVIEW (Founding 100)	46
DAY 27 (Sat) — CAROUSEL · 6 slides · Pillar 7: "FOUNDING 100 — BOX ME KYA HAI"	47
DAY 28 (Sun) — REEL · 40-50s · Pillar 1+6: COMMUNITY Q&A; (from real DMs)	47
DAY 29 (Mon) — REEL · 35-45s · Pillar 6+7: MILESTONE + REFERRAL LAUNCH	48
DAY 30 (Tue) — REEL · 35-45s · Pillar 7: OFFER CLOSE + NEXT PRODUCT TEASE	48
DAY 30 — THE NUMBERS THAT MATTER (review these before planning Week 5)	49

§6 HOOK STRATEGY + HOOK LIBRARY — RANGAT NATURALS 50

Why hooks are the whole game	50
THE LIBRARY — 60+ hooks, by style	50
HOOK SELECTION MATRIX (which style when)	53

§7 SAFE BEFORE/AFTER + §8 UGC STRATEGY — RANGAT NATURALS 55

PART A: BEFORE/AFTER — SAFE, REAL, CONVEYING (Section 7)	55
PART B: THE 20 UGC REELS — RANGAT NATURALS (Section 8)	57

§9 AI-GENERATED CREATOR IMAGES + UGC VIDEO PROMPTS — RANGAT NATURALS 64

How this fits (and where it can't)	64
THE CHARACTER SHEET (paste into every prompt)	64
VIDEO PROMPTS — by length	65

IMAGE PROMPTS (creator images / carousel / ad statics)	68
GENERATION WORKFLOW (per batch)	68
VOLUME (pair with 21-production-system.md)	68
§10 PRODUCT-SPECIFIC CONTENT — RANGAT NATURALS: HERO 4 (LAUNCH PHASE)	69
Launch sequence & focus (do NOT sell all at once)	69
PRODUCT 1: VITAMIN C SERUM 10% (the hero)	69
PRODUCT 2: FACE WASH (the entry ticket)	70
PRODUCT 3: MOISTURIZER / GEL-CREAM (the routine completer)	71
PRODUCT 4: SUNSCREEN SPF 50 (Month-2 hero)	72
HERO-4 content ratio (per week, during launch)	74
§10 PRODUCT-SPECIFIC CONTENT — RANGAT NATURALS: SECONDARY 6 (MONTHS 2-4+)	75
PRODUCT 5: NIGHT CREAM (Wave 3, Day 75-90)	75
PRODUCT 6: DAY CREAM (with SPF, Wave 3+)	76
PRODUCT 7: FACE CREAM (rich, for dry skin — Winter wave)	77
PRODUCT 8: LIP CARE (Wave: Oct-Dec, wedding + winter)	78
PRODUCT 9: HAIR CARE (Wave: post-monsoon hair-fall season, Oct-Dec)	79
PRODUCT 10: BODY CARE (Wave: winter, Nov-Jan; gifting strong)	80
Cross-product rule (all 10 products)	81
§11 GUJARAT-FIRST STRATEGY — RANGAT NATURALS	82
1. Language strategy (per-post matrix)	82
2. City-by-city content & distribution	83
3. Local weather & skincare-problem content calendar (annual)	84
4. Local creator strategy (Gujarat)	84
5. "Gujarat first" without capping the brand	85
§12 INSTAGRAM STORIES (30-DAY) + §13 PROFILE BUILD — RANGAT NATURALS	87
PART A: THE DAILY STORY SYSTEM	87
THE 30-DAY STORY CALENDAR (M = Morning · A = Afternoon · E = Evening)	87
PART B: THE INSTAGRAM PROFILE (built Day 0, updated weekly)	90
§14 SOCIAL SEO + §15 HASHTAG FRAMEWORK — RANGAT NATURALS	92
Why social SEO is a sales channel, not a nice-to-have	92
PART A: THE KEYWORD BANK (organized by search intent)	92
PART B: INSTAGRAM SEARCH OPTIMIZATION — THE 12-POINT CHECKLIST	94
§15 HASHTAG FRAMEWORK	94

The principle	95
The 5 sets	95
Rotation rules	95
12 READY-MADE SETS (copy-paste, one per post type)	96
\$16 META ADS STRATEGY + \$17 BUDGETS — RANGAT NATURALS	97
The CEO call: ads IMMEDIATELY or after organic proof?	97
THE 4 CAMPAIGNS	97
\$18 CREATIVE TESTING + \$20 RETARGETING — RANGAT NATURALS	101
PART A: THE CREATIVE TESTING SYSTEM (Section 18)	101
PART B: RETARGETING — THE SEQUENCE (Section 20)	103
\$21 CONTENT→SALES FUNNEL + \$22 VIRAL VS SALES + \$23 BUYER PSYCHOLOGY — RANGAT NATURALS	105
PART A: THE CONTENT → SALES SYSTEM (Section 21)	105
PART B: VIRAL CONTENT vs SALES CONTENT (Section 22)	108
PART C: INDIAN BUYER PSYCHOLOGY — why a stranger buys an unknown skincare brand (Section 23)	109
\$19 SALES ADS LIBRARY — RANGAT NATURALS (paste-ready)	111
10 AD HOOKS (first line of video / first line of primary text)	111
10 PRIMARY TEXTS (Meta primary text field)	111
10 HEADLINES (Meta headline field — max 5 chars of space, ~25 words practical)	112
10 CTAS (the ONE action — rotate by funnel stage)	112
3 FULL AD ASSEMBLIES (creative + text + headline + CTA, ready to build)	113
\$24 FIRST 1,000 FOLLOWERS + \$25 FIRST 100 CUSTOMERS — RANGAT NATURALS	114
PART A: THE FIRST FOLLOWERS (Section 24)	114
PART B: THE FIRST 100 CUSTOMERS (Section 25)	115
\$26 THE 90-DAY SOCIAL MEDIA + SALES MASTER PLAN — RANGAT NATURALS	119
PHASE 1 — DAYS 1-30: FOUNDATION + PROOF ("The 100")	119
PHASE 2 — DAYS 31-60: TRUST → CONVERSION ("The 500")	120
PHASE 3 — DAYS 61-90: SYSTEM + SCALE ("The 1,000+ and the Machine")	120
THE 90-DAY KPI BOARD (one page, review every Sunday, 45 min)	121
WEEKLY OPERATING CADENCE (the CEO's 5-hour week)	122
\$27 CONTENT PRODUCTION SYSTEM — RANGAT NATURALS (batch, fast, repeatable)	123
The design rules	123
VOLUMES (per week, at steady state)	123

THE SHOOT DAY RUN SHEET (4-5 hours, same every time) 123

THE EDIT BLOCK (60-90 min/day, same day or next) 124

SUNDAY PLANNING BLOCK (2 hrs, the brain of the system) 124

AI UGC BATCH DAY (2 half-days/month, 3 hrs each — see 09 for prompts) 124

MONTHLY PRODUCT PHOTO SESSION (half-day, 3-4 hrs, first week of month) 125

THE WEEKLY CALENDAR (steady state) 125

MINIMUM TEAM / TOOLING (the cheap-but-right stack) 125

\$29 COMPLIANCE RULES + \$30 CEO FINAL VERDICT — RANGAT NATURALS . 127

 PART A: THE COMPLIANCE RULES (Section 29) — pin this to the wall 127

 PART B: THE CEO FINAL VERDICT (Section 30) 128

 THE RANGAT NATURALS 90-DAY SOCIAL MEDIA + SALES MASTER PLAN (one page) 130

Master Action Checklists (compiled from the plan) 132

PART 1

RANGAT NATURALS — Complete Social Media → Sales Strategy (From Zero)

Mission: ATTENTION → TRUST → CUSTOMERS → SALES → REPEAT PURCHASES → BRAND GROWTH.

Starting point: 0 followers, 0 customers, 0 awareness, small budget. Gujarat first → India next.

Prepared by: CEO / CSO / Growth Strategist / Content Director / SEO / Meta Ads — one brain, one plan.

Date: September 2026 (launch window = late monsoon → wedding/Diwali season. This timing is a gift — see 90-Day Plan).

THE 10 DECISIONS THAT DEFINE THIS ENTIRE PLAN

Read these first. Every other document in this folder is an execution of these decisions.

#	Decision	Choice	Why (one line)
1	Hero product	Vitamin C Serum (10%) — launch with Face Wash as low-ticket entry, Moisturizer as the "complete the routine" item. Launch NOTHING else for 60 days.	Serum = visible "glow" results in 2–4 weeks, strong search demand, UGC-friendly, ideal price point.
2	First customer	Women 20–35, Ahmedabad first , then Surat/Vadodara/Rajkot. Concerns: sun tan look, dullness, oily/monsoon skin, pigmentation. Willing to pay ₹399–₹799 for honest products.	Concentrated geographic + demographic = faster word of mouth, creator density, cheap local proof.
3	First platform	Instagram (Reels = attention engine) . WhatsApp Business = the actual sales engine . Not equal weight — different jobs.	IG creates desire + trust at scale; WhatsApp closes Indian orders (COD, human chat, family trust).
4	Posting cadence	5–7 Reels/week + 3–5 Stories/day + 2 Carousels/week. Batch-shot on 2 days.	Consistency without burning out a 1–3 person team.
5	Language	50% Hinglish, 30% Gujarati, 20% English (per post varies).	Matches how Gujarat/India actually talks on social media.
6	Ads start	NO ads before launch (Day 21) . Optional ₹200/day boost on 1–2 best organic Reels from Day 15. Ads start at launch with ₹500/day prospecting.	Ads without social proof = expensive failure. Proof first, spend second.
7	Offer	"Founding 100" launch offer : launch price + FREE Face Wash mini + FREE shipping + COD + your review featured on the page. Hard limit: 100 units.	Real urgency, no fake discount games, builds the review flywheel from order #1.
8	Proof policy	Only REAL results: 4-week tester program, real customer photos (written permission), "results may vary" always on screen. No fake before/after, no fake reviews, ever.	One fake photo found = brand dead + ASCI/legal risk. Trust is the whole business.
9	Funnel	Reel → Profile → DM keyword ("GLOW") → WhatsApp → COD order → Day 1/7/14/28 WhatsApp sequence → Review → Referral (₹100 give/₹100 get) → Repeat.	Every reel is an entry point into a machine, not a vanity post.
10	North-star metric	Orders + Repeat rate , NOT followers or likes. Followers are only counted if they DM.	You run a business, not a content channel.

MARKET CONTEXT (why this plan is built this way)

- India's skincare market ≈ **\$2.98B (2026) → \$5.1B by 2032, ~9.4% CAGR** (Vyansa Intelligence, 2026). Facial care = ~85% of it.
- Vitamin C serum** sub-segment: 10–20% concentration dominates ~60% share; category growing ~9.2% CAGR (MarkNtel Advisors, 2026).
- Sun care** is the fastest-growing category (~12.5% CAGR) — this is RANGAT's Month 2 product, timed before Gujarat's summer and wedding season.

- Indian D2C skincare ad benchmarks (2025-26 data): CPM ₹100-260, CTR 1.2-2.5%, prospecting ROAS 1.8-3.2x, retargeting ROAS 2.8-4.5x, UGC video outperforms brand creative ~2x. Plan targets in **15-meta-ads** are derived from these.
 - Structural realities we exploit: **COD is mandatory** in India for an unknown brand; **fake-product fear** is real (our trust content attacks it directly); **Gujarat is value-conscious but business-culture-driven** (respect for honest trade, family recommendations, "aamno che" pride).
-

18-funnel-psychology-ratio.md	§21 Content→Sales funnel map + §22 Viral vs sales ratio + §23 Indian buyer psychology	Week 1, then monthly review
19-first-followers-customers.md	§24 First 100/500/1000/5000/10000 followers + §25 First 100 customers plan	Day 1
20-90-day-master-plan.md	§26 The 90-Day Social Media + Sales Master Plan	Day 1 (strategy layer), weekly (KPIs)
21-production-system.md	§27 Batch production system + weekly workflow	Before first shoot day
22-ceo-final-verdict.md	§29 Compliance rules (safe/unsafe claims) + §30 CEO final verdict	Day 1 + pin to wall

COMPLIANCE — NON-NEGOTIABLES (applies to every file)

1. **No fake before/after, fake testimonials, fake reviews — ever.** Only real customers, with written photo consent.
2. **No medical claims.** No "cures," no "100% removes tan," no "permanent," no "dermatologist recommended" unless a dermatologist actually recommends it.
3. **Safe language bank** (full table in [22-ceo-final-verdict.md](#)): "helps brighten the look of skin," "may reduce the appearance of dark spots over consistent use," "formulated for Indian skin," "results may vary."
4. Before/after always on-screen: **"4 weeks of daily use · Results may vary · Individual experiences differ."**
5. We are a **brand, not a manufacturer.** Language: "crafted with certified Indian manufacturers," "we formulate & test, expert Indian facilities manufacture."
6. Any "test/clinical" claim must be true and documentable. When unsure → don't say it.
7. This plan is business strategy, not legal advice. Have your final ad copy checked against the Drugs & Cosmetics Act / ASCI code once you scale.

PART 2

§1 PLATFORM STRATEGY + §2 BRAND POSITIONING — RANGAT NATURALS

PART A: PLATFORM RANKING (do NOT manage all equally)

The ranking

Rank	Platform	Role in the machine	% of effort
#1	Instagram (Reels + Profile + Stories + DM)	Attention + Trust + Funnel entry. Where an unknown Indian skincare brand gets discovered, judged in 3 seconds, and converted into a DM conversation.	60%
#2	WhatsApp Business	The sales engine. Where Indian customers actually close: COD, family-trust channel, human support, broadcast, post-purchase relationship. Zero ad cost, highest intent.	25%
#3	Facebook	Cheap reach + older audience (25-50, mothers, tier-2/3). Crosspost everything; run the same Meta ads here (same ad account — no extra work).	10%
#4	YouTube Shorts	Search longevity. A Short titled "Vitamin C serum kaise use kare" is found by search for months. Repurpose your top 3 Reels/week — near-zero extra cost.	5%
#5	Pinterest	Skip for now. Pinterest's beauty traffic in India is thin vs. the effort. Revisit at 10k followers + 100+ images. (Keep it on the map for 6-12 months later.)	0%

WHY this ranking (the reasoning, so you can defend it)

1. **Instagram is the only platform where all 5 funnel jobs happen in one place** for your target (women 20–35, Gujarat): discovery (Reels feed + Explore), judgment (profile in 3 seconds), trust (highlights, pinned posts, comments), intent capture (DM/WhatsApp link), and community (Stories). No other platform does discovery + trust + DM commerce this efficiently for D2C skincare in India.
2. **WhatsApp Business is where India closes.** Your buyer is price-sensitive (unknown brand → trust gap), wants to ask questions ("COD chalega?", "4 hafte me dikhega?"), and in Gujarat the household decision often involves family. WhatsApp is where that conversation happens. Meta ads also have a native **Click-to-WhatsApp** objective — ads can deliver customers straight into your chat. This combination (Meta ads → WhatsApp → COD) is the highest-converting path for a new Indian cosmetics brand and almost none of your competitors use it well.

3. **Facebook is free reach, not a workload.** You post to a Meta Business Suite that publishes to FB + IG simultaneously. Your 25–40 audience (and their mothers/aunts — high purchase power for family gifting in Gujarat) lives there. No separate content.
4. **YouTube Shorts = compounding search.** Reels die in 48 hours; a Short with a search-optimized title ("Best sunscreen for oily skin India") keeps delivering for months. Cost = 10 min/day of uploading.
5. **Pinterest** is a strong beauty platform in the US, not yet in India for a new brand. Your time is worth more on IG+WhatsApp.

Platform operating rules (so nothing gets "managed equally")

- **Instagram:** Original creative. Everything is made here first.
- **Facebook:** Auto-crosspost + 1 extra action/month (post to 2–3 local Ahmedabad/Facebook skincare groups where brand posting is allowed — answer questions, don't spam).
- **YouTube Shorts:** Upload top-performing Reels with search-optimized titles/descriptions (templates in [14-seo-and-hashtags.md](#)).
- **WhatsApp Business:** This is a **system**, not a social channel: catalog, quick replies, labels (New Lead / Order / D7 Follow-up / Buyer), broadcast lists, status updates (post 3x/day from your Stories).

PART B: BRAND POSITIONING — How RANGAT NATURALS looks and sounds online

1. Brand personality (4 words)

Honest. Desi-smart. Calm. Slightly playful.

- **Honest:** no fake discounts, no miracle claims, shows real texture, real prices, real faces.
- **Desi-smart:** understands Indian skin, Indian weather, Indian budgets. "Totka-level samajh, science-level transparency."
- **Calm:** never shouts "BUY NOW!!!" — explains, demonstrates, invites.
- **Slightly playful:** knows Indian humor (relatable reels, light Gujarati banter) but never at the customer's expense.

2. Tone of voice rules (write every caption against this)

Situation	We say	We never say
Selling	"Launch me pehli 100 orders — aapki review page par feature hogi"	"LAST CHANCE!!! ORDER NOW!!! 90% OFF!!!"
Results	"4 hafte daily use me, dikhne me fresh aur bright skin — results har kisi me alag hote hain"	"4 hafte me tan hamesha ke liye khatam"
Price	"2000 wali imported cream ke hisaab, 1/3 daam — kyunki hum middleman nahi"	"Mehngi cream mat lagao, hum saste ho"
Objection	"Pehli baar kisi naye brand se lete ho? COD hai, parcel kholo, pasand nahi toh return."	"Sb log khareed rahe hain, aap kyon soch rahe ho"
Language	Hinglish by default, Gujarati when it adds warmth ("Aamee skin, aamno liye")	Pure corporate English; broken Hindi
Education	"Yeh ingredient yeh karta hai — aur yeh nahi karta"	"Vitamin C = magic"

Signature phrase system (repeat until it owns the space):

- **English anchor:** "Skincare that understands Indian skin."
- **Gujarati flavor (use in 1 in 3 posts):** "Aamee skin, aamno liye."
- **Trust phrase (in every product post):** "Asli result, asli photo, koi filter nahi."
- **CTA phrase (the DM keyword):** "DM karo 'GLOW'" — this one keyword is the whole funnel (see §21).

3. Content style (the format rules)

- **Reels first, always vertical 9:16, first 2 seconds = hook on screen + hook spoken.** No logo intros, no "welcome to our page." The hook IS the opening frame.
- **Founder-led 40% / Product-led 30% / UGC-creator-led 30%** (see §22 ratio). The founder's face = the trust anchor of a zero-awareness brand.
- **Every Reel ends with a 3-second CTA** (spoken + on-screen): "GLOW likho DM me" / "Follow karo — kal next part" / "Save karo, baad me zaroor chahiye."
- **Captions:** 1-2 line hook + 3-5 value lines + 1 CTA + 3-5 relevant hashtags (framework in §15). First line of caption = keyword (IG search reads it).
- **Audio:** trending audio at 10-20% volume UNDER voiceover, or clean voiceover with soft lo-fi. Voice is always human (founder or creator), never pure TTS.
- **Posting windows (Gujarat/India):** Mon-Fri **7:30-9:00 PM** (peak), alternate slots 12:30-2:00 PM (lunch scroll) and 7-8 AM (morning routine content). Weekend: 10-11 AM (Sunday planning scroll).

4. Visual style (what the feed looks like)

- **Palette:** warm cream + terracotta/rangat-red accent + soft sage. "Indian warmth," not clinical blue, not neon.
- **Photography:** natural daylight (window light), real textures (cream swirl on hand, serum drop in palm), **real skin with pores** — no heavy retouching. A light filter max.
- **Product shots:** product always shot with a hand or in a real routine context (bathroom counter, bedroom table) — never floating on white.

- **Typography:** one bold sans-serif (e.g., Montserrat/Poppins) for hooks; one warm serif for brand moments. On-screen text = **max 8 words per frame**, big, centered, with safe margins.
- **Feed grid:** alternating rhythm — face (person) / product texture / text-hook carousel — so the grid reads as "human brand," not "catalog."
- **Logo placement:** small, bottom corner, or on the product label. Never covering the face/hook.

5. Educational style

- **"1 Reel = 1 idea"** rule. One myth, one ingredient, one mistake. Never a 10-point lecture.
- Format: **Hook (problem) → Why it happens (30 sec science, simple words) → What to do (2 steps) → CTA.**
- Always end education with a **soft product nod, not a pitch:** "Yehi kaam humara Vitamin C serum karta hai — kal iske baare me detail me."
- Vocabulary for Indian audiences: say "dark spots/pigmentation ka dikhna," not "ameliorate hyperpigmentation." Say "subah-saandh 2 ghante," not "consistent twice-daily application."

6. UGC style (what we ask creators to do)

- **Selfie-camera, front light (window), no studio.** The imperfection is the point.
- Structure: **real first line → real problem → product in routine → honest take → "link bio / DM GLOW."**
- Creator says ONE honest thing, not a script: "Maine 3 hafte lagaya, mujhe lagta hai chehra zyada fresh dikhta hai — par meri dry patch abhi bhi hoti hai." Honest negatives build trust more than 10/10 praise.
- Full 20 UGC scripts: [08-before-after-and-ugc.md](#). AI-UGC generation prompts: [09-ai-video-prompts.md](#).

7. Trust-building style (how a ZERO brand earns belief)

1. **Founder face on everything for 90 days.** A real person is the only instant proof a new brand has.
2. **Transparency reels:** "Hum manufacturer nahi hain — hum formula chunte hain, test karte hain, aur certified Indian facilities me banwa dete hain." (Shows the process, the batch card, the label check.)
3. **Anti-fake positioning:** "Fake cream dikhane ka sabse bhaari game khele jaate hain — hum sirf wohi photo dikhate hain jo asli customer ne bheji hai."
4. **Numbers out loud:** "20 aahaiyon ne 4 hafte test kiya" (not "thousands love us").
5. **COD + return on every sales post.** The risk is removed in one line.
6. **Slow proof over loud claims:** 4-week testers, not 3-day miracles.
7. **Every claim on screen has a source line or a humble line:** "Yehi wajah hai" / "Humari opinion, aapka experience alag ho sakta hai."

8. Sales style (when we sell, how we sell)

- **Sell in 1-in-5 posts directly** (see §22). The other 4 sell indirectly by making the profile a place you'd trust with money.
- **Offer always has 3 parts:** price anchor (honest) + extra value (free mini/sample) + risk reversal (COD/return) + real constraint (Founding 100 / stock batch).
- **Never:** fake countdowns, fake "92% OFF" from an MRP nobody ever paid, pressure on body image.
- **Always:** what's in the box, what to expect in week 1/2/4 (expectation setting = fewer returns + better reviews), and the one action: **DM "GLOW"** or **click WhatsApp link**.
- Sales post anatomy: **Hook (who it's for) → proof (real photo/review) → what you get → price + offer → risk reversal → CTA.**

9. The 3-second test (every asset passes or dies)

A new visitor lands on the profile. In 3 seconds they must know:

1. **Indian skincare brand** ← bio line 1 + product visuals
2. **What problem we solve** ← bio line 2 ("Glow, tan-look, dullness — Indian skin ke liye")
3. **We're real & trustworthy** ← founder photo/avatar, pinned social-proof post
4. **How to buy** ← bio line 4 ("DM 'GLOW' ya WhatsApp link")

If any of the 4 fails, fix the profile before making more content.

PART 3

§3 CONTENT PILLARS — RANGAT NATURALS (7 pillars)

Research note: for a D2C skincare brand at zero awareness, content must do three different jobs in a ratio — **attract strangers (education/entertainment)**, **convert skeptics (proof/trust)**, and **close buyers (product/offer)**. The 7 pillars below are mapped to the customer journey stages: **Stranger → Curious → Evaluating → First-order → Repeat/Advocate**.

Weekly mix (5-7 Reels + 2 Carousels): Pillar 1 (15%), Pillar 2 (25%), Pillar 3 (20%), Pillar 4+5 (15%), Pillar 6 (5-10% founder), Pillar 7 (10-15% offers) — exact math in [18-funnel-psychology-ratio.md](#).

PILLAR 1 — "INDIAN SKIN, INDIAN PROBLEMS" (Customer Problems)

What to post: Reels that name the exact skin problem the way a Gujarati/Indian woman describes it to her friend: monsoon oiliness, 40-degree tan-look, AC-indoor vs outdoor dullness, hard water feel, pigmentation after sun, post-wedding glow pressure, "chehra thaka hua." Each reel = 1 problem → why it happens (60-sec science) → 1 actionable fix → soft product nod.

Why it works: This is top-of-funnel attention. Strangers don't follow a brand they don't know, but they **do** stop on content about *their* problem. Indian skincare social is flooded with "Western routine" content that ignores Indian sun, humidity, pollution, hard water and budgets. Naming the local reality is the wedge.

Customer stage: **Stranger → Curious** (they follow the account, not the product).

How it generates sales: Every problem reel ends with a soft nod to the specific product that addresses it ("Yehi kaam humara face wash karta hai") + "GLOW likho DM me." Followers who came for one problem see 4 more solutions over the next week → profile becomes their "skin doctor page" → DM starts. **Measurement: saves + DMs per reel, not views.**

Example hooks (from `07-hooks-library.md`):

- "Gujarat me 40 degree — aapki skin kya kar rahi hai, aapko pata hai?"
- "Monsoon me oily skin wale logo, yeh galti aap roz karte ho."
- "AC ka kamre me baithe bhi tan-look aata hai. Sach me? Haan."

PILLAR 2 — "1 REEL, 1 FACT" (Skincare Education)

What to post: One myth vs reality, one ingredient explained (Vitamin C, niacinamide, SPF, hyaluronic acid, salicylic acid), one routine mistake, one "order of steps" explainer. Always: simple words, one idea, a visual demonstration (pouring serum, mixing, layering on hand), on-screen text with the fact.

Why it works: Education is the highest-saves, highest-trust content for skincare. A woman who **saves** your "Vitamin C + sunscreen kaise use kare" reel has mentally placed you in the "smart brand" category. Saves also push IG algorithm distribution (saves = strong ranking signal). It also directly feeds Instagram/YouTube **search** (see §14): "vitamin c serum kaise use kare" is a real daily search.

Customer stage: Curious → Evaluating. They start believing the brand knows what it's doing.

How it generates sales: Educated buyers ask fewer "will it work?" questions and more "how do I buy?" The DM script handles the rest. Also: every education reel is a **retargeting asset** later (Pillar 2 → Meta video-viewer audiences in §20).

Rules: No medical claims (§29 compliance). End with "Yehi soch ke humne formula banaya" — education becomes brand justification.

PILLAR 3 — "SEE IT, THEN BUY IT" (Product Education & Demonstration)

What to post: The product doing its job, up close: serum texture drop, face wash foam, cream absorption on real skin, before/after of *texture* on hand (not face claims), "what's inside" ingredient transparency, how-to routines (60-sec morning routine), "ek bottle = kitne din" (value math), packaging & batch card (genuine-product trust).

Why it works: This is the bridge between "I trust the page" and "I trust the product." For a new brand, the #1 purchase blocker is "*kya sach me kaam karega?*" — demonstration + transparency (full ingredient list, manufacturer, batch card) answers it without making claims. Texture ASMR is also a proven high-retention Indian skincare format.

Customer stage: Evaluating → First-order.

How it generates sales: These are the 4–6 creatives that **become the Meta ads** (§18 testing). Every product reel is shot to work as an ad: hook in first 2 sec, benefit by 5 sec, CTA by end. One shoot day = 8 reels + 4 ad creatives.

PILLAR 4 — "ASLI LOG, ASALI RESULT" (UGC & Testimonials — the trust pillar)

What to post: Real customers (testers, Founding 100, creators) talking to camera or in daily life: unboxing, first-use, week-2, week-4 updates, honest mixed feedback, "maine pucha: kya kaam karega?" Reuse their words as quote cards. **Only real people, written**

photo consent, no edited claims (§29).

Why it works: Indian buyers of unknown brands have exactly one question: "*kya koi asli uska product use karta hai?*" One real woman saying "2 hafte lagaye, fresh lagta hai" outperforms ten polished brand videos — UGC outperforms brand creative by ~2x in Indian D2C benchmarks. This pillar is also your **ad creative factory**.

Customer stage: **Evaluating → First-order** (and the engine of Repeat, since other buyers see themselves in it).

How it generates sales: 3 paths: (1) organic → profile → DM; (2) repurposed as Meta ads to cold + retargeting audiences; (3) quote-cards as carousel posts that become pinned social-proof posts.

Sourcing: 4-week tester program (20 women, Day 1) → 10 micro-creators (Day 15+) → Founding 100 buyers (Day 21+) → review-ask WhatsApp sequence (Day 14 post-delivery). Full system: [08-before-after-and-ugc.md](#).

PILLAR 5 — "4 HAFTON KA SAFAQ" (Safe Before/After & Transformation)

What to post: **Only real, disclosed** transformations: the 4-week tester program (documented: same light, same angle, no filter, date-stamped), "day 1 vs day 28" side-by-side of real skin with the mandatory on-screen disclaimer, texture/finish changes (glow-look, even tone-look) — **never** "tan removed," "pigmentation gone," "spots erased."

Why it works: Before/after is the highest-converting creative type in Indian skincare ads (it's literally the #1 ROAS driver per benchmarks) — **if it's real and disclosed**. Fakes destroy the brand in one screenshot; reals compound trust for years.

Customer stage: **Evaluating → First-order**.

How it generates sales: Becomes (1) pinned profile post, (2) ad creative for cold audiences, (3) WhatsApp Status material, (4) the #1 reply in any "result dikha do" DM. Rules, timings, and the full compliance script: [08-before-after-and-ugc.md](#) §7.

PILLAR 6 — "GHAR JAISA, SAACHA" (Founder & Brand Story)

What to post: The founder's face and voice — why the brand exists (Gujarati woman, tired of "imported routine" that doesn't fit Indian skin/budget), how the formula was chosen, 20-woman test in Ahmedabad, choosing the manufacturer, the launch-day feeling, failures (rejected first formula, packaging samples), "aaj 50 orders aaye — maine roka nahi kiya." One founder reel/week minimum for 90 days.

Why it works: Zero-awareness brands have no history, so the **founder IS the history**. A face is the fastest trust shortcut that exists, and "Gujarati founder, Gujarati first" is a

cultural match for the first market (§11). Story content is also your most shareable (people share people, not products).

Customer stage: Stranger → Curious AND Evaluating → First-order (it does both jobs — that's why it's worth 10% of the mix forever).

How it generates sales: (1) shares → free reach → new followers; (2) "launch story" reel becomes the launch-day ad; (3) founder appears in DM-answered videos ("aapne pucha...") which convert skeptics; (4) investor/partner/creator credibility later.

PILLAR 7 — "ABHI KA BANAU" (Offers & Sales)

What to post: The Founding 100 launch offer, "what's in the box" unboxing, offer-explainer carousels, "X seats left" (real stock numbers only), bundle posts (Serum + Face Wash = routine kit), seasonal offers (Diwali gifting box in Nov), referral program (give ₹100, get ₹100). **Every sales post has the full anatomy: hook → proof → what you get → price → risk reversal (COD/return) → one CTA.**

Why it works: Attention without an offer is just content. But selling too early/too often kills the trust pillars. Hence the 1-in-5 rule (§22) and the "offer only when proof exists" sequence.

Customer stage: First-order → Repeat → Advocate.

How it generates sales: Directly. This pillar is measured purely in **DM conversations started → orders → COD success rate → repeat rate**. No vanity metrics allowed on this pillar.

Rules: real constraints only (100 units = 100 units), no fake MRP-strike games, price stated plainly, COD + return always on screen.

PILLAR → STAGE MAP (quick reference)

Pillar	Stage targeted	Primary KPI	Weekly target
1. Problems	Stranger → Curious	Saves, new followers, DMs	1 reel
2. Education	Curious → Evaluating	Saves, search impressions	1-2 reels
3. Product demo	Evaluating → First-order	DMs, ad CPA (when run)	1-2 reels
4. UGC/Testimonials	Evaluating → First-order	DMs, ad ROAS	1-2 reels (as available)
5. Before/After	Evaluating → First-order	DMs, ad ROAS	0-1 reel (only when real data exists)
6. Founder/Story	Stranger → Curious + trust	Shares, profile visits	1 reel
7. Offers/Sales	First-order → Repeat	Orders, repeat %	1 post (1 in 5)

The iron rule: if a reel doesn't know which pillar it belongs to, it doesn't get posted.

PART 4

§4 NEW ACCOUNT LAUNCH STRATEGY — RANGAT NATURALS (Day 1 → Week 4)

The launch is a 30-day story, not a day. The story arc:

- **Week 1 — "Who is this?"** (identity + problems, zero selling)
- **Week 2 — "What do they know?"** (education + hero product introduced)
- **Week 3 — "Is it real?"** (proof + launch countdown)
- **Week 4 — "How do I buy?"** (launch + Founding 100 + conversion)

Before Day 1 (Day 0 — do this, non-negotiable):

1. Profile fully built per [13-stories-and-profile.md](#) (bio, name field, 5 highlights, 3 placeholder-quality pinned posts: founder intro, "what is RANGAT," one problem reel).
2. WhatsApp Business set up: catalog (3 products), quick replies, labels, greeting message, business profile photo = same as IG.
3. 20-person **tester list** assembled (friends/family/college, Ahmedabad, women 20–40, mix of skin types) — the 4-week proof program starts Day 1 with the actual product batch.
4. 10 micro-creator shortlist (5k–50k, Gujarat) with email/DM template ready (see [12-gujarat-first.md](#) §creators).
5. Batch-shoot Day 1–7 content in one 4-hour session (see [21-production-system.md](#)).

WEEK 1: DAY 1 → DAY 7 ("WHO IS THIS?")

Goal: ~150–300 genuine followers, 20 testers started, 10+ DM conversations, zero sales pressure.

DAY 1 (Mon) — REEL · Pillar 6 (Founder)

Idea: The honest intro. No logo animation. Founder on camera, plain background, natural light.

Hook (spoken + on-screen): "Main ek naye skincare brand ki shuruwat kar rahi hu — bina kisi bade budget ke. Is series me main sab dikhau gi, asli me."

Script: "Hi, main [Name], RANGAT NATURALS ki founder. Gujarat se. Humne Indian skin ke liye skincare banayi hai — aur is account par main weekly dikhau gi: formula kaise chuna, 20 aahaiyon ne kaise test kiya, aur asli results kya aaye. Koi filter nahi, koi fake result nahi. Agli 30 din ke saath raho."

On-screen text: "RANGAT NATURALS — Asli skin. Asli result." → "30 din ka safar. Follow karo."

Caption: "Ek naya Indian skincare brand. Ek honest promise: jo dikhaayenge, wohi rahega. Pehla episode: hum kaun hain. #RangatNaturals #IndianSkincare"

CTA: "Follow karo — kal: Gujarat me 40 degree aapki skin kar rahi hai kya?"

Purpose: Identity + trust foundation. | **Target:** everyone in Ahmedabad feed. | **Sales purpose:** none (deliberate) — building the relationship.

Bonus: Founder's personal IG/FB story posts this + "friends, naya page, genuine hai" (first 50 followers come from her network — legitimate, warm, and these are buyers' mothers/sisters).

DAY 2 (Tue) — REEL · Pillar 1 (Problem)

Idea: The 40-degree / monsoon-skin problem reel (no product at all).

Hook: "Gujarat me mausam dekho — aapki skin abhi kya kar rahi hai?"

Script: "40 degree, pollution, phir ghar ka AC — yeh teeno aapki skin par alag se alag karte hain. Bahar: oil, shine, wide pores ka feel. Indo: tightness, dullness. Aur phir dono me — ek thaka hua, 'thoda brown' dikhna. Yeh sab normal hai — aur sab fixable hai. Kal se hum ise detail me samjhogi. Aapka sabse bada skin problem kya hai? Comment me likho."

On-screen text: "40° bahar. AC andar. Skin beech me."

Caption: "Indian skin ko Indian mausam samajhna padta hai. Aapka sabse bada skin issue kya hai? Comment karo — hum padh rahe hain. #Ahmedabad #Gujarat #IndianSkin"

CTA: "Comment me apna skin type likho: oily / dry / normal / confused."

Purpose: Attention + comment fuel (comments = algorithm push + DM triggers). | **Target:** women 20–35 Gujarat. | **Sales purpose:** collecting pain points for future content (real DM data).

DAY 3 (Wed) — CAROUSEL · Pillar 2 (Education)

Idea: 6-slide save-bait: "5 cheezein jo aapki skin ko roz kharab kar rahi hain (aap shayad sab kar rahi ho)."

Slides: (1) Cover: "5 daily skin-killers — #3 sab common hai" (2) UV from windows/screens: "Haan, window se bhi aata hai UV" (3) Touching your face 15x/day: "Aapne phone touch kiya? Ab chehra bhi" (4) Hard water + wrong soap: "Ghar ka paani bhi matter karta hai" (5) No sunscreen indoors: "AC ghar ka hai, UV nahi" (6) CTA: "Save karo. Aur aapka #5 kya hai? Comment karo."

Hook (cover text = hook): "5 cheezein jo AAJ bhi aapne skin ko kharab kar rahi hain."

Caption: "Zyada tar skin problems 'kisi cream ka nahi hona' nahi — daily habits se aati hain. Kaunsi number pe aap rahi ho? 1 se 5 likho. #SkincareIndia #SkincareRoutine"

CTA: "Save karo + comment karo apna number."

Purpose: Saves (algorithm) + establish "they know their stuff." | **Target:** 20–40, any skin type. | **Sales purpose:** profile becomes saved-reference; comment-to-DM pipeline.

DAY 4 (Thu) — REEL · Pillar 2 (Myth vs Reality)

Idea: "100% herbal = safe? Myth vs reality."

Hook: "'100% herbal' likha hai toh lagao? Yeh sach jano."

Script: "Herbal matlab safe — yeh sabse bada myth hai. Koi natural ingredient bhi high concentration me, galat time par, skin ko irritate kar sakta hai. Aur 'no chemicals' possible nahi hai — h2O bhi chemical hai. Achhi skincare wahan banti hai jahan ingredient, concentration, aur skin type — teeno match kare. Humari next reel me: humne formula kaise choose kiya."

On-screen text: "Myth: Herbal = Safe. Reality: Concentration + Skin type = Key."

Caption: "Aap kya check karte ho — brand ya ingredient list? Hum ingredient se shuru karte hain. #SkincareMyths #VitaminCSerum"

CTA: "Follow karo — kal: humara pehla 'Gujarati ghar' reel."

Purpose: Authority + differentiation from "totka-only" and "chemical-scare" content. |

Target: 25–45, ingredient-curious. | **Sales purpose:** pre-frames ingredient transparency (Pillar 3) and brand honesty.

DAY 5 (Fri) — REEL · Pillar 6+1 (Relatable/Gujarati)

Idea: Comedy-slice: Maa vs modern skincare. Skit: founder asks mom "main cream lagati hu, skin ke liye," mom: "Kya karta hai yeh cream? Pehle nani ke totke the, wahi the sahi." Founder to camera: "Aur humne socha — kya agar dono ko mila do?"

Hook: "Gujarati ghar me skincare pehli baar chalu ki?"

Script (skit + punchline): Skit as above, then: "Maa ka point valid hai — ghar ke totke me samajh hai. Par 2026 me skin ke liye bas haldi-ubtan kaafi nahi, na hi 3000 wali imported routine. RANGAT ka idea exactly yahi hai: Indian skin ki samajh + sahi ingredient + aam daam. Aaj se is page par dono dikhenge."

On-screen text: "Totke ki samajh + science ka formula." → "RANGAT NATURALS"

Caption: "Nani ne sikhaya, science ne proof diya. Aapke ghar me kaunsi school jeeti hai? #Gujarat #DesiSkincare"

CTA: "Share karo us dost ko jisne abhi tak 'cream kya hai' bola hai."

Purpose: Shareability (local culture) + positioning statement delivered as humor. | **Target:** 20–40 Gujarati + desi-identifying Indians. | **Sales purpose:** none direct — but this is the reel that gets the account "known" locally.

DAY 6 (Sat) — REEL · Pillar 6 (Brand story/teaser)

Idea: "Humne 3 mahine sirf ek serum dhoondha." Behind the scenes: label sketches, formula comparisons, 20 tester names (blur if needed), lab photos from manufacturer.

Hook: "Ek chhota brand. Ek bada sawal: Indian skin par kaunsa Vitamin C sach me kaam karega?"

Script: "Hum manufacturer nahi hain — hum RANGAT NATURALS, ek brand. Humne formula chuna, concentration test ki, 20 aahaiyon par 4 hafte trial chala — Ahmedabad me, aapke sheher me. Kyun? Kyunki 'imported' routine Indian mausam me toot jaata hai. Kal:

humne kyun 10% Vitamin C choose kiya. Follow karo — is series ka aakhri hissa launch hai."

On-screen text: "20 testers. 4 hafte. 1 sachcha result."

Caption: "Behind the brand: kaise, kyun, kiski madad se. Part 2 kal. #RangatNaturals #SkincareIndia"

CTA: "Follow karo — Sunday: aapke sawaal, hamare jawaab (Stories se)."

Purpose: Brand substance + tease of proof + hint of launch. | **Target:** followers from Days 1-5. | **Sales purpose:** plants "launch" in their mind without selling.

DAY 7 (Sun) — REEL (Q&A) + HEAVY STORY DAY · Pillar 1+6

Idea: "Aapne pucha, humne suna" — top 4 questions from comments/DMs of Week 1, answered fast (15 sec each, cut).

Hook: "Aapne puche 4 sawaal — jinke jawaab 90% pages nahi dete."

Script (4 rapid answers): Q1 "Oily skin pe bhi moisturizer?" → "Haan, gel-type. Skin ko paani chahiye, oil nahi." Q2 "Vitamin C subah ya raat?" → "Subah, SPF ke saath — kal detail." Q3 "Kitne din me result?" → "Fair jawaab: 4-6 hafte daily use me. 3 din me koi asli brand wada nahi karta." Q4 "COD hai?" → "Haan. Pehli baar kharid rahe ho toh yeh sabse zaroori line hai."

On-screen text: each question + short answer, then "Naya sawaal? DM karo."

Caption: "Aapke sawaal hi hamara content hain. Aur haan — COD. Pehle din se. #SkincareFAQ #IndianSkincare"

CTA: "DM karo apna sawaal — best 4 agle Sunday answer honge."

Stories this day (4-5): poll "Aapki skin: oily ☒ / dry ☒", question box "Ask us anything about skin", founder photo "hum kaun hain", teaser "ek product launch ho raha hai... guess karo kya?", DM CTA "GLOW likhna seekho."

Purpose: Community + FAQ (pre-sell objections) + poll data. | **Target:** existing 200-300 followers. | **Sales purpose:** COD answer = de-risks first purchase before it's even offered.

WEEK 2 ("WHAT DO THEY KNOW?") — Days 8-14, one-line plan per day

- **D8 (Mon) — REEL, Pillar 3: HERO PRODUCT INTRO.** "Mila karo: RANGAT Vitamin C Serum 10%." Texture drop, 3 honest benefits (brightens look, evens tone-look over time, fresh feel), price anchor, "launch coming — DM GLOW to be first in line." **This is the first product post.** CTA: comment "GLOW."
- **D9 (Tue) — REEL, Pillar 2+3: HOW-TO.** "Vitamin C serum 99% log galat tarah se lagate hain." (Dry face, 3-4 drops, morning, SPF after, not with strong acids same time.) CTA: save.
- **D10 (Wed) — CAROUSEL, Pillar 2: INGREDIENT DEEP DIVE.** 7 slides: "Vitamin C serum actually kya karta hai? (60-second science)." Slides: what VC does → 10% why

(sweet spot) → who benefits most (dull/tan-look/pigmentation-look) → who should be careful (irritation-prone: patch test) → what it WON'T do (no overnight miracles) → how to store (dark, cool) → CTA save.

- **D11 (Thu) — REEL, Pillar 1+3: PROBLEM→SOLUTION.** "Bahar ka main, andar ka dull — dono same cheez." (Outdoor UV + indoor screen/window UV both add up.) Soft product nod. CTA: comment GLOW.
- **D12 (Fri) — REEL, Pillar 4: FIRST TESTER REACTION.** Real tester (friend/relative, disclosed "humari tester"), week-2 honest reaction: "Fresh lagta hai, par meri dry patch abhi bhi hai — honest hai." CTA: "Day 28 wala update is page par aayega — follow karo."
- **D13 (Sat) — REEL, Pillar 6: FOUNDER STORY #2.** "Brand banana kitna mushkil tha" — rejected first formula, 3 packaging samples, why we chose this manufacturer (certified facility, GMP line). Transparency = trust. CTA: share.
- **D14 (Sun) — REEL, Pillar 7 (soft) + Q&A stories.** "Achhi skincare mehngi honi chahiye? Nahi." Price-value reel: honest breakdown (formula + testing + certified manufacturing + no middleman = your price). Still no hard offer. CTA: "Launch is hafte — GLOW likho." Stories: countdown to launch (3 days), tester day-14 photo (with consent + disclaimer), quiz "kitna SPF chahiye?"

Week 2 exit criteria: 500+ followers, 30+ DMs collected ("GLOW" list), tester program halfway (14 days), 10 creators contacted.

WEEK 3 ("IS IT REAL?") — Days 15-21

- **D15 (Mon) — REEL, Pillar 1: MISTAKES.** "Yeh 3 skincare galtian har ek Indian girl kar rahi hai." (Over-washing, skipping SPF indoors, layering 6 products). CTA: comment.
- **D16 (Tue) — REEL, Pillar 3: PRODUCT DEMO/TEXTURE.** "10 second me dekho — 10% Vitamin C kaisa lagta hai." Close-up palm, drop, spread, absorption. Plus "kyun 10% — zyada matlab behtar nahi." CTA: comment GLOW.
- **D17 (Wed) — REEL, Pillar 5: FIRST REAL BEFORE/AFTER.** Tester program **day-28** results (real, disclosed, 2-3 faces max, same light/angle, "4 hafte daily use · results may vary" on screen). This is the most important trust asset of the launch. CTA: "DM GLOW — launch kal se."
- **D18 (Thu) — REEL, Pillar 2: EDUCATION (future product seed).** "Ghar par baithe bhi sunscreen kyun?" (UV through windows, cumulative exposure.) Sets up Month-2 product without selling it. CTA: share with a friend.
- **D19 (Fri) — REEL, Pillar 4: FIRST MICRO-CREATOR DROP.** Ahmedabad creator (10k-30k) posts her honest "2 hafte RANGAT" video; we repost + collab. CTA: follow both.
- **D20 (Sat) — REEL, Pillar 6: LAUNCH COUNTDOWN + BTS.** "Kal se RANGAT NATURALS live." Packing the first 100 boxes (real footage), "100 units, phir agla batch." CTA: notifications on.
- **D21 (Sun) — REEL, Pillar 7: LAUNCH — "FOUNDING 100."** The full offer, announced properly (see exact copy in [06-calendar-days-21-30.md](#) Day 21). CTA: **DM**

"GLOW" / WhatsApp link.

Week 3 exit criteria: before/after asset live, creator collab live, 100-unit batch packed, "GLOW" DM list 50+, ads account warmed (Pixel + WhatsApp catalog live), Day-15-20 optional ₹200/day boost on D17 reel (only if organic CTR $\geq$ 1.5%).

WEEK 4 ("HOW DO I BUY?") — Days 22-30

- **D22 (Mon) — REEL, Pillar 7: OBJECTION KILLER.** "Naya brand, pehli baar, tension?" — COD, open parcel, return, 4-6 week honest expectation. CTA: DM GLOW.
- **D23 (Tue) — REEL, Pillar 3: 60-SEC ROUTINE.** "Subah ki 3-step routine — 60 second." (Face wash → serum → moisturizer/SPF.) CTA: save + DM.
- **D24 (Wed) — REEL, Pillar 4: FIRST CUSTOMER UNBOXING.** Real buyer #1-10 films her parcel opening (incentive: free Face Wash mini + "your face on our page"). CTA: DM GLOW.
- **D25 (Thu) — REEL, Pillar 2: MYTH.** "Vitamin C se chehra orange? Yeh myth kyun chalta hai." CTA: save.
- **D26 (Fri) — REEL, Pillar 4: FIRST VIDEO REVIEW.** Real customer (Founding 100), week 1-2: "Maine socha naya brand = risk. Par COD + 2 hafte me fresh feel — repeat pakka." CTA: DM.
- **D27 (Sat) — CAROUSEL, Pillar 7: "FOUNDING 100 — BOX ME KYA HAI."** 6 slides: what's in the box (serum + face wash mini + card with usage + WhatsApp support) → why 100 only → how to order (DM GLOW / WhatsApp) → COD line → testimonial quote → CTA.
- **D28 (Sun) — REEL, Pillar 1+6: COMMUNITY Q&A.** "Aapne DM me pucha: raat ko kya lagana chahiye?" (Soft seed for Night Cream, Month 3 — no selling.) CTA: DM your question.
- **D29 (Mon) — REEL, Pillar 6: MILESTONE + REFERRAL LAUNCH.** "Launch ka pehla hafte — aapne X orders kiye. Ab referral: do ₹100, lo ₹100." (Referral program formalized.) CTA: share your code.
- **D30 (Tue) — REEL, Pillar 7: OFFER CLOSE + TEASE.** "Founding 100 me sirf X seats bachi — phir regular price. Aur next? Sunscreen." (Real stock count; if 100 sold out, this becomes "batch 2 next month — list me jao.") CTA: DM GLOW.

Day 30 exit criteria (the real KPIs): 1,000-1,500 followers, **60-100 orders** (target: 100 = Founding 100 sold out), 15+ real UGC assets, 800+ "GLOW" DMs handled, WhatsApp list 300+, 1 creator collab + 5 more signed, ads running ₹500/day since ~Day 21 with $\geq$ 1 creative showing ATC. If Founding 100 not sold by Day 30 → diagnose DM pipeline (90% of the time it's reply speed or COD clarity), extend "batch 2 waitlist," DO NOT fake a "SOLD OUT."

PART 5

§5 THE 30-DAY DAILY CONTENT CALENDAR — RANGAT NATURALS (DAYS 1-10)

How to use: This is the shoot bible. Each day = 1 primary asset (posted) + that day's Stories (in [13-stories-and-profile.md](#)). Languages: Hinglish default, Gujarati where marked (G). Shoot days: Day 1 session covers Days 1-7 assets; Day 8 session covers Days 8-14 (see [21-production-system.md](#)).

Posting time: 7:30-9:00 PM IST (weekdays); 10:00-11:00 AM (weekends). YouTube Shorts upload of top 3 reels: every Friday (titles from [14-seo-and-hashtags.md](#)).

DAY 1 (Mon) — REEL · 30-45s · Pillar 6: FOUNDER INTRO

- **Platform:** Instagram Reel → Facebook (crosspost)
- **Idea:** Honest founder intro, no polish. "I'm starting a skincare brand from scratch — and I'll show you everything."
- **Hook (frame 1, spoken + text):** "Main ek naye skincare brand ki shuruat kar rahi hu — zero followers, zero budget. Aur main is series me SAB dikhau gi, bilkul asli me."
- **Video/image concept:** Founder, chest-up, window light, plain wall or bathroom. Cut 1: face + intro. Cut 2: hand holds RANGAT box (first batch). Cut 3: quick flashes — label sketch, 20 tester names on a whiteboard, packing table. End: founder faces camera.
- **Script (VO/live):** "Hi, main [Name]. Main Gujarat se hoon, aur maine RANGAT NATURALS shuru kiya hai — Indian skin ke liye skincare. Is account par is chand me aap dikhoge: humne formula kaise choose kiya, 20 aahaiyon ne 4 hafte test kaise kiya, aur asli results kya aaye — filter nahi, fake photo nahi. Ek cheez promise karti hoon: jo dikhaayenge, wohi rahega. 30 din ke saath chalo. Pehla episode: hum kaun hain, aur kyun."
- **On-screen text:** [0-2s] "Zero followers. Ek sachchi shuruwat." → [mid] "20 testers · 4 hafte · 1 sachcha result" → [end] "RANGAT NATURALS — Asli skin. Asli result."
- **Caption:** "Ek naya Indian skincare brand. Ek honest promise: jo dikhaayenge, wohi rahega. Pehla episode: hum kaun hain. #RangatNaturals #IndianSkincare #Ahmedabad"
- **CTA:** "Follow karo — kal: 40 degree me aapki skin kar rahi hai kya?"
- **Content purpose:** Identity + trust anchor (founder face) + series promise.
- **Target customer:** All — awareness cast. Especially 20-35 Gujarat.
- **Sales purpose:** None directly (deliberate). Indirect: every future DM starts from this trust.

DAY 2 (Tue) — REEL · 25-35s · Pillar 1: PROBLEM (no product)

- **Platform:** IG Reel → FB
- **Idea:** The 40°/monsoon/AC trinity problem — the single most relatable Gujarat skin complaint.
- **Hook:** "Gujarat me mausam dekho. Aapki skin abhi kya kar rahi hai — aapko pata hai?"
- **Concept:** 3 quick location cuts (or 3 outfit/lighting changes to simulate): (1) outside/bright — sweat, shine; (2) AC room — face tight/dull; (3) mirror selfie — "thaka hua" look. Founder talks over B-roll.
- **Script:** "Bahar 40 degree — oil, shine, pores wide. Ghar ka AC — tightness, dry patches. Aur dono ke beech ek look jo har mirror me dikhta hai — thoda dull, thoda 'brown'. Yeh teeno cheezein aapki skin roz saamne aati hain. Aur yeh teeno fixable hain — sahi routine se. Agle din se hum ise step by step samjhogi. Aapka sabse bada skin problem kya hai? Comment me likho — hum padh rahe hain."
- **On-screen text:** [hook] "40° bahar. AC andar. Skin beech me." → "Oil · Tightness · Dullness" → "Fixable hai. Kal se."
- **Caption:** "Indian skin ko Indian mausam samajhna padta hai. Aapka #1 skin issue kya hai — oily, dull, ya dono? Comment karo. #Gujarat #IndianSkin #MonsoonSkincare"
- **CTA:** "Comment karo apna skin type: oily / dry / normal / confused "
- **Content purpose:** Attention + comment velocity (algorithm) + pain-point harvesting.
- **Target customer:** Women 20-35, Gujarat, oily/dull skin.
- **Sales purpose:** Collect real pain points → tomorrow's DM follow-ups + future content. No selling.

DAY 3 (Wed) — CAROUSEL · 6 slides · Pillar 2: EDUCATION

- **Platform:** IG + FB
- **Idea:** Save-bait list: "5 cheezein jo aapki skin ko ROZ kharab kar rahi hain (#3 sab common hai)."
- **Hook (cover slide):** "5 daily skin-killers — #3 aap bhi karti ho."
- **Concept (images):** 1 clean text card + 5 photo cards (real shots: phone in hand near face, window light on face, tap water, sunscreen on palm, mirror). Cream/terracotta palette, big type.
- **Slides:** ① Cover: "5 daily skin-killers — #3 aap bhi karti ho." ② "UV window aur screens se bhi aata hai — ghar baithe bhi." ③ "Apna chehra din me 15+ baar chhuna — phone touch kiya? Ab chehra bhi." ④ "Garam paani + strong soap = skin barrier weak. Paani garam nahi, halka gunguna." ⑤ "SPF sirf 'bahar jaane par'? Indoor UV cumulative hota hai." ⑥ "Save karo. Aapka #6 kya hai? Comment karo + follow karo."
- **Script:** N/A (carousel). Add a 20-sec Reel version: "Agar aapme 2 se zyada ho toh aapki skin ko routine chahiye, products nahi."

- **On-screen text:** As per slides (each = 1 idea, ≤12 words).
- **Caption:** "Zyada tar skin problems kisi cream ka nahi hona nahi — daily habits se aati hain. Aap kis number pe rahi ho? 1 se 5 comment karo. #SkincareRoutineIndia #SkincareTips #IndianSkincare"
- **CTA:** "Save karo + apna number comment karo."
- **Content purpose:** Saves (ranking signal) + authority ("they know").
- **Target customer:** 20-40, routine-curious, all skin types.
- **Sales purpose:** Saved posts resurface in user's feed for weeks; commenters get DM'd (pipeline).

DAY 4 (Thu) — REEL · 30-40s · Pillar 2: MYTH VS REALITY

- **Platform:** IG Reel → FB → (save for YT Shorts later: title "100% herbal cream kya safe hai?")
- **Idea:** "100% herbal = safe?" — the myth every Indian buyer has, attacked honestly.
- **Hook:** "'100% herbal' likha hai toh lagao? Pehle yeh sach jano."
- **Concept:** Founder to camera; B-roll: generic herbal jar (no brand visible), ingredient card, hand with a drop of serum. Split-screen "MYTH / REALITY" graphic for 2 sec.
- **Script:** "Myth: herbal matlab safe, chemical matlab nuksaan. Reality: haldi, amla, koi bhi natural ingredient — galat concentration me ya galat skin par — irritation de sakta hai. Aur 'no chemicals' possible nahi bhi hai — water bhi chemical hai. Asli baat yeh hai: ingredient + concentration + aapka skin type. Teeno match kare toh herbal bhi kaam karta hai, scientific bhi. Yehi soch ke humne apna formula choose kiya. Kal: kyun exactly wahi choose kiya."
- **On-screen text:** "MYTH: Herbal = Safe" → "REALITY: Concentration + Skin Type = Key" → "H2O bhi chemical hai "
- **Caption:** "Aap kya check karti ho — brand ka naam ya ingredient list? Hum ingredient se shuru karte hain. #SkincareMyths #SkincareEducation"
- **CTA:** "Follow karo — kal: humara 'Gujarati ghar' reel aayega."
- **Content purpose:** Authority + differentiation (neither "totka-only" nor "chemical-scary").
- **Target customer:** 25-45, ingredient-curious, skeptical of both extremes.
- **Sales purpose:** Pre-frames Pillar 3 transparency (tomorrow's brand story).

DAY 5 (Fri) — REEL · 25-40s · Pillar 6+1: RELATABLE (G) — SHAREABLE

- **Platform:** IG Reel → FB (this one runs on shares)
- **Idea:** Maa vs modern skincare skit — the Gujarati home version. Delivers the positioning as a joke.

- **Hook (G + Hindi mix):** "Gujarati ghar me pehli baar 'skincare' shuru ki? Watch this."
- **Concept:** Two-character skit (founder + mom/friend as mom). Kitchen or living room. Natural light. Ends with founder to camera.
- **Script:** [Skit] Founder: "Maa, main ab skincare karti hoon." Mom: "Kya karta hai yeh cream? Nani ke waqt humara chehra kharab tha?" Founder: "Par nani bhi toh haldi ubtan lagati thi!" Mom: "Haan! Wahi lagao." [Cut — founder to camera, smiling] "Aur humne exactly wahi socha: nani ki samajh + aaj ka science. Ghar ke totke me samajh hai — par 2026 me sirf ubtan kaafi nahi, na 3000 wali imported routine. RANGAT ka idea yahi hai: Indian skin ki samajh, sahi ingredient, aam daam. Aaj se is page par dono dikhenge."
- **On-screen text:** "Nani: Wahi lagao " → "Totke ki samajh + science ka formula" → "RANGAT NATURALS"
- **Caption:** "Nani ne sikhaya, science ne proof diya. Aapke ghar me kaunsi school jeettī hai — totka wala ya routine wala? #Gujarat #DesiSkincare #GujaratiHumor"
- **CTA:** "Share karo us dost ko jisne abhi tak kaha hai — 'cream kya hai'."
- **Content purpose:** Shares (viral reach, local culture) + positioning statement.
- **Target customer:** 20–40, Gujarati + desi-identifying; secondaries (friends/family) via shares.
- **Sales purpose:** None direct. This is the "brand known in the city" reel — it makes the account *recognizable* in Ahmedabad feeds.

DAY 6 (Sat) — REEL · 40–50s · Pillar 6: BRAND STORY / TEASER

- **Platform:** IG Reel → FB
- **Idea:** "Humne 3 mahine sirf ek serum dhoondha" — behind the brand: how the formula was chosen.
- **Hook:** "Ek chhota brand. Ek bada sawal: Indian skin par kaunsa Vitamin C sach me kaam karega?"
- **Concept:** Montage: formula sheets/labels (blurred where needed), whiteboard with concentration options, 20 tester names board, lab photos/videos from the certified manufacturer (with permission), packing table. Founder VO over it, ends on camera.
- **Script:** "Hum RANGAT NATURALS — hum manufacturer nahi hain, hum ek brand hain. Humne formula choose kiya, concentration test ki, aur 20 aahaiyon par 4 hafte ka trial chala — Ahmedabad me. Kyun? Kyunki 'imported' routine Indian mausam me toot jaata hai. 3 mahine humne sirf ek serum dhoondha — aisa jo yahan ki skin par, yahan ke mausam me kaam kare. Aur mil gaya. Kal: humne kyun choose kiya exactly 10% Vitamin C. Follow karo — is series ka aakhri hissa launch hai."
- **On-screen text:** "3 mahine. 1 serum. 10000+ sawaal." → "20 testers · 4 hafte · Ahmedabad" → "Hum manufacturer nahi. Hum RANGAT hain."
- **Caption:** "Behind the brand: kaise, kyun, kiski madad se. Part 2 kal. #RangatNaturals #SkincareBrand #BehindTheBrand"

- **CTA:** "Follow karo — Sunday: aapke sawaal, hamare jawaab (Stories se aaye)."
- **Content purpose:** Brand substance + proof-tease + "launch is coming" planting.
- **Target customer:** Week-1 followers (200–400).
- **Sales purpose:** Creates anticipation; "launch" word drops first time (no offer yet).

DAY 7 (Sun) — REEL · 40–60s · Pillar 1+6: Q&A (community) + heavy Story day

- **Platform:** IG Reel + 4–5 Stories
- **Idea:** "Aapne puche 4 sawaal — jinke jawaab 90% pages nahi dete." (Sourced from Day 2–6 comments/DMs — real questions only.)
- **Hook:** "Aapne puche 4 sawaal. Is hafte ke 4 jawaab."
- **Concept:** Fast-cut: question as on-screen text (screenshot of the actual comment — permission where face visible) → founder answers in 12–15 sec. 4 rounds.
- **Script:** Q1 "Oily skin pe bhi moisturizer?" → "Haan. Gel type. Skin ko paani chahiye, oil nahi — aur bina hydration ke skin aur zyada oil banati hai." Q2 "Vitamin C subah ya raat?" → "Subah best hai — aur SPF ke saath. Kal iska full routine dikhau gi." Q3 "Kitne din me result dikhega?" → "Fair jawaab: 4–6 hafte daily use. Koi asli brand 3 din ka wada nahi karta — jo kare, wahan se bhaago." Q4 "COD milega?" → "Haan. Pehli baar kisi naye brand se lete ho? Yeh sabse zaroori line hai."
- **On-screen text:** each question → one-line answer. End: "Naya sawaal? DM karo."
- **Caption:** "Aapke sawaal = hamara content. Aur haan — COD, pehle din se.
#SkincareFAQ #IndianSkincare #RangatNaturals"
- **CTA:** "DM karo apna sawaal — best 4 agle Sunday answer honge."
- **Content purpose:** Community + FAQ (pre-kill objections) + poll data collection.
- **Target customer:** Existing followers; commenters.
- **Sales purpose:** COD answer de-risks the first purchase *before* it's offered; Q3 sets honest expectation (fewer returns later).
- **Stories (4–5):** ① Poll: "Aapki skin: Oily ☒ / Dry ☒ ② Question box: "Skin ke baare me kuch bhi puchho" ③ Founder photo + "hum kaun hain" ④ Teaser: "Ek product launch ho raha hai... guess karo kya hai? (serum? cream?)" ⑤ DM CTA: "GLOW likh kar DM karo — launch list me add karte hain."

DAY 8 (Mon) — REEL · 35–45s · Pillar 3: HERO PRODUCT INTRO (first product post)

- **Platform:** IG Reel → FB → (add to WhatsApp catalog same day)
- **Idea:** "Mila karo: RANGAT Vitamin C Serum 10%." First-ever product reveal — treat it like a meeting, not a TVC.

- **Hook:** "Yeh woh serum hai jo humne 3 mahine dhoondha. Milti hai — RANGAT Vitamin C 10%."
- **Concept:** Product on wooden/terracotta surface, hand enters, drops 2–3 drops on palm (texture shot, close-up), spreads on back of hand, shows label + ingredient card. Founder appears last 10 sec.
- **Script:** "Mila karo — RANGAT Vitamin C Serum, 10%. Yeh kya karta hai, seedhe shabdon me: regular use me skin ko fresh aur bright *dikhane* me help karta hai, tone-look ko even *dikhane* me. Kya nahi karta: 3 din me koi miracle nahi. 4–6 hafte daily use — tab tak results har kisi par alag hote hain. Humari 20 testers ne 4 hafte lagaya — unki asli photos aapne dekh li hain. Aur jo sabse zaroori: launch me pehli 100 orders me free Face Wash mini + free shipping + COD. Is launch me pehla number lena ho — GLOW likho DM me."
- **On-screen text:** [hook] "3 mahine ka dhoondna. 1 serum." → "10% Vitamin C · Indian skin ke liye" → "4–6 hafte · daily use · results vary" → "Launch offer: Pehli 100 orders me FREE Face Wash mini + FREE shipping + COD"
- **Caption:** "Mila karo: RANGAT Vitamin C Serum 10%. Dullness, tan-look, uneven tone-look ke liye — 4–6 hafte ke honest timeline ke saath. Launch: pehli 100 orders. GLOW likho DM me. #VitaminCSerum #SkincareIndia #RangatNaturals"
- **CTA:** "DM karo 'GLOW' — launch list me pehle aana."
- **Content purpose:** Product anchor post; defines the hero.
- **Target customer:** Followers who saved Day 3/10 content + commenters.
- **Sales purpose:** FIRST soft offer capture — builds the "GLOW" waitlist that becomes launch-day conversion.

DAY 9 (Tue) — REEL · 30-40s · Pillar 2+3: HOW-TO (save-bait)

- **Platform:** IG Reel → FB → queue for YT Shorts (title: "Vitamin C serum kaise use kare — step by step")
- **Idea:** "Vitamin C serum 99% log galat tarah se lagate hain."
- **Hook:** "Agar aap serum bheege chehre par lagati ho — ruko. 99% log yahi galti karte hain."
- **Concept:** Hands-only demo (clean, bright): dry face → pump 3–4 drops → 5 points (forehead, cheeks, nose, chin) → light pat → wait 30 sec → moisturizer → SPF. Quick cuts, 4 sec each step.
- **Script:** "Step 1: Chehra saaf aur KHURRAK ho — bheege chehre par nahi. Step 2: 3–4 drops, haath ke upar. Zyada drops nahi — zyada matlab behtar nahi. Step 3: Pat karo, mat rub karo. 30 second raho. Step 4: Moisturizer. Step 5: SPF — subah zaroori, serum ke saath duo yehi hai. Aur ek warning: strong acids (AHA/BHA) ke saath same time par mat milao. Yeh 4 cheezein yaad rahi toh serum apna kaam karega. Save karo — subah ki routine me kaam aayega."

- **On-screen text:** "GALATI: Bheege chehre par" → "1. Khurrak chehra 2. 3–4 drops 3. Pat, 4. Moisturizer 5. SPF ✱" → "Acids ke saath mat milao."
- **Caption:** "Serum sasta nahi padna chahiye — iska istemal sahi hona chahiye. 5 steps, 40 second. Save karo. #VitaminCSerum #SkincareRoutine #HowToUse"
- **CTA:** "Save karo + GLOW DM me (launch list)."
- **Content purpose:** Saves + "they teach properly" + search capture (YT/IG search: "vitamin c serum kaise use kare").
- **Target customer:** Serum buyers (active searchers) + waitlist.
- **Sales purpose:** Waitlist nurture; search traffic → profile → DM.

DAY 10 (Wed) — CAROUSEL · 7 slides · Pillar 2: INGREDIENT DEEP DIVE

- **Platform:** IG + FB
- **Idea:** "Vitamin C serum actually kya karta hai? (60-second science, simple words)."
- **Hook (cover):** "Vitamin C serum kya karta hai — sach me? (60 sec science)"
- **Concept:** Clean cards, cream background, big type, one fact per slide, a texture photo on slide 4.
- **Slides:** ① Cover: "Vitamin C kya karta hai? (60 sec)" ② "Skin ko UV/pollution se aane wale 'dull-look' ko bright *dikhane* me help karta hai." ③ "Regular use me tone-look ko even *dikhane* me help karta hai — dark spots ka *dikhna* kam." ④ (texture photo) "10% kyun? — Research me 10%+ concentration me brightening benefit milta hai; zyada = zyada irritation ka risk, zyada fayda nahi." ⑤ "Kis ke liye best: dull/tan-look skin, post-pigmentation look, thaka hua chehra. Kis liye careful: irritation-prone — patch test pehle." ⑥ "Kya NAHI karta: raat bhar ka miracle nahi, 'tan remove' nahi, sun tan rokne ke liye SPF alag cheez hai." ⑦ "Save karo. Follow karo. Aur aapka VC ka sawaal? DM karo."
- **Script (20-sec Reel version for Reels-first users):** "Vitamin C ka kaam seedhe: bright look, even tone-look, aur 4–6 hafte me farq jo khud dikhe. 10% sweet spot hai — zyada concentration = zyada irritation risk, zyada fayda nahi. Aur haan — yeh SPF ka alternative nahi, partner hai."
- **On-screen text:** per slides.
- **Caption:** "Vitamin C pe itne myths chal rahe hain ki humne poori baat likh di. 60 second, zero jhanjhat. Save karo. #VitaminC #SkincareScience #SkincareIndia"
- **CTA:** "Save karo + DM karo apna VC sawaal."
- **Content purpose:** Authority + saves + search asset (IG search "vitamin c serum kya karta hai").
- **Target customer:** Evaluating stage; serum researchers.
- **Sales purpose:** Pre-answers "yeh kaam karega?" — waitlist DMs increase.

WEEK 1 + DAY 8-10 checklist:

- ☐ Day 1: 50+ warm followers from founder network (real, no buys)
- ☐ Day 3: 20+ comments harvested → saved to Notion/sheet ("pain point bank")
- ☐ Day 7: 30+ "GLOW" DMs collected → WhatsApp list started (label: WAITLIST)
- ☐ Day 8: product in WhatsApp catalog; price + COD + shipping policy written in description
- ☐ Day 10: 3 reels queued to YouTube Shorts with SEO titles
- ☐ Tester program: photos taken Day 1 + Day 7 (same light/angle, logged)

PART 6

§5 THE 30-DAY DAILY CONTENT CALENDAR — RANGAT NATURALS (DAYS 11-20)

DAY 11 (Thu) — REEL · 30-40s · Pillar 1+3: PROBLEM → SOFT SOLUTION

- **Platform:** IG Reel → FB
- **Idea:** "Bahar ka main, andar ka dull — dono same cheez ka kaam." (Cumulative UV: outdoor sun + indoor window/screen.)
- **Hook:** "Subah 9 se raat 9 — aapki skin din bhar UV me rehti hai. Bilkul sach."
- **Concept:** Split-screen or two-location cuts: (A) outdoor commute/office — bright sun; (B) indoors — window light, screen glow. Founder VO. Ends on hand with SPF + serum pair.
- **Script:** "Sochta hai UV tabhi hai jab 'bahar nikalna' ho? Nahin. Window se aata hai, screen se aata hai, baarish ke din bhi UV aata hai — cloud se 80% tak. Matlab aapki skin subah se raat tak exposure me hai. Iske liye 2 cheezein kaafi hain: subah SPF — har din, indoor bhi. Aur ek serum jo din bhar ke dull-look ko fresh *dikhaane* me help kare. Yeh duo humari routine ka base hai — kal texture dikhate hain."
- **On-screen text:** "Cloud se bhi aata hai UV (80% tak)" → "Din bhar ka dull-look" → "Duo: SPF * + Vitamin C "
- **Caption:** "Indoor baithe bhi UV aata hai. Yehi wajah hai ki 'sirf bahar jaane par sunscreen' kaafi nahi. #SunscreenIndia #SkincareMyths #IndianSkincare"
- **CTA:** "GLOW DM me — launch list me aaj bhi jaa sakti ho."
- **Content purpose:** Education + soft solution + SPF seed (Month-2 product).
- **Target customer:** Office women 22-35, indoor-heavy lives.
- **Sales purpose:** Waitlist DMs; seeds SPF as future "next product" (anticipation).

DAY 12 (Fri) — REEL · 30-40s · Pillar 4: FIRST REAL TESTER REACTION (week 2)

- **Platform:** IG Reel → FB
- **Idea:** Real tester, day 14, honest reaction — disclosed, no editing of the words.
- **Hook:** "2 hafte Vitamin C lagaya. Ye meri sachchi baat hai — achi bhi, aur thodi kami bhi."
- **Concept:** Tester (friend/relative, disclosed: "hamari tester [Name], Ahmedabad") in her own room, front camera, natural light. She speaks (no script — 3 prompts only: what

changed, what didn't, would she continue). Cut to: her day-1 photo vs today (same light) with disclaimer bar.

- **Script (her words, guided):** "Toh maine 2 hafte lagaya. Sabse pehle — koi overnight change nahi, main wahi bolungi. Par aaj chehra pehle se zyada fresh lagta hai, aur subah uthne par woh 'thaka hua' feel kam hai. Ek kam bhi bata du: meri cheek par ek dry patch hai — woh abhi bhi hai, toh yeh product sab ke liye sab nahi karta. Main continue karungi, aur day 28 wala update yahan aayega." [Disclaimer bar] "4 hafte program · Day 14 update · Results har kisi me alag hote hain"
- **On-screen text:** "TESTER #7 · DAY 14 · ASLI BAAT" + bottom bar "Results may vary"
- **Caption:** "Na sirf achi baat, na sirf buri — dono. Yehi RANGAT ka andaaj hai. Day 28 wala update bhi yahi aayega. #RealResults #SkincareTester #RangatNaturals"
- **CTA:** "Follow karo — day 28 wala update miss mat karna."
- **Content purpose:** Trust (real, honest, with negatives) + serial ("day 28 aayega").
- **Target customer:** Skeptics in the waitlist.
- **Sales purpose:** Directly feeds Day 17 before/after and Day 21 launch conversion; commenters become warmest DM leads.

DAY 13 (Sat) — REEL · 40-55s · Pillar 6: FOUNDER STORY #2 — "KITNA MUSHKIL THA"

- **Platform:** IG Reel → FB
- **Idea:** The honest struggle: rejected first formula, 3 packaging rounds, why this manufacturer.
- **Hook:** "Brand banana kitna mushkil tha — koi reel nahi batati. Main bataati hoon."
- **Concept:** Founder, sitting, talking straight; B-roll: crumpled formula notes, 3 bottle mockups, a factory/lab visit shot, packing table. Warm lighting.
- **Script:** "Pehla formula? Reject. Kyunki concentration sahi thi par stability nahi — 2 hafte me color change. Dusra? Sasta nahi tha. Teesra? Yahi aaya. Packaging bhi 3 baar badli — kyunki label par ingredient list chhoti dikhi, toh humne font bada kiya. Hum manufacturer nahi hain; humne ek certified Indian facility choose ki — GMP line, batch card har bottle par. Kyun itna dikhaau? Kyunki aap pehli baar humse le rahi ho — aur aapka har sawaal valid hai. Follow karo, agle hafte: 4 hafte ke asli results."
- **On-screen text:** "Formula 1: REJECT" → "Formula 3: YEH" → "Har bottle par batch card"
- **Caption:** "Jo dikhana mushkil lagta hai, wahi aapko dekhna chahiye. #FounderStory #D2CIndia #RangatNaturals"
- **CTA:** "Share karo kisi founder se jo jaanta hai — kitna mushkil hai."
- **Content purpose:** Deep trust + brand legitimacy (anti-fake positioning).
- **Target customer:** Evaluators; also creators/press (shareable).
- **Sales purpose:** De-risks purchase in the "kya yeh sachcha brand hai?" moment — the #1 blocker for unknown brands.

DAY 14 (Sun) — REEL · 30-40s · Pillar 7 (soft) + Q&A Story day

- **Platform:** IG Reel + 4-5 Stories
- **Idea:** "Achhi skincare mehngi honi chahiye? Nahi." — the price objection, answered with honesty (still no hard offer).
- **Hook:** "'Achhi cream hoti hai toh 2000 ki hoti hai.' Aaj hum is line ko todo ge."
- **Concept:** Whiteboard/slate with a simple visible breakdown (hand-written): Formula + Testing = ₹X · Certified manufacturing = ₹Y · Your cost vs "brand margin + 3 middlemen = imported price." Ends on: "Hum sirf wohi lete hain jo aapko milta hai."
- **Script:** "2000 wali imported cream me aap kya khareed rahi ho? Formula, haan. Par saath me: import duty, brand premium, 3 middlemen ka margin. Humari baat alag hai: hum formula choose karte hain, test karte hain, certified Indian facility me banwate hain, aur seedhe aap tak jaate hain. Isliye hamara price aam hai — quality pe compromise nahi, middlemen pe hai. Yehi wajah hai ki launch me hum pehli 100 orders par free Face Wash mini + free shipping de rahe hain. Is hafte launch — GLOW likho DM me."
- **On-screen text:** "2000 ki cream me kya hai?" → "Formula + duty + premium + 3 middlemen" → "RANGAT: Formula + testing + Indian manufacturing + aap" → "Launch: is hafte."
- **Caption:** "Achhi skincare = mehngi? Nahi. Achhi skincare = sahi formula + koi 3 middlemen nahi. #AffordableSkincare #SkincareIndia #RangatNaturals"
- **CTA:** "GLOW DM me — launch list me aaj tak aayi ho?"
- **Content purpose:** Price positioning (value, not cheap) + launch urgency (soft).
- **Target customer:** Price-sensitive waitlist (20–35).
- **Sales purpose:** Waitlist push; "launch is this week" now repeated 3x (D8, D13 hint, D14).

Stories (Day 14, 5): ① Countdown sticker: "Launch in 5 din" ② Tester day-14 photo (consent + disclaimer) "day 28 aayega" ③ Quiz: "Kitne SPF chahiye Indian skin ke liye? a) 30 b) 50 c) dono theek — jawaab: SPF 30+, daily" ④ Poll: "COD: haan / kya?" (trick question = engagement + COD reminder) ⑤ DM CTA card: "GLOW likho — launch list."

DAY 15 (Mon) — REEL · 30-40s · Pillar 1: MISTAKES ("stop doing this")

- **Platform:** IG Reel → FB → YT Shorts queue
- **Idea:** "Yeh 3 skincare galtiyan har Indian girl kar rahi hai."
- **Hook:** "3 galtiyan — aur aap pehli roz karti ho. Proof me aa rahi hain."
- **Concept:** Rapid 3 segments, each: on-screen mistake text → founder VO + visual. (1) Over-washing face 3-4x/day (water tap shot) — "skin barrier todte ho, phir oil bahar nikalta hai." (2) No SPF indoors (window shot). (3) Layering 6 products (shelf of bottles)

— "zyada product = zyada confusion, 3 sahi kaafi hain."

- **Script:** "Galti 1: Chehra din me 4 baar dhona. Skin ka barrier toota → zyada oil, zyada sensitivity. Galti 2: SPF sirf bahar jaane par. Window se bhi aata hai — dekh chuki ho. Galti 3: 6 layer ka routine. 3 sahi steps — wash, serum/cream, SPF — 90% kaam karti hain. Agar teeno me se 2 aap karti ho — comment me '3' likho. Aaj se hum 3-step routine detail me dikhayengi."
- **On-screen text:** "GALTI 1: 4x wash" → "GALTI 2: SPF sirf bahar" → "GALTI 3: 6 layers" → "3 sahi steps kaafi hain."
- **Caption:** "Aapne kitni pakdi? 1, 2, ya 3? Comment karo. #SkincareMistakes #SkincareIndia"
- **CTA:** "Comment karo: 1 / 2 / 3."
- **Content purpose:** Attention (mistakes = high CTR) + comment fuel + routine pre-education.
- **Target customer:** 20–35, beginner/mid routine.
- **Sales purpose:** "3 steps" framing sets up the 3-product launch bundle (Face Wash + Serum + Moisturizer) in D23.

DAY 16 (Tue) — REEL · 20–30s · Pillar 3: PRODUCT TEXTURE / DEMO (ASMR-style)

- **Platform:** IG Reel → FB (this is the future AD creative #1)
- **Idea:** "10 second me dekho — 10% Vitamin C kaisa lagta hai." Texture + "why 10%" in 30 sec.
- **Hook:** "10 second. Ek drop. Phir aap khud dekhogi."
- **Concept:** Close-up macro: palm up → 2 drops fall (slow) → spread → absorption. Cut to label close-up: "10% Vitamin C." Clean, bright, satisfying. No face needed.
- **Script:** "Ek drop. Haath par dekho — halka, transparent, 5 second me absorb. Na chikna, na tight. Aur label par likha hai — 10%. Kyun nahi 20%? Kyunki zyada concentration = zyada irritation risk, fayda kam. 10% woh line hai jahan benefit milta hai, skin ko pareshan kiye bina. Launch offer chal raha hai — GLOW likho DM me."
- **On-screen text:** [0–2s] "10 second. 1 drop." → "Absorb: 5 sec" → "10% = Sweet spot" → "Launch: GLOW DM karo."
- **Caption:** "Texture dekho, label padho. Yehi hai humari baat. #VitaminCSerum #SkincareTexture #RangatNaturals"
- **CTA:** "GLOW DM me — launch list."
- **Content purpose:** Product desire + sensory proof + future top ad creative.
- **Target customer:** Waitlist + search traffic.
- **Sales purpose:** Waitlist → first orders start (launch announced D21, but "list" converts early birds).

DAY 17 (Wed) — REEL · 40-55s · Pillar 5: FIRST REAL BEFORE/AFTER (the trust drop)

- **Platform:** IG Reel → FB → PIN to profile same day
- **Idea:** 4-week tester results, real, disclosed, 2-3 faces, same light/angle. THE most important trust asset of the launch.
- **Hook:** "4 hafte. 20 aahaiyan. Same light, same angle, zero filter. Aaj original photos."
- **Concept:** Sequence per tester: day-1 photo (date stamp) → day-28 photo (date stamp) → 5 sec of her to camera (one honest line). 3 testers. Bottom disclaimer bar on every frame: "4 hafte daily use · Results may vary." End: founder: "Yeh photos aapki bhi ban sakti hain — 4-6 hafte ka timeline, daily use ke saath."
- **Script (founder VO + tester lines):** "Humne 20 testers chune, 4 hafte, roz subah. Koi photo edit nahi — same window, same light, date dikha rahe hain. [Tester 1: 'Subah ka dull-look kam hua, log fresh bolte hain.'] [Tester 2: 'Mera tone-look even lagta hai, par full transformation nahi — main wahi bolti hoon.'] [Tester 3: 'Main day 3 me irritate hui thi, day 10 se theek — patch test karna zaroori hai.'] Yeh hi asli results hain — koi kaafi, koi kam, har koi alag. Aur yahi launch me aapko milega. GLOW likho DM me — launch kal se."
- **On-screen text:** "DAY 1" / "DAY 28" per tester + permanent bar: "Results may vary · Real customers · Consent se"
- **Caption:** "4 hafte ki asli photos. Kya milta hai, kya nahi — dono. #BeforeAndAfter #RealResults #SkincareIndia #RangatNaturals"
- **CTA:** "DM 'GLOW' — launch kal se. Pehli 100 orders."
- **Content purpose:** THE trust conversion asset. Pinned.
- **Target customer:** All warm audiences (waitlist, engagers, viewers).
- **Sales purpose:** Direct conversion engine for Day 21 launch + becomes Ad Creative #1-2.

DAY 18 (Thu) — REEL · 30-40s · Pillar 2: EDUCATION — SUNSCREEN (seed Month-2)

- **Platform:** IG Reel → FB → YT Shorts queue
- **Idea:** "Ghar par baithe bhi sunscreen kyun?" — future product seed, no selling.
- **Hook:** "Aap sirf office jaati ho — phir bhi sunscreen zaroori hai. Sach me?"
- **Concept:** Window light visual (light patch on wall/face), screen glow, car window. Founder VO.
- **Script:** "UV 2 cheez se nahi aata — sirf direct sun se. Window ka glass? UV-A nikal jaata hai. Car? Wahan bhi. Matlab ghar + office + car = din bhar ka exposure. Isliye SPF 30+ har subah, 2-3 ghante me reapply agar bahar ho. Yeh 1 line aapka tan-look, dark spots ka dikhna, aur age-look sab se related hai. Kal: hum is baare me ek reel aisi kar rahe hain jo aap apni behen ko bhejogi."

- **On-screen text:** "Window se bhi UV aata hai" → "SPF 30+ · har subah" → "2–3 ghante me reapply (bahar)"
- **Caption:** "Ghar baithe bhi UV. Isliye SPF 'bahar jaane wala product' nahi — har din ka. #SunscreenIndia #SPF #SkincareEducation"
- **CTA:** "Share karo us aahai ko jo abhi bhi 'bahar jaane par' lagati hai."
- **Content purpose:** Education + share + future-product anticipation (Sunscreen = Month 2).
- **Target customer:** 22–35 office women.
- **Sales purpose:** Builds the "next product" curiosity that pre-sells Month-2 launch.

DAY 19 (Fri) — REEL · Creator collab drop · Pillar 4: FIRST MICRO-CREATOR

- **Platform:** IG Reel (collab post: appears on both grids)
- **Idea:** Ahmedabad micro-creator (10k–30k) posts her honest 2-week RANGAT video; we collab.
- **Hook (her words):** "Main ek 10k follower ki random creator hoon — aur mujhe ek naya local brand ne product bheja. Sachchi review."
- **Concept (her shoot, we provide brief not script):** Her room, her routine, product in context, 3 prompts: (1) kya socha pehle (new brand skepticism), (2) 2 hafte ka honest feel (1 good, 1 mixed), (3) kya karegi (continue + who'd recommend). Ends with her + founder's collab tag.
- **Script (guided, her delivery):** "Seedhi baat: naya brand, pehle doubt tha. 2 hafte lagaya — fresh feel aaya hai, subah ka dull-look kam. Ek baat: mere acne ke purane marks pe koi magic nahi, aur main wahi bolungi. Main continue kar rahi hoon. Agar tum bhi local + affordable try karna chahti ho — inka launch chal raha hai, GLOW likh do DM me."
- **On-screen text:** "RANDOM CREATOR · 2 HAFTE · HONEST" + collab tags @rangatnaturals
- **Caption (ours, on our grid):** "Is hafte ka sabse achha feedback — ek 10k wali creator se. Local brands ko yahi milna chahiye: sachchi baat. #AhmedabadCreator #LocalBrand #RangatNaturals"
- **CTA:** "Collab post follow karo + GLOW DM me."
- **Content purpose:** Third-party proof (creators ≠ us) + local credibility + shared audience.
- **Target customer:** Her followers (local, same demo) + our skeptics.
- **Sales purpose:** Her audience = new warm pool; collab post = social proof asset for ads (UGC-style).

DAY 20 (Sat) — REEL · 35-45s · Pillar 6+7: LAUNCH COUNTDOWN + BTS PACKING

- **Platform:** IG Reel → FB
- **Idea:** "Kal se live. 100 boxes. Aaj packing." The launch eve.
- **Hook:** "Kal se RANGAT NATURALS live. Aur aaj aap dekh rahi ho pehle 100 boxes bante."
- **Concept:** Packing table, hands sealing boxes, batch cards, "1/100" marker on each box, founder counting, small "100" sign. Warm, slightly emotional, light music under.
- **Script:** "100 boxes. Har ek me: Vitamin C Serum 10%, free Face Wash mini, ek card — isme likha hai exactly kaise lagana hai, kitne din me kya expect karna hai, aur humara WhatsApp number — jahan aap koi bhi sawaal pooch sakti ho. Kyun sirf 100? Kyunki pehla batch yahi hai — aur hum chahte hain ki pehle 100 aahaiyan ka experience itna acha ho ki woh khud bataayen. Kal se launch. Kal se 'GLOW' likhne par pehla number. Aur haan — COD hai. Pehli baar? Koi tension nahi."
- **On-screen text:** "1/100" (marker) → "Box me kya hai?" → "Serum + Face Wash mini + Guide + WhatsApp support" → "LAUNCH: KAL"
- **Caption:** "Pehle 100 boxes. Pehli 100 aahaiyan. Pehla batch — sabse zyada dhyan ke saath bana. Kal se live. #LaunchDay #RangatNaturals #SkincareIndia"
- **CTA:** "Notifications ON — kal 7:30 PM: launch reel. GLOW likho list me."
- **Content purpose:** Anticipation peak + what's-in-the-box (pre-sell the offer) + risk reversal.
- **Target customer:** Waitlist + all followers.
- **Sales purpose:** Directly sets up Day 21 conversion; "100" scarcity is real (batch).

WEEK 3 checklist (Days 15-21):

- ☐ D15: 3-mistakes reel CTR check (target $\geq 1.5\%$ reach CTR) → if yes, boost candidate
- ☐ D17: Before/after live + PINNED; same reel cut into: 30-sec ad version + 2 static quote cards
- ☐ D19: Collab post live on both grids; creator's video saved to UGC bank (permission for ads = signed)
- ☐ D20: WhatsApp broadcast #1 to waitlist: "Kal launch — GLOW reply karo, aapka number save karte hain" (24h before)
- ☐ D21: Ads account ready: Pixel on website/WA, WhatsApp Business API linked, campaign built but NOT switched on (see [15-meta-ads-campaigns-budgets.md](#))
- ☐ All Day-17 + Day-19 creatives have ad permissions in writing (email/WhatsApp screenshot)

PART 7

§5 THE 30-DAY DAILY CONTENT CALENDAR — RANGAT NATURALS (DAYS 21-30)

Week 4 = the conversion week. Tone rule: selling is now allowed (Pillar 7 posts), but every sales post carries: real proof + honest timeline + COD/return + one CTA. No fake urgency. The "100 units" limit is real batch stock.

DAY 21 (Sun) — REEL · 45-60s · Pillar 7: LAUNCH — "FOUNDING 100" (THE day)

- **Platform:** IG Reel → FB → YouTube Shorts → WhatsApp broadcast + Status (all simultaneously) → **Meta Ads switch ON at 8:00 PM** (₹500/day, see 15-meta-ads)
- **Idea:** The launch announcement + full offer. This reel = the hero ad for the first 2 weeks.
- **Hook:** "Aaj se RANGAT NATURALS live. Aur pehli 100 aahaiyan ko milega jo aage wale nahi."
- **Concept:** Founder, packing table behind, box in hand. Cuts: box opens (serum + face wash mini + card visible) → label close-up → "FOUNDING 100" card. Confident, warm, not shouting.
- **Script:** "Aaj se RANGAT NATURALS officially live hai. Humara pehla product: Vitamin C Serum 10% — 4 hafte, 20 testers, asli photos — aapne dekh li. Aaj se aap bhi shuru kar sakti ho. Aur 'Founding 100' isliye hai kyunki pehla batch sirf 100 units ka hai. Pehli 100 orders me: launch price, free Face Wash mini, free shipping, COD — parcel ghar par, khol ke dekho, pasand nahi toh return. Aur ek cheez jo koi bada brand nahi dega: aapki review — photo ke saath — hamari page par feature hogi. Kaise order? Ek kaam: DM me 'GLOW' likho, ya profile ke WhatsApp link par aao. Hum 15 minute me reply karte hain. 100 ke baad? Agla batch agle mahine."
- **On-screen text:** "LAUNCH — AAJ SE LIVE" → "FOUNDING 100: sirf 100 units" → "Launch price FREE Face Wash mini FREE shipping COD Return" → "DM 'GLOW' ya WhatsApp link"
- **Caption:** "Aaj se live. Founding 100: launch price + FREE Face Wash mini + FREE shipping + COD. Pehle 100 orders me aapki review page par feature. DM 'GLOW'. #Launch #VitaminCSerum #RangatNaturals #IndianSkincare"
- **CTA:** "DM 'GLOW' — abhi. 15 minute me reply."
- **Content purpose:** Conversion event; hero ad creative.
- **Target customer:** Entire warm pool + ad traffic (same day).
- **Sales purpose:** 30-50 orders target today + tonight (waitlist broadcast + reel + ad together = triple touch).

DAY 22 (Mon) — REEL · 30-40s · Pillar 7: OBJECTION KILLER (new brand fear)

- **Platform:** IG Reel → FB → ad set 2 (retargeting pool starts filling)
- **Idea:** "Naya brand, pehli baar, tension?" — answer the 4 fears in 40 seconds.
- **Hook:** "Naya brand se order karna darawna lagta hai? Aapka dar valid hai. 4 jawaab."
- **Concept:** 4 rapid segments, each = fear on screen → answer + visual proof. (1) "Fake product?" → batch card close-up, "har bottle par batch number — website par verify ho sakta hai." (2) "Result nahi aaya toh?" → "honest timeline 4-6 hafte — isliye 3 din me 'cure' wala brand mat kharido." (3) "Paise kaise jaayenge?" → "COD — pehle parcel, phir paise." (4) "Pasand nahi aaya?" → "return process WhatsApp par 1 message me."
- **Script:** (as per segments) End: "Isliye aaj se hum 100 units se shuru kar rahe hain — taaki har order ka hum khud dhyan le sake. Aapka koi aur sawaal? DM karo — aaj kal hum 15 minute me reply karte hain."
- **On-screen text:** "DAR 1: Fake? → Batch card" → "DAR 2: Result? → 4-6 hafte, honestly" → "DAR 3: Paise? → COD" → "DAR 4: Return? → 1 WhatsApp message"
- **Caption:** "Naye brand se pehla order — 4 sawaal jo aapke mann me hain, yahan jawaab. #COD #NewBrand #RangatNaturals"
- **CTA:** "DM karo — koi bhi sawaal. Ya 'GLOW' likho aur order karo."
- **Content purpose:** De-risk (the #1 conversion blocker) + reply-speed promise.
- **Target customer:** Waitlist + ad clickers who didn't order Day 21.
- **Sales purpose:** Directly rescues Day-21 non-converters (pair this reel's ad with retargeting on D25).

DAY 23 (Tue) — REEL · 40-50s · Pillar 3: 60-SECOND 3-STEP ROUTINE (bundle logic)

- **Platform:** IG Reel → FB → YT Shorts queue
- **Idea:** "Subah ki 3-step routine — 60 second." (Face Wash → Serum → Moisturizer/SPF)
- **Hook:** "Poora skincare routine 10 products ka nahi. 3 ka. 60 second. Dekho."
- **Concept:** Timelapse-style morning: bathroom, real products, timer on screen 0:00→0:60. Each step: product name on screen + one reason.
- **Script:** "Step 1 — Face Wash, 60 second, gungune paani se. Skin saaf, na tight. (RANGAT Face Wash.) Step 2 — Vitamin C Serum, 3-4 drops, khurrak chehre par. Bright *look*, even *tone-look* — 4-6 hafte me. (RANGAT Vitamin C 10%.) Step 3 — Moisturizer, phir SPF agar bahar jaana hai. Yahi poora routine hai. 10 layers nahi. 3 sahi steps, roz. Yeh teeno ek saath = 'RANGAT Morning Kit' — launch me saath le rahi ho toh sab kuch ek box me aa gaya hai."

- **On-screen text:** "0:00–0:20 WASH" → "0:20–0:40 SERUM" → "0:40–0:60 MOISTURIZE + SPF" → "3 steps. 60 sec. Roz."
- **Caption:** "Skincare = 10 products? Nahi. 3 sahi steps kaafi hain. #SkincareRoutine #MorningRoutine #RangatNaturals"
- **CTA:** "Save karo + 'GLOW' DM me kit order ke liye."
- **Content purpose:** Routine education + BUNDLE formation (raises AOV: 3-product kit).
- **Target customer:** Beginners (biggest audience) + existing buyers (cross-sell).
- **Sales purpose:** Introduces the kit bundle — target: 30% of orders become kits by Day 30 (AOV lift ₹500→₹900+).

DAY 24 (Wed) — REEL · 30-40s · Pillar 4: FIRST CUSTOMER UNBOXING

- **Platform:** IG Reel → FB → Status
- **Idea:** Real Founding 100 customer films her parcel opening. Incentive: free Face Wash mini + featured on page.
- **Hook:** "Pehli parcel. Pehli aahai. Asli reaction — bina script ke."
- **Concept:** Customer's home (her phone, her light). Parcel arrives → she opens → finds card, reads it (good moment: reading the guide card) → serum texture on hand → "WhatsApp number dekho, koi bhi pooch sakti hoon." 20–30 sec of her real words.
- **Script (guided prompts, her words):** (1) "Pehle kya socha — naya brand, COD me hi liya." (2) "Box me kya mila — card pehle se likha hai kya karna hai." (3) "Kya karungi — 4 hafte use karke update bhejungi." End card: "Founding 100 me aap bhi ho sakti ho. GLOW DM karo."
- **On-screen text:** "ORDER #1 → [City]" → "Real customer · Real parcel"
- **Caption:** "Order #1, [city] me. Box kholte hi reaction asli tha — isliye yehi post kar rahe hain. #Unboxing #RealCustomer #RangatNaturals"
- **CTA:** "Aap bhi — 'GLOW' DM karo."
- **Content purpose:** Logistics trust (packing quality, real delivery, card experience) + social proof.
- **Target customer:** Day 21–22 hesitators ("kya sach me milega?").
- **Sales purpose:** "It actually arrives" proof — directly lifts ad CTR and DM→order rate.

DAY 25 (Thu) — REEL · 30-40s · Pillar 2: MYTH — "VC se chehra orange?"

- **Platform:** IG Reel → FB → YT Shorts queue
- **Idea:** "Vitamin C se chehra orange ho jaata hai? Yeh myth kyun chalta hai."

- **Hook:** "'Vitamin C laga toh chehra orange ho jaayega.' — 2026 me bhi yeh chalta hai. Yeh kyun?"
- **Concept:** Split: "myth" side (orange filter on face, 1 sec, clearly fake) vs "reality" (normal serum, normal skin). Founder VO.
- **Script:** "Yeh cheez tab hoti hai jab: (1) fake/cheap product me pigment ho, (2) serum ka color chehre par dry ho jaye — kyunki zyada quantity li ya moisturizer skip kiya, (3) ya photo me over-editing ho. Asli 10% Vitamin C serum — 3-4 drops — transparent hota hai, 5 second me absorb. Agar chehre par 10 minute baad bhi yellow layer dikhe — woh serum ka color nahi, quantity ki galti hai. Aur haan — orange look ke darr me SPF skip karna sabse badi galti hai. Darr nahi, sachchi cheez lagao."
- **On-screen text:** "MYTH: Orange chehra " → "3 wajah: Fake product / Zyada quantity / Edit" → "Asli VC: transparent, 5 sec absorb"
- **Caption:** "Vitamin C ka sabse popular myth — aaj khatam. #SkincareMyths #VitaminCSerum"
- **CTA:** "Save karo + apna myth DM karo — next reel uska jawab hoga."
- **Content purpose:** Myth-busting authority + pre-empt a common objection (also a DM question we get).
- **Target customer:** Serum buyers in evaluation.
- **Sales purpose:** Removes a purchase-blocking fear; DM Q&A feed.

DAY 26 (Fri) — REEL · 30-45s · Pillar 4: FIRST VIDEO REVIEW (Founding 100)

- **Platform:** IG Reel → FB → ad creative #3
- **Idea:** Real customer, week 1-2, "I almost didn't order" story.
- **Hook:** "Maine order karne se 4 din pehle 4 baar delete kar diya tha. Yeh meri kahani hai."
- **Concept:** Customer to camera (selfie light), honest, 3 beats: (1) doubt (naya brand, pehli baar), (2) what convinced (COD + 20-tester photos + WhatsApp reply in 10 min), (3) first 10 days feel + one honest "abhi full result nahi — 4 hafte baaki hain, main wahi bolti hoon."
- **Script (her words, guided):** "Seedhi baat — naya brand tha, maine 4 baar cart se hataya. Jo manaya: COD, aur unki 20 testers ki asli photos. Order kiya, 2 din me aaya. 10 din lagaya — subah ka dull-look kam ho raha hai, fresh feel hai. Full result? Nahi — main 4 hafte pe bolti hoon, yehi toh inka andaaj hai. Day 28 pe update bhej rahi hoon, unhone bhi kaha hai."
- **On-screen text:** "ORDER #17 · [City] · DAY 10" + bar "Results may vary"
- **Caption:** "4 baar delete karke order kiya — aur yehi review hamara favourite hai. #RealReview #CustomerStory #RangatNaturals"
- **CTA:** "Aapka kya doubt hai? DM karo — ya 'GLOW' likho."

- **Content purpose:** Testimonial with a STORY (stories are remembered, quotes are scrolled).
- **Target customer:** Cart-doubtters; retargeting audience (video viewers).
- **Sales purpose:** Highest-converting ad creative pattern (story testimonial). Used in retargeting from D25+.

DAY 27 (Sat) — CAROUSEL · 6 slides · Pillar 7: "FOUNDING 100 — BOX ME KYA HAI"

- **Platform:** IG + FB (PIN candidate after D30)
- **Idea:** The offer, fully explained. For everyone who missed the launch reel.
- **Hook (cover):** "FOUNDING 100 — exactly kya milega, kya nahi milega."
- **Slides:** ① Cover ② Box content photo: Serum + Face Wash mini + usage card + WhatsApp support card (each labeled) ③ "Why only 100 — pehla batch, har order hum khud check karte hain" ④ "Kaise order: DM 'GLOW' / WhatsApp link / 15-min reply / COD" ⑤ Quote card: real review from D24/D26 customer ⑥ CTA: "X/100 seats left — DM 'GLOW'" (real number)
- **Caption:** "Jo miss kiya, yahan poora hai: box me kya hai, kaise order karna hai, COD kaise kaam karta hai. X/100 seat bachi hain. #Founding100 #RangatNaturals #SkincareIndia"
- **CTA:** "DM 'GLOW' — aaj ka jawab aaj milega."
- **Content purpose:** Offer clarity + seat count (real scarcity) + save-able reference.
- **Target customer:** All warm + retargeting.
- **Sales purpose:** The "catch-up" sales post for the week.

DAY 28 (Sun) — REEL · 40-50s · Pillar 1+6: COMMUNITY Q&A (from real DMs)

- **Platform:** IG Reel + Story Q&A box
- **Idea:** "Aapne DM me pucha: raat ko kya lagana chahiye?" — 4 real DM questions (screenshotted, permission).
- **Hook:** "Aapke DM se aaye 4 sawaal — aaj ke jawaab."
- **Concept:** Same format as Day 7: question text on screen → 12-15 sec answer. Q1: "Raat ko kya lagana chahiye?" → "Night cream ya moisturizer — raat ko skin repair me hoti hai; hafte me 2-3 din hafte me ek exfoliant (agar skin allow kare). Hamari night cream agle mahine — list me raho." (Night cream seed, no selling.) Q2: "Oily skin + serum? Zyada oil?" → "Nahi — gel serum oily skin par theek hai; moisturizer bhi lagao, gel type." Q3: "Kitne din me?" → "4-6 hafte, honestly." Q4: "Maa ke liye order karun, 55 ki hai?" → "Haan — gifting box banata hain, WhatsApp par batao."
- **On-screen text:** each Q + short answer; end: "Naya sawaal? DM karo."

- **Caption:** "Aapke DM = aaj ka content. Aur haan — maa ke liye bhi banate hain. #SkincareQnA #RangatNaturals"
- **CTA:** "DM karo apna sawaal — Sunday Q&A me jawab."
- **Content purpose:** Community loop + Night Cream anticipation + gifting angle (Diwali seed for Nov).
- **Target customer:** Buyers (Q3) + gifters (Q4 — big in Gujarat).
- **Sales purpose:** Night cream waitlist; gifting = AOV + Diwali campaign pre-warming.

DAY 29 (Mon) — REEL · 35-45s · Pillar 6+7: MILESTONE + REFERRAL LAUNCH

- **Platform:** IG Reel → FB → WhatsApp broadcast to all buyers
- **Idea:** "Launch ka pehla hafte — aapne X orders kiye. Ab: do ₹100, lo ₹100."
- **Hook:** "Pehle hafte me X orders aaye. Hum toh soch rahe the 30. Aur aaj ek naya cheez."
- **Concept:** Founder at packing table, real order list (blurred names), counting boxes with delight (not arrogance). Cut to: referral card close-up ("Give ₹100, Get ₹100").
- **Script:** "Pehla hafte — X orders, [cities: Ahmedabad, Surat, Vadodara...] se. Ek ek WhatsApp pe thank-you likha, ek ek reply padha. Aaj se ek aur cheez: referral. Aapke friend ko order par ₹100 off, aapko next order par ₹100 off. Kaise? Profile link par code milega, use share karo. Iska matlab: aapka har share = ek nayi aahai ka pehla order + aapka next order sasta. Humare liye yeh sabse sasta 'ad' hai — aapki recommendation."
- **On-screen text:** "WEEK 1: X orders" → "REFERRAL: Do ₹100 · Lo ₹100" → "Code: profile link par"
- **Caption:** "Week 1 done. Ab game aapka hai: do ₹100, lo ₹100. #Referral #RangatNaturals #SkincareIndia"
- **CTA:** "Apna code lo (profile) + 1 dost ko bhejo — aaj."
- **Content purpose:** Social proof (numbers) + referral engine ignition + community celebration.
- **Target customer:** Existing buyers (referrers) + their networks.
- **Sales purpose:** Referral = cheapest CAC; target 15-20% of Week 5-6 orders from referrals.

DAY 30 (Tue) — REEL · 35-45s · Pillar 7: OFFER CLOSE + NEXT PRODUCT TEASE

- **Platform:** IG Reel → FB → ads: shift budget 70% to this + D21 + D26
- **Idea:** "Founding 100 me X seat bachi. Aur next kya aayega?" (real count; if sold out → "batch 2 waitlist")

- **Hook:** "Founding 100 me sirf X seat bachi. Aur haan — next product ka ek jhaanki bhi dila du."
- **Concept:** Box count visual (X boxes left on shelf, real) → founder to camera → blurred silhouette/box of Sunscreen (Month-2 product) with "SOON" text → teaser 3 sec (texture on hand, white, no claims).
- **Script:** "Seedhi baat: pehle 100 me se ab X bache hain. Phir? Regular price, agla batch agle mahine — aur tab tak aapke paas 4 hafte ke results honge. Order karni ho — GLOW likho, COD hai, aaj ka order kal tak pack. Aur ek teaser: aapne 50+ baar pucha 'sunscreen kab?' — agle mahine. Gujarat ke mausam ke liye. Follow karo taaki miss na ho. Aur agar abhi bhi soch rahi ho — 29 din ka poora safar aapne dekha: 20 testers, asli photos, 100 boxes. Aapko kya sochta hai — yeh brand sachcha hai. Bas itna."
- **On-screen text:** "X/100 left" → "Agla batch: agle mahine" → "NEXT: SUNSCREEN — agle mahine ✱" → "GLOW = order"
- **Caption:** "X seat bachi. Aur next: sunscreen — agle mahine, Gujarat ke mausam ke liye. #RangatNaturals #SunscreenComing #SkincareIndia"
- **CTA:** "Aaj: 'GLOW' DM karo. Ya waitlist me jao (link in bio) batch 2 ke liye."
- **Content purpose:** Close the offer window + tee up Month 2 + full-circle trust recap.
- **Target customer:** All warm + retargeting.
- **Sales purpose:** Final push on Founding 100 (real deadline: batch) + Sunscreen waitlist building (target 200+ by launch).

DAY 30 — THE NUMBERS THAT MATTER (review these before planning Week 5)

Metric	Target	If below target, fix
Orders (Day 1-30)	80-100	DM reply speed (>15 min) → fix; COD clarity → re-run D22; offer strength → add kit
"GLOW" DMs received	600-1,000	Reel CTA weak → test hooks from 07-hooks-library.md
DM → order conversion	25-40%	Script gaps → use 19-first-followers-customers.md DM script
Followers	1,000-2,000	Hook retention < 25% at 3s → re-shoot hooks
Real UGC assets	15+	Tester/creator pipeline stalled → push D17-style ask
WhatsApp buyer list	150+	Post-purchase flow not running → 18-funnel Day-1/7/14 sequence
COD success rate	≥ 85%	< 85% = pre-confirmation WhatsApp call missed → add it
First repeat/referral orders	5-10	Referral not pushed hard enough → broadcast #2

Week 5 (Days 31-60) handoff: Sunscreen content starts (waitlist), Night Cream seed grows, first retargeting ads live, 5 more creators, ad budget scales to ₹1,000/day on winners. Full detail: [20-90-day-master-plan.md](#).

PART 8

§6 HOOK STRATEGY + HOOK LIBRARY — RANGAT NATURALS

Why hooks are the whole game

For a zero-followers account, **100% of your reach is earned in the first 2 seconds**. The hook is not a headline — it's the *first spoken line + first on-screen text + first frame*, all saying the same thing in under 2 seconds. Rule: if the hook needs a "welcome" or "so today we will...", it's dead. Start mid-action.

Hook anatomy (pick the style, fill the blank):

1. **Who it's for** (segment callout): "Oily skin wale, ruko..."
2. **The tension** (problem/fear/myth): "Yeh galti aap roz karti ho..."
3. **The payoff promise** (what they'll get in 30 sec): "60 second me samjho..."

Retention engineering (apply to every reel):

- 0-2s: hook (spoken + text + face close)
- 2-5s: **pattern interrupt** — a cut, a prop, a "wait" ("par ruklo, yeh dekho")
- Every 5-7s: new visual or new micro-promise ("aur 2nd cheez zyada important hai")
- Last 3s: CTA (spoken + text)
- Hard cap: 30-45 sec for product/education; 60 sec max for stories.

Compliance line for hooks: hooks may create curiosity and name problems; they must NOT promise cures. "Tan hamesha ke liye khatam" ✗ → "Tan-look fresh dikhane ka tarika" ✓.

THE LIBRARY — 60+ hooks, by style

A. CURIOSITY (stranger-stoppers)

1. "3 mahine humne sirf ek serum dhoondha. Wajah dekho."
2. "Yeh 1 ingredient Indian skin ke liye game-changer hai — 99% log ise galat lagate hain."
3. "Aapke bathroom me ek cheez hai jo aapki skin roz kharab kar rahi hai."
4. "Humne 20 aahaiyon ko 4 hafte tak ek serum lagaya. Aaj asli photos."
5. "Ek chhota brand. Ek sachcha experiment. 4 hafte."
6. "Aapke serum ki bottle ki expiry se zyada important 1 cheez — aaj batati hoon."
7. "Is reel ke 15th second par woh line hai jo 1000 aahaiyon ne DM ki."
8. "Ek drop. Bas itna. Phir 4 hafte."

9. "Humari pehli 100 orders ki photos — koi filter nahi."
10. "Yeh 2 products alag alag theek hain — milakar? Kharab. Kaun se? Aage dekho."

B. PROBLEM (name the pain in their words)

11. "Gujarat me 40 degree — aapki skin abhi kya kar rahi hai, aapko pata hai?"
12. "Monsoon me oily skin wale logo — aap roz yehi galti karti ho."
13. "Chehra subah theek, shaandh 'thaka hua' — yeh normal nahi."
14. "AC ka kamra + bahar ka dhool — dono se aapki skin ko double kaam."
15. "Pores bade, skin rough — hard water ka role aapne socha?"
16. "Wedding season aa raha hai, aur glow 'kabhi nahi' wala phase?"
17. "10 saal se wahi 3 dark spots? Yeh unka sachcha naam hai."
18. "Nani ke baad pehli baar skincare — kahan se shuru? Yeh dekho."
19. "Oily skin + summer = aapki skin abhi 5 cheezein kar rahi hai."
20. "Chehra bhiga bhi dikhta hai, khushk bhi — 'confused skin' ka matlab yehi hai."

C. FEAR / LOSS-AVERSION (used sparingly, truthfully)

21. "UV window se bhi aata hai — ghar baithe bhi."
22. "Cloud ke din bhi 80% tak UV aata hai. 'Aaj toh dhoop nahi' — yahi sabse mehngi soch hai."
23. "Aaj ka tan-look = kal ka dark spots ka dikhna. Yeh sequence samjho."
24. "Galat sunscreen = SPF 50 bhi bekar. Yeh 2 galtiyan dekho."
25. "3 din me 'full glow' wala brand? Aapke paise wahi utar jaate hain."
26. "Fake cream ka market itna bada hai ki humne ek reel sirf isliye banai."
27. "Aapki skin barrier ek daam ki cheez hai — yeh 3 cheezein use tod deti hain."
28. "Pehli baar kisi naye brand se lete ho? Yeh 2 sawaal zaroor puchho."

D. BEFORE/AFTER + TRANSFORMATION (only with real, disclosed results)

29. "Day 1. Day 28. Same light, same angle. Dekho khud."
30. "4 hafte pehle main yeh bol rahi thi — aaj yeh." (split screen, disclosed)
31. "20 testers, 4 hafte, 20 kahaniyan. Aaj 3."
32. "Is aahai ne 2 hafte me kya dekha — honest, achi bhi baat, kami bhi."
33. "Hum 'before/after' nahi dikhaate. Hum 'day 1 aur day 28' dikhaate hain — farq padta hai."
34. "Mera chehra nahi, meri routine ka result — 4 hafte, weekly photos."
35. "Same room, same window, 28 din. Aap khud judge karo."

E. MISTAKES / "STOP DOING THIS"

36. "Chehra din me 4 baar raho — rukho. Yeh galti aap bhi karti ho."
37. "SPF sirf bahar jaane par? Yeh soch 2010 ki hai."

- 38. "Vitamin C serum bheege chehre par? 99% log yahi karte hain."
- 39. "6 layers ka routine — aap 3 ki aadat nahi daal pati? Yeh dekho."
- 40. "Aapka sunscreen 2019 ka hai? Khol ke dekho."
- 41. "Pimple phodna 'chhota' hai — par jab yeh ho toh nahi."
- 42. "Face wash ka foam zyada = saaf zyada? Myth. Dekho."

F. MYTH VS REALITY

- 43. "'100% herbal' likha hai toh lagao? Yeh sach jano."
- 44. "Vitamin C se chehra orange? Yeh myth kyun chalta hai."
- 45. "'Sasta serum = kharab serum'? Label padh ke bolte hain."
- 46. "SPF 50 = SPF 30 se double protection? Nahi. Yeh math dekho."
- 47. "'Raaton raat glow' — yeh shabd sunte hi page band karo."
- 48. "Nani ka totka vs lab? Asal jawab dono ka hai."

G. UNEXPECTED FACT

- 49. "Aapki skin 28 din me poori naye ho jaati hai — isliye 28 din ka wait."
- 50. "Water bhi chemical hai. 'No chemicals' product possible nahi — yeh sach."
- 51. "Aapke phone me din me chehra 15+ baar chhoota — ab aapko samajh aa gaya."
- 52. "20% zyada Vitamin C = 20% zyada fayda? Lab kya kehta hai, dekho."
- 53. "Indian skin pe Western routine ka 1 bhaari result — yeh dekho."

H. QUESTION (make them answer in comments)

- 54. "Aapki skin ka sabse bada problem kya hai? Comment karo — aaj ke jawaab uske liye."
- 55. "SPF 30 ya SPF 50? Aap kaunsi lagati ho — aur kyun?"
- 56. "Oily skin pe moisturizer? Haan ya nahi? Comment karo."
- 57. "Kya aap bhi 'bahar jaane par' sunscreen lagati ho? Sach bolo."
- 58. "Aapka routine me kitne products hain? 3 se zyada? Ruko."

I. CONTROVERSY-ADJACENT (bold but safe — no attacking named brands)

- 59. "2000 ki imported cream vs 500 ki Indian — hum ingredient list khol ke batate hain."
- 60. "Hum 'anti-Ayurveda' nahi, 'anti-blind-totka' hain. Farq padta hai."
- 61. "Bade brands 3000 charge karte hain humari 1/3 cheez ke liye — hum wahi dikhate hain."
- 62. "'Sasta' word se humein darr nahi — 'sasta soch' se darr hai. Aaj samjhaienge."

J. RELATABLE / SITUATIONAL (share machines)

- 63. "Gujarati ghar me pehli baar 'skincare' shuru ki? Watch this."
- 64. "Maa: 'Cream kya hai?' Mene: 'Skin ke liye.' Maa: 'Nani ke waqt chehra kharab tha?'"
- 65. "Boyfriend: 'Tum kitne products lagati ho?' (8 layers wala reel)"

66. "Office me 8 ghante, ghar aakar 'ab skincare' — 10 products ki line."
67. "Gujarat me shaadi ka season — 2 hafte pehle 'glow kar li' wala pressure."
68. "Chai break + 2 minute — haan, itne me routine ho jaata hai."
69. "Diwali aate hi 'naya main' wala plan — skin wala bhi."
70. "Exam season me chehra dekha toh hi pata chala."

K. STORYTELLING / FOUNDER

71. "Brand banana kitna mushkil tha — koi reel nahi batati. Main bataati hoon."
72. "Pehla formula? Reject. Yeh kahani suno."
73. "Main Gujarat se hoon — aur isliye humara pehla customer Gujarat hai."
74. "20 aahaiyon ne 4 hafte humara product pehla try kiya. Unka farz tha honest baat karna."
75. "Launch se 1 din pehle 100 boxes — aaj packing ka asli video."

L. PRODUCT DEMONSTRATION / CHALLENGE

76. "10 second. Ek drop. Phir aap khud dekhogi."
77. "Ek haath pe 3 drops, doosre pe 10 — farq khud dekho."
78. "Is serum ko 30 second raho haath pe — absorb dekho."
79. "Challenge: 7 din, 3 steps, roz subah 6:45. Day 7 pe wapas aao."
80. "Texture ka test: chikna? Tight? 5 second me pata chalega."

M. SOCIAL PROOF

81. "Is aahai ne order karne se 4 din pehle 4 baar delete kiya. Yeh uski kahani hai."
82. "Pehli parcel. Pehli aahai. Asli reaction."
83. "Humari page pe 1 bhi fake review nahi — isliye yeh 1 review bhi original hai."
84. "[City] se aaya pehla order — aaj parcel khulte hue dekho."
85. "20 testers me se 18 ne kaha: 'continue karungi.' 2 ne kaha: 'mujhe nahi pasand.' Dono ki baat suno."

N. COMPARISON (brand-neutral, never naming & bashing)

86. "Imported 2000 vs Indian 500 — ingredient list khol ke comparison."
87. "SPF 30 vs SPF 50 — math samjho, phir khud decide karo."
88. "Gel moisturizer vs cream — aapki skin kaunsi chahiye, 30 sec me."
89. "Ubtan vs serum — dono ki jagah alag hai. Yeh dekho."
90. "10% VC vs 20% VC — zyada = behtar? Lab kya kehta hai."

HOOK SELECTION MATRIX (which style when)

Post job	Best styles	Why
Reach new strangers (Pillar 1/6)	Problem, Relatable, Curiosity, Story	High CTR on cold feed; emotion first
Build authority (Pillar 2)	Myth, Fact, Mistake, Question	Saves + search; "smart brand" signal
Product desire (Pillar 3)	Demo, Comparison, Curiosity, Challenge	Sensory + proof; ad-ready
Trust (Pillar 4/5)	Social proof, Before/after (disclosed), Story	Converts evaluators; UGC voice
Sales (Pillar 7)	Social proof, Problem→offer, Curiosity ("100 me X seat"), Comparison	Direct action; pair with offer
Retargeting ads	Before/after, Social proof, Mistake, "X seat left"	They already know you; nudge + proof

Rotation rule: never use the same hook style 2 reels in a row; never reuse a hook in the same month. Keep a spreadsheet: hook used / date / CTR / DMs. Kill bottom-10 hooks, rewrite top-10 with new angles.

PART 9

§7 SAFE BEFORE/AFTER + §8 UGC STRATEGY — RANGAT NATURALS

PART A: BEFORE/AFTER — SAFE, REAL, CONVEYING (Section 7)

The 3 laws (non-negotiable)

1. **Only real, documented, disclosed.** If you can't produce the original date-stamped photos on request, you don't post them.
2. **No editing that changes skin.** Same light, same angle, same crop. Allowed: identical light/brightness on both frames, crop, date stamp. Not allowed: beauty filters, whitening, spot-removal, "before" darkened to look worse.
3. **Mandatory on-screen disclosure, always, both frames:**

*"Day 1 → Day 28 · 4 hafte daily use · **Results may vary** · Real customer, consent ke saath"*

What types of before/after you CAN use (safe list)

Type	What it shows	Safe because
4-week program grid	Day 1 / 7 / 14 / 28, same conditions, 2-3 real faces	Time documented, no single "miracle" claim
Week-by-week series	One tester, one week per post ("Week 3 update")	Serial = believable, builds a show
Texture/finish comparison	Same hand/back-of-hand: skin feel, glow-look, absorption	No face-claim; sensory proof
Tester's own words	"Fresh lagta hai," "dull-look kam" (her phrase, not ours)	Customer's language, attributed
Numbers we can defend	"20 testers me se 17 ne kaha: continue karungi"	Survey of our own program, stated as such
Routine consistency proof	"Roz subah 6:45 — 28 din ka habit" (habit, not miracle)	Honest framing

What you must NEVER do (the kill list)

- ✗ Fake/staged before/after (stock photos, AI "transformations" of real faces)
- ✗ "Before" photos taken in bad light / "after" in ring light (that's a fake)
- ✗ Claims: "tan removed," "pigmentation gone," "spots erased," "acne cured," "100% results"
- ✗ Before/after of a *different person* or a different skin area

- ✗ "3 days me result" framing for anything that needs 4+ weeks
- ✗ AI-enhanced "glow" on the after frame
- ✗ Implying medical outcomes (anti-aging = "age-look," never "reverses aging")

Transformation period: the honest timeline

- **Minimum real program: 28 days daily use.** Skin turnover ~28 days — it's also a great educational point (Hook #49).
- **Show:** Day 1, Day 7 (honest: "abhi kuch nahi, bas habit ban raha"), Day 14 (early feel: freshness), Day 28 (look: even tone-look, fresh-look). **Showing Day 7's "nothing yet" is what makes Day 28 believable** — most fake content skips it.
- **Batch the program:** 20 testers at launch, then a new cohort of 10 every month (recruit from Founding-100 buyers who agree — ₹200 off next order as incentive + their consent form).

How to make it convincing without fakes

1. **Show the unglamorous middle** (Day 7 "kuch nahi dikha" line) — fakes can't do this.
2. **Date stamps + location** on every frame.
3. **One honest negative per 3 positives** (dry patch, irritation week, "mujhe nahi pasand" tester).
4. **Let the customer say it, not you** — her words, her face, her room.
5. **Consent form** (1 page: name, city, photos for IG/ads, "I used RANGAT for X days, results are my own experience"). Store with order.
6. **Same-frame discipline:** shoot Day-1 photos the day product is delivered, with a printed "Day 1" card held in frame (the card in-frame = instant credibility).
7. **Repeat the disclaimer without shame.** "Results may vary" on every frame, every time. Brands that over-disclose are trusted more.

The 4-week documentation SOP (per tester)

Day	Shoot	Ask
1 (delivery)	Full face, same window light, "Day 1" card in frame, back-of-hand	"Kya expect karti ho?"
7	Same setup	"Kya change feel hua? (honest, even 'nothing')"
14	Same setup	"Fresh/dull me kya farq?"
28	Same setup + short 30-sec video to camera	"Kya continue karogi? Kisko recommend karogi?"

Photography rules: no makeup, front window light (or fixed lamp position marked with tape), phone at same height (mark on wall), 20-min gap from product use, 3 photos each time (pick the sharpest, never retouch).

PART B: THE 20 UGC REELS — RANGAT NATURALS (Section 8)

Creator mix (20 total): 4 girl creators (Gujarati/Hindi), 2 male, 2 Gen-Z college, 2 working professionals, 1 Gujarati + Hindi bilingual creator, 1 Hindi-speaking (non-Gujarat, e.g., Delhi/MP), 1 skincare-niche creator, 3 mixed (couple/gifting/ASMR/quiz), 1 challenge-series opener.

Standard structure for all 20: HOOK (0-2s) → SCENE 1 (context/problem) → SCENE 2 (product in real routine) → SCENE 3 (honest take) → PRODUCT SHOT (3 sec, label visible, natural setting) → CTA (last 3s, spoken + text).

Payment/terms (all): product free + ₹500-₹2,000 (by follower size) + 20% affiliate code on first 20 sales + written permission to run as Meta ad (₹100 bonus per ad use, stated upfront). Consent = 1 message template (in [12-gujarat-first.md](#)).

UGC #1 — Girl creator, Ahmedabad, 24 (Gujarati)

- **HOOK:** "Gujarat me monsoon — chehra dull, phir 40 degree. Main kiya? Bas 2 cheezein."
- **SCENE 1:** Waking up, hair down, looking tired at mirror: "Mausam dekho — skin thaki hui."
- **SCENE 2:** Morning counter: wash (60 sec) → 3 drops RANGAT serum → spread → moisturizer. Quick cuts, real counter, chai glass in frame.
- **SCENE 3:** To camera: "2 hafte ho gaye — fresh feel aaya hai. Koi overnight nahi, honest."
- **PRODUCT SHOT:** Serum bottle on counter, morning light, 3 sec, label readable.
- **DIALOGUE/VO:** as scenes; ends: "Gujarat ma mausam aam che — skin ka dhyan bhi aam che. RANGAT — aamee skin, aamno liye."
- **CTA:** "GLOW likho DM me — unka launch chal raha hai." (text: DM "GLOW")

UGC #2 — Male creator, working professional, 28 (Hindi)

- **HOOK:** "Main office me 9 baaje jaata, 8 baaje aata — par abhi bhi skin ka ek 2-minute ka time nikalta hoon. Yeh hai kaise."
- **SCENE 1:** Morning rush: keys, bag, office T-shirt. "Time nahi hota — time banata hai routine."
- **SCENE 2:** Bathroom mirror: RANGAT Face Wash, 60 sec, quick. "Yahi mera full step 1 hai."
- **SCENE 3:** To camera: "Oily skin, SG Highway ka dhool — face wash bina main 4 baje tak shine karta. Ab nahi."
- **PRODUCT SHOT:** Face Wash bottle, sink, towel, 3 sec.
- **DIALOGUE/VO:** per scene; punchline: "Grooming = 2 minute, nahi toh 2 din bhi nahi."
- **CTA:** "Mard bhi skin ke liye — link bio me, COD bhi hai." (text: WhatsApp link in bio)

UGC #3 — Gen-Z college creator, 20 (Hindi)

- **HOOK:** "Exam season + outdoor classes = tan-look + dullness. College pehli baar serum try kiya — budget ke andar."
- **SCENE 1:** Hostel room, books, tired face: "5 baje tak exam, phir 7 baje class — skin pehle hi haar gayi."
- **SCENE 2:** Hostels sink: wash + 2 drops serum before study break: "2 minute, chai break me."
- **SCENE 3:** To camera, smiling: "Honest — maine 600 me leliya, kyunki 2000 wali afford bhi nahi karti aur chahiye bhi nahi. 2 hafte me fresh lagti hoon."
- **PRODUCT SHOT:** Serum on study table with books/phone, 3 sec.
- **DIALOGUE/VO:** per scene; "College girl budget: 600. Result: fresh."
- **CTA:** "Students — COD hai, ghar par bhi order kar sakti ho." (text: DM GLOW)

UGC #4 — Working professional woman, 30, Ahmedabad (Hindi)

- **HOOK:** "30 ki umar, 10 saal ka office — ab skincare 'try' nahi, 'maintain' hai. Meri 6:45 ki routine dekho."
- **SCENE 1:** Alarm 6:20, quick get-ready, office outfit.
- **SCENE 2:** Mirror, 3 steps timed (wash → serum → SPF): "6:45 se 6:55. Baaki time make-up ka."
- **SCENE 3:** To camera: "Mujhe long routines nahi chahiye. 3 sahi steps, roz — bas. 4 hafte RANGAT use kar rahi hoon, dull-look kam hua hai."
- **PRODUCT SHOT:** All 3 products in a row on counter, 3 sec.
- **DIALOGUE/VO:** per scene; "Time kam hai, skin ka respect zyada."
- **CTA:** "Routin chahiye toh GLOW DM karo — 3-product kit bhi hai." (text: DM GLOW)

UGC #5 — Gujarati + Hindi bilingual creator, 25 (Gujarati-first)

- **HOOK:** "Nani ke totke vs aaj ka science — RANGAT ne dono ko ek saath rakha. Aaj proof dikhau."
- **SCENE 1:** Kitchen, nani/mom in frame: "Nani: 'Haldi ubtan hai, bas.' Main: 'Haan nani — aur phir yeh bhi.'" (product in hand, no fight, love)
- **SCENE 2:** Counter: face wash + serum routine, 20 sec, calm.
- **SCENE 3:** To camera (Gujarati → Hindi): "Aamaare ghar ke totke ma samajh chhe — par 2026 ma skin ko sahi ingredient bhi chahiye. RANGAT che yehi che. Aamee skin, aamno liye."
- **PRODUCT SHOT:** Serum beside a small bowl of ubtan/haldi (visual: both worlds), 3 sec.
- **DIALOGUE/VO:** as scene; bilingual punchline.
- **CTA:** "Gujarat walo — aamaare brand, aamno liye. GLOW DM karo." (text: DM GLOW)

UGC #6 — Skincare-niche creator, 27 (Hindi, 30k+ beauty niche)

- **HOOK:** "Main 200+ products review karti hoon — is naye brand se mujhe 1 cheez pasand aayi."
- **SCENE 1:** Shelf of products (her niche context), picks RANGAT bottle.

- **SCENE 2:** Label close-up + palm test: "10% Vitamin C, simple list, batch card hai — 3 cheezein jo main hamesha check karti hoon."
- **SCENE 3:** To camera: "Verdict: 2 hafte — fresh-look aaya, irritation nahi. Price bhi aam. Naya brand hai, isliye 1 kaam karke hi bol rahi hoon: 4 hafte baad dobara review aayega."
- **PRODUCT SHOT:** Bottle + label macro, 3 sec.
- **DIALOGUE/VO:** per scene; "Naya brand = naya review. Yeh pehla hai."
- **CTA:** "Follow karo 4-hafte wale review ke liye + DM GLOW inke launch ke liye." (text: DM GLOW)

UGC #7 — College girl, 19, Surat (Hindi + light Gujarati)

- **HOOK:** "Surat me 'diamond city' hustle — par mera budget student hai. Pehla serum 600 me."
- **SCENE 1:** College canteen/commute: "Poora din bahar, dhool, dhoop — skin kharab."
- **SCENE 2:** Room: wash + serum, 20 sec, phone timer visible.
- **SCENE 3:** To camera: "Pehli baar serum lagaya toh socha kya hoga. 2 hafte — fresh feel, aur sabse achha: koi tightness nahi. Student proof."
- **PRODUCT SHOT:** Serum on bed/table with ID card (blurred), 3 sec.
- **DIALOGUE/VO:** per scene; "Student budget, real result feel."
- **CTA:** "Surat wale students — COD hai, ghar par milega." (text: DM GLOW)

UGC #8 — Male college creator, 21, Vadodara (Hindi)

- **HOOK:** "Bro, face wash actually karta hai? 2 hafte ka test — result me aao."
- **SCENE 1:** Hostel mess/hangout: "Log kehte hain 'mard ko kya cream.'" (relatable)
- **SCENE 2:** Sink: 60-sec wash, morning: "60 second. Bas."
- **SCENE 3:** To camera: "2 hafte — shine kam, face fresh. Koi magic nahi, bas 60 second roz. Try karo khud."
- **PRODUCT SHOT:** Face Wash, sink, towel, 3 sec.
- **DIALOGUE/VO:** per scene; "Test: 14 din. Verdict: 60 second ka kaam."
- **CTA:** "Link bio me. COD. Mard bhi skin." (text: WhatsApp link)

UGC #9 — New mom, 28, Rajkot (Gujarati)

- **HOOK:** "Baby ke baad skin 'mujhse' khaali ho gayi thi. Main kiya? 2 hafte, 2 cheezein."
- **SCENE 1:** Home, baby sleeping (no baby's face): "Sone ka time hi apna time hai."
- **SCENE 2:** 7 AM baby-nap window: wash + serum, 20 sec, real kitchen light.
- **SCENE 3:** To camera: "Koi miracle nahi — par 2 hafte me woh 'thaka hua' look kam hua hai. Honest. Aur haan, baby-safe nahi bolte — face par, apne time par."
- **PRODUCT SHOT:** Serum on kitchen counter with baby bottle silhouette (no face), 3 sec.
- **DIALOGUE/VO:** per scene; "Maa ka time chhota hai — isliye routine bhi."
- **CTA:** "Naye maa — aapki turn. GLOW DM karo." (text: DM GLOW)

UGC #10 — Couple, 27/29, Ahmedabad (Hindi)

- **HOOK:** "Humne ek doosre ke liye skincare gift kiya — ab dono 2 minute roz karti/karte hain."
- **SCENE 1:** Both in frame, laughing: "Gift idea: skin."
- **SCENE 2:** Split: her (serum routine) / his (face wash), same bathroom, 20 sec each.
- **SCENE 3:** To camera together: "2 hafte — dono fresh. Aur sabse achha: ab ek doosre ko yaad dilate hain."
- **PRODUCT SHOT:** His + her products side by side, 3 sec.
- **DIALOGUE/VO:** per scene; "Gift nahi, routine ka gift."
- **CTA:** "Gift box banate hain — WhatsApp par batao. (Diwali se pehle.)" (text: WhatsApp link)

UGC #11 — Beauty shelf creator, 26 (Hindi)

- **HOOK:** "Mera shelf 3000 wali products se bharpoor hai — phir bhi 600 wali RANGAT bottle par ruk gayi."
- **SCENE 1:** Shelf tour, hand stops on RANGAT.
- **SCENE 2:** "Label padho saath me:" reads key lines, palm test.
- **SCENE 3:** To camera: "Naya brand, Indian, batch card, aam price. 2 hafte — fresh feel. Shelf pe ab permanent jagah hai."
- **PRODUCT SHOT:** Bottle on her shelf among others, 3 sec.
- **DIALOGUE/VO:** per scene; "Price tag nahi, label padho."
- **CTA:** "Shelf add karna ho? DM GLOW." (text: DM GLOW)

UGC #12 — Gen-Z "POV" creator, 21 (Hindi)

- **HOOK:** "POV: aapne 500 ke andar serum dhunda — aur mile bhi."
- **SCENE 1:** Phone scrolling (cart, prices) → "2000, 1500, 1200..." → RANGAT page.
- **SCENE 2:** Unboxing: parcel → box → serum + free face wash mini.
- **SCENE 3:** To camera, pointing: "600 me, COD, free mini, aur 2 hafte me fresh feel. POV done."
- **PRODUCT SHOT:** Unboxed items laid out, 3 sec.
- **DIALOGUE/VO:** per scene; "Budget: 600. Vibe: fresh."
- **CTA:** "POV me join karo — GLOW DM." (text: DM GLOW)

UGC #13 — Young professional, 26, Surat (Hindi)

- **HOOK:** "Surat wale hustle jaante hain. 9 se 9, phir bhi skin ko 2 minute milte hain. Yeh kaise? Watch."
- **SCENE 1:** Morning: office, commute, quick.
- **SCENE 2:** Hotel/guest-house bathroom: wash + serum, 20 sec.
- **SCENE 3:** To camera: "Diamond city me time sasta nahi — isliye routine sasta hai. 2 minute, 2 products, roz."
- **PRODUCT SHOT:** Counter, 3 sec.

- **DIALOGUE/VO:** per scene; "Hustle + glow dono chahiye?"
- **CTA:** "Link bio. COD. Aage badho." (text: WhatsApp link)

UGC #14 — College cultural-fest creator, 20, Vadodara (Hindi)

- **HOOK:** "Cultural fest 2 hafte baad — aur 'glow kar lo' wala pressure shuru. Main kya kar rahi hoon (bina 10 products ke)."
- **SCENE 1:** College, festival posters, friends: "Fest wale pressure dekho."
- **SCENE 2:** Dorm: 3-step routine, 20 sec: "Yahi. Bas yahi."
- **SCENE 3:** To camera: "2 hafte me fresh-look aata hai — isliye 2 hafte pehle shuru karo, 2 din pehle nahi. RANGAT ke saath, budget ke andar."
- **PRODUCT SHOT:** Products + fest invite in frame, 3 sec.
- **DIALOGUE/VO:** per scene; "Glow plan = 2 hafte pehle, 3 steps."
- **CTA:** "Fest glow chahiye? GLOW DM — kit bhi hai." (text: DM GLOW)

UGC #15 — Girl creator, 24, Rajkot (Gujarati + Hindi)

- **HOOK:** "Rajkot: garmi me oil, sardiyon me dry. Ek hi skin, 2 alag pareshani. Meri 1 solution dekho."
- **SCENE 1:** Window: "Aaj garmi, kal sardi — yehi hai Gujarat."
- **SCENE 2:** Counter: wash → serum → (season swap: gel/cream) 20 sec.
- **SCENE 3:** To camera: "Season ke saath bas 1 product badlata hoon — serum yahi, moisturizer wahi. 2 hafte me consistent fresh feel."
- **PRODUCT SHOT:** Serum + both moisturizers, 3 sec.
- **DIALOGUE/VO:** per scene; "Aamaare mausam badle, routine wahi."
- **CTA:** "Rajkot walo — GLOW DM karo." (text: DM GLOW)

UGC #16 — Skincare educator, 29 (Hindi, educational tone)

- **HOOK:** "10% Vitamin C — lab kya kehta hai, aur aapka skin kya karega? 45 second ka class."
- **SCENE 1:** Desk, whiteboard: "Topic: Vitamin C, 10%."
- **SCENE 2:** Whiteboard points (3): bright-look / even tone-look / 10% = benefit-irritation balance.
- **SCENE 3:** To camera: "RANGAT ki bottle isliye choose ki kyunki list simple hai, batch card hai, 10% hai. Class over. Homework: 4 hafte daily use."
- **PRODUCT SHOT:** Bottle + whiteboard, 3 sec.
- **DIALOGUE/VO:** per scene; "Theory + practice, dono."
- **CTA:** "Class notes save karo + DM GLOW practice ke liye." (text: DM GLOW)

UGC #17 — Comedy creator, 23 (Hindi)

- **HOOK:** "Girl math: 600 ka serum = roz ka ek chai. Lekin chai 15 minute me khatam, serum 4 hafte chalta hai."
- **SCENE 1:** Canteen chai, phone calc: "Chai ₹50 × 12 din = ₹600."

- **SCENE 2:** "Chai: 15 min me khatam. Serum: 4 hafte, roz, 2 drops." (split visual)
- **SCENE 3:** To camera, chai in hand: "Math done. Ab chai bhi piungi, serum bhi. Budget: ek chai kam, skin: fresh."
- **PRODUCT SHOT:** Serum + chai glass, 3 sec.
- **DIALOGUE/VO:** per scene; "Girl math, but it works."
- **CTA:** "Apni girl math karo — GLOW DM." (text: DM GLOW)

UGC #18 — Morning routine ASMR creator, 25 (minimal Hindi, mostly visuals)

- **HOOK (text-only, 1 sec):** "6:45 AM. 3 steps. 2 minutes."
- **SCENE 1:** Dark room → lamp on (no music, soft ambient): wash, water sound.
- **SCENE 2:** Serum drops (ASMR close-up) → spread → moisturizer. No talking.
- **SCENE 3:** Window light, fresh face, coffee: text "Yahi poora plan hai."
- **PRODUCT SHOT:** 3 products in row, soft light, 3 sec.
- **DIALOGUE/VO:** none — text captions only: "Step 1: wash 60s" / "Step 2: serum, 3 drops" / "Step 3: moisturize."
- **CTA (text):** "Routin chahiye? DM GLOW." (text: DM "GLOW")

UGC #19 — Quiz/interactive creator, 27 (Hindi)

- **HOOK:** "Aapka skin type kya hai — 4 sawaal me pata chala. Last answer 90% log galat dete hain."
- **SCENE 1:** To camera: "Sawaal 1: Subah uthne par chehra? (shine / tight / normal)"
- **SCENE 2:** "Sawaal 2: Din me? Sawaal 3: Raat? Sawaal 4: Naye product par reaction?" (fast, on-screen options)
- **SCENE 3:** "Jawaab: oily / dry / combination / sensitive — aur har ek ka routine alag. Mera? Combination — isliye yeh 3 products." (shows RANGAT trio)
- **PRODUCT SHOT:** Trio on table, 3 sec.
- **DIALOGUE/VO:** per scene; "Pehle type, phir products — is order me."
- **CTA:** "Apna type comment karo — main routine bataungi. Aur GLOW DM = launch offer." (text: DM GLOW)

UGC #20 — Challenge-series OPENER, tester, 26 (Hindi) — the long-tail asset

- **HOOK:** "Main 30 din tak roz subah RANGAT Vitamin C lagau gi — din 1 se 30 tak, same light, same angle. Aaj din 1."
- **SCENE 1:** "Day 1 card" in frame, plain face, window: "Koi filter nahi, koi skip nahi. Daily update is page par."
- **SCENE 2:** Morning routine, 20 sec.
- **SCENE 3:** To camera: "Din 7, 14, 30 — photos aayengi. Kya dikhega, nahi pata. Yahi toh asli hai."
- **PRODUCT SHOT:** Bottle + "Day 1" card, 3 sec.

- **DIALOGUE/VO:** per scene; "30 din, 1 sachchi camera."
- **CTA:** "Follow karo — din 30 tak milte hain. (Aur GLOW DM se khud try karo.)" (text: DM GLOW)

Note: UGC #20 is a *serial* — 30 daily posts from one person = the single biggest trust asset you can run (a "show"). Budget 1 dedicated creator for it; every weekly update also feeds retargeting ads.

UGC operations rules

1. **Brief, not script:** give creators 3 prompts (problem / routine / honest take) + 4 hard rules (no medical claims, no "cure/remove/gone," always "results may vary" on B/A, no fake discounts). They talk in their own words.
2. **Permission first, in writing:** 1 WhatsApp template: "Main RANGAT NATURALS ke liye [date] se [product] use kar rahi hoon, apni asli experience ke saath. Aap is video ko IG + Meta ads me chala sakte ho. — [Name, city, consent]." Store with the video file.
3. **Repurpose matrix (per UGC video):** (a) their reel (collab) (b) our reel (repost w/ credit) (c) 2 ad cuts (15s + 30s) (d) 3 quote cards (Stories/retargeting) (e) 1 YT Short. **1 shoot = 6 assets.**
4. **Cadence:** 2-4 new UGC posts/week from Week 3; by Day 90: 40-60 in the bank.

PART 10

§9 AI-GENERATED CREATOR IMAGES + UGC VIDEO PROMPTS — RANGAT NATURALS

How this fits (and where it can't)

AI UGC is your **creative factory for testing** — fast, cheap variants to find hooks/angles that humans then shoot for scale. Rules of the road:

1. **Never pass AI video off as a real customer.** In the UGC slot, AI-generated "creator" videos must be labeled or used only as *concept/teaser* assets (e.g., "aapki kahani bhi yahan ho sakti hai" style). Real testimonials, real before/after = humans only. (Also protects you under ASCI/Meta policies.)
2. **AI video models butcher brand text.** Do NOT ask the model to render "RANGAT NATURALS" on a label or on-screen text. Generate the video WITHOUT readable label text (plain label or blurred), then add: the real label (product insert or real bottle), on-screen hook text, captions, and CTA **in CapCut/Premiere**. This is the workflow — every prompt below assumes it.
3. **Consistency lock:** define ONE virtual character sheet and reuse it across prompts (same face, hair, outfit) so a "character" appears in 5-10 videos — a recurring face builds parasocial trust, even if AI.
4. **Skin realism is the whole point:** no beauty filters, no smooth skin — the prompts enforce "natural skin texture, visible pores, no retouch."
5. **Use AI images for:** profile placeholder shots, carousel visuals, flat-lays, "in a real Indian home" backgrounds, ad statics (labeled as brand visuals).

THE CHARACTER SHEET (paste into every prompt)

CHARACTER: Indian woman, 26 years old, medium-tan (Indian) skin tone with natural texture and visible pores, light brown eyes, shoulder-length straight hair, small nose stud, no makeup or very minimal (tinted lip only), wearing a simple beige cotton kurta. Warm, calm, slightly smiling. **No beauty filter, no skin smoothing, no airbrushing — realistic, slightly imperfect, natural.**

(Male variant: Indian man, 28, light stubble, short black hair, white T-shirt, natural skin texture.)

(Gen-Z variant: Indian woman, 20, college hoodie over kurta, ponytail, no makeup, natural skin.)

VIDEO PROMPTS — by length

5-SECOND REEL (hook-only / pattern-interrupt)

Prompt A (texture hook):

AI video, 5 seconds, 9:16 vertical, UGC selfie style. Indian woman, 26, [CHARACTER SHEET], sitting at a home bathroom counter in soft window daylight, morning. She looks at the camera with mild curiosity, then holds up a small amber skincare bottle (label plain, no text) toward the camera. Handheld phone camera, slight natural shake, front-facing angle at eye level. One gesture: raises the bottle 10 cm and tilts it gently. Background: real Indian bathroom — white tile, a glass of water, a towel, a small plant; slightly lived-in, not staged. Lighting: single soft window light, warm morning tone, gentle shadows. Expression shift: neutral → slight knowing smile. No on-screen text, no logo, no music. Natural ambient sound only.

Post-production (CapCut): add frame-1 text: "Ek drop. Bas itna." + final frame: product label overlay + "RANGAT NATURALS — DM GLOW". Hook audio: her voice: "10 second. Ek drop."

Prompt B (mirror hook):

AI video, 5 seconds, 9:16, UGC mirror-selfie style. Indian woman 26, [CHARACTER SHEET], in front of a home mirror with a round mirror light, early morning, slightly tired but fresh face, natural skin. She touches her cheek with two fingers and looks at the camera through the mirror with a "wait, did you see that?" expression. Handheld phone, mirror angle, minor shake. Background: typical Indian bedroom mirror, clothes on chair, window light. Lighting: cool-morning window light + warm ring light, realistic mix. No text, no logo. Natural sound.

Post-production: text: "Chehra thaka hua? Aaj badalenge plan." → CTA text: "DM GLOW".

8-SECOND REEL (problem → product reveal)

Prompt C:

AI video, 8 seconds, 9:16, UGC handheld. Indian woman 26, [CHARACTER SHEET], Indian home living room, afternoon window light. Cut 1 (0–3s): she looks at phone with a small frown, then puts it down, exhales, looks at camera — "tired face" moment. Cut 2 (3–5s): quick cut to her hand opening a small amber skincare bottle (plain label), one pump of cream into palm, close-up of texture spreading, natural skin. Cut 3 (5–8s): back to face, she smiles calmly, lightly pats her cheek. Handheld phone feel, natural shake, eye-level. Background: real Indian home — wooden table, a chai glass, curtain with daylight. Warm afternoon light, soft shadows. No on-screen text, no logo, no heavy audio.

Post-production: text track: 0–3s "40° bahar, AC andar — skin beech me." → 3–5s "Humara jawab: 2 drops." → 5–8s "RANGAT — aamee skin, aamno liye." + CTA card 1s: "DM 'GLOW' ·

COD". Voice (real, recorded): "Monsoon me skin thakti hai. Yeh 2 drops uska din theek karte hain."

Prompt D (male):

AI video, 8 seconds, 9:16, UGC handheld. Indian man 28 [male sheet], hotel-room bathroom, morning. Cut 1 (0-3s): he looks at mirror with shine on forehead, wipes with towel, slight "ugh" face. Cut 2 (3-5s): close-up: lather of a white face-wash cream in palm, realistic foam, natural hand. Cut 3 (5-8s): he pats his face dry, gives the camera a small confident nod. Handheld, mirror + face mix, slight shake. Background: guesthouse bathroom, towel, soap dish. Cool morning light from window. No text, no logo.

Post-production: text: "9 se 9 office. 60 second skin." → "Mard bhi skin." → CTA "WhatsApp link in bio".

10-SECOND REEL (problem → routine → result-promise)

Prompt E (hero product routine):

AI video, 10 seconds, 9:16, UGC handheld, morning Indian home. Indian woman 26 [CHARACTER SHEET]. Cut 1 (0-2s): at bathroom mirror, slightly tired face, natural skin, looks at camera. Cut 2 (2-4s): face-wash lather on cheek, water splash, quick wash, towel pat — realistic fast motion. Cut 3 (4-7s): close-up: 3 drops of a clear serum (plain amber bottle) fall onto back of hand, she spreads it, absorption visible, natural skin texture. Cut 4 (7-10s): medium shot: she looks at camera, calm confident half-smile, touches cheek lightly. Handheld phone, eye-level, natural shake, one continuous "morning" flow. Background: Indian bathroom + counter, window daylight, a chai glass on the sill. Warm morning light. No on-screen text, no logo. Natural ambient sound (water, soft room tone).

Post-production: text sequence: "Step 1: 60 sec wash" → "Step 2: 3 drops, khurraak chehre par" → "Step 3: roz. 4 hafte. Watch it." → CTA: "DM 'GLOW' — launch me FREE Face Wash mini + COD". Voiceover (real, 9 sec): "60 second ka wash, 3 drops ka serum, roz subah. 4 hafte me aap khud farq dekhogi. Results har kisi me alag — yahi humari sachai hai."

Prompt F (before/after-concept, LA-BELED, no claim):

AI video, 10 seconds, 9:16, UGC split-screen concept. Indian woman 26 [CHARACTER SHEET], same room, same window light both sides. Left half: slightly dull tired morning face, flat expression, "day-1" vibe. Right half: same woman, same light, fresher calmer face, relaxed smile, "week-4" vibe (subtle, natural difference only — no glow effects, no filters). She holds a plain amber bottle in the right half. Handheld, static with micro-shake. Background: same Indian bedroom window, curtain. Natural morning light, identical on both sides. No text, no logo, no effects, no beauty retouch.

Post-production: text: "Day 1 → Week 4 (concept — asli program ke photos aapke liye aane wale hain)" → bottom bar ALWAYS: "Real customer program · Results may vary". **Use only as teaser for the real tester program — never as a customer result.** CTA: "4-hafte

program me kaise ho? DM GLOW."

15-SECOND REEL (full mini-story: context → doubt → routine → honest take)

Prompt G (the "skeptic" story — strongest ad format):

AI video, 15 seconds, 9:16, UGC handheld, realistic Indian home. Indian woman 26 [CHARACTER SHEET]. Cut 1 (0-3s): sitting on bed, holding a phone, skeptical slight frown, looking at camera as if questioning (a new brand, first time). Cut 2 (3-5s): cut to a small parcel on the floor, she opens it, pulls out a small box — natural lighting, real parcel tape. Cut 3 (5-9s): bathroom counter, morning: quick face wash, then 3 drops serum on hand, spread, pat — close-up on natural skin texture. Cut 4 (9-13s): medium shot, mirror, she looks at herself, small surprised-positive shift, then looks at camera. Cut 5 (13-15s): close-up, calm smile, slight nod — "honest, it's okay" expression. Handheld phone, natural shake, eye-level throughout. Background: Indian bedroom (bed, clothes, window) + bathroom counter (chai glass, towel). Warm morning window light, consistent. No on-screen text, no logo, no music. Ambient room sound, soft water sound in cut 3.

Post-production: text track: 0-3s "Naya brand. Pehli baar. Doubt tha." → 3-5s "COD tha. Parcel aaya." → 5-9s "Roz subah, 2 minute." → 9-15s "2 hafte — fresh feel. Honest: koi overnight nahi." → bottom bar: "Real customer story format · Results may vary" → CTA card 1.5s: "DM 'GLOW' · COD · Free Face Wash mini". Voiceover (real, female, 14 sec): "Naya brand tha, maine bhi socha nahi tha. COD tha, toh liya. Roz subah 2 minute — wash, 3 drops. 2 hafte ho gaye, fresh feel aaya hai. Koi magic nahi — bas consistent routine. Aap bhi try kar sakti ho — GLOW likho DM me."

Prompt H (Gujarati flavor — cultural context, LA-BELED):

AI video, 15 seconds, 9:16, UGC handheld, warm Indian home. Indian woman 26 [CHARACTER SHEET]. Cut 1 (0-3s): kitchen counter, morning, she stirs a chai glass while talking to camera, relaxed, slight smile, real home background (copper utensils, a window). Cut 2 (3-6s): close-up: hand with a small amber bottle (plain label), she pumps a small cream onto fingers, shows it to camera, natural skin. Cut 3 (6-10s): bathroom mirror, quick routine: wash, spread cream on cheek, towel, fresh look. Cut 4 (10-13s): back at kitchen, chai in hand, she sips, looks at camera with a warm confident smile. Cut 5 (13-15s): close-up: calm smile, slight nod, "yehi toh hai" expression. Handheld, natural shake, eye-level. Background: real Gujarati/Indian home kitchen (terracotta tones, window light, small plant). Warm golden morning light. No text, no logo. Natural ambient: chai sound, light room tone.

Post-production: text: 0-3s "Gujarat ma: chai break + 2 minute." → 3-6s "Ek drop. Bas itna." → 6-10s "Roz subah — yahi routine." → 10-15s "RANGAT — aamee skin, aamno liye." → CTA card: "DM 'GLOW' · COD · Pehli 100 orders". Voiceover (real, Gujarati-accented Hindi, 14 sec): "Gujarat ma subah ka plan simple che — chai, phir 2 minute apne liye. Ek drop serum, thodi moisturizer. Yehi hai hamari skin ki jaank."

IMAGE PROMPTS (creator images / carousel / ad statics)

1. **Flat-lay (brand):** "Top-down flat lay, Indian home wooden table, morning window light: small amber serum bottle with PLAIN label (no text), a white face wash tube with plain label, cream moisturizer jar, a hand spreading cream texture on wood, a chai glass, a small green plant, terracotta tones, soft warm light, natural texture, no text, no logo, photorealistic, 4:5."
2. **Creator portrait (profile/about):** "[CHARACTER SHEET] Indian home background, soft window light, holding a plain amber skincare bottle, warm calm smile, candid UGC feel, photorealistic, natural skin texture, no text, no logo, 4:5."
3. **Texture macro:** "Extreme macro photo: 3 drops of clear serum on the back of a natural Indian hand (medium-tan skin, visible pores, no retouch), morning window light, soft terracotta background, photorealistic, no text."
4. **In-context (ad static):** "[CHARACTER SHEET] Indian bedroom, morning, sitting by window applying cream to cheek, candid, phone-selfie angle, natural skin, warm light, plain-labeled skincare bottles on bedside table, no text, no logo, 4:5."
5. **Packaging/box:** "Small kraft skincare gift box on a terracotta surface, open, showing a plain-labeled amber bottle and a small tube, a handwritten-style (unreadable) thank-you card, warm Indian home light, photorealistic, no readable text, no logo, 4:5."

GENERATION WORKFLOW (per batch)

1. Lock character sheet → generate 6–10 images (pick 2 consistent "faces" if the model drifts; keep the better one as THE character).
2. Generate 2 videos per length tier (5/8/10/15s) per hook idea → pick best 1 per hook.
3. CapCut: cut to exact length, add hook text (frame 1), captions, product-label insert (real bottle overlay), RANGAT bottom-corner logo, CTA card, voiceover (real voice, recorded — never TTS for UGC slot), trending audio at 15%.
4. Export 9:16 1080x1920. Name files: `RANGAT_AI_[hook]_[len]s_v1.mp4`.
5. **Labeling:** if used in the UGC/testimonial position → use only as "concept/story-format" assets or as ad creative clearly not claiming to be a real customer. Real testimonial slots = real humans only.
6. Track in the same sheet as human creatives (hook / format / CTR / ATC) so AI vs human performance is comparable.

VOLUME (pair with 21-production-system.md)

- 2 AI batch days/month: ~10–15 AI UGC videos + 8–12 AI images per batch.
- Use AI for: ad A/B variants, hook testing, teaser/concept posts, carousel visuals.
- Use humans for: anything that says "customer says / tester says / real result."

PART 11

§10 PRODUCT-SPECIFIC CONTENT — RANGAT NATURALS: HERO 4 (LAUNCH PHASE)

Launch sequence & focus (do NOT sell all at once)

Wave	Product	When	Role
1	Vitamin C Serum 10%	Day 21 (launch)	HERO — attention, glow story, ad workhorse
1	Face Wash	Day 21 (as free mini + standalone entry SKU)	Low-ticket entry (₹199–299) — "try us risk-free"
1	Moisturizer (gel-cream)	Day 31 (kit bundle push)	Completes the 3-step routine; AOV builder
2	Sunscreen SPF 50	Day 45–60 (waitlist seeded from D18)	Month-2 hero; Gujarat heat + wedding season
3	Night Cream	Day 75–90 (seeded from D28)	Month-3; repeat-purchase anchor
Later	Lip Care (Nov–Dec winter), Hair Care (post-monsoon fall season), Body Care (winter)	Month 4+	Seasonal waves

Rule: one hero at a time. The hero gets 50% of product content, 50% of ad creative. Secondary products appear only inside the hero's routine (as "step 2" etc.).

PRODUCT 1: VITAMIN C SERUM 10% (the hero)

10 Reel ideas

1. **"3 mahine, 1 serum"** — the search story (why 10%, why this base, 20 testers). [Story/proof]
2. **"10 second. Ek drop."** — macro texture drop + absorption ASMR. [Desire]
3. **"99% log serum galat lagate hain"** — 5-step how-to (dry face, 3–4 drops, pat, moisturize, SPF). [Save-bait]
4. **"Chehra subah theek, shaandh thaka hua?"** — problem → "yeh 4 hafte ka plan hai" (VC + SPF duo). [Problem]
5. **"10% ya 20%? Zyada = behtar?"** — the concentration math, whiteboard. [Education]
6. **"Day 1 → Day 28"** — real tester program, disclosed. [Proof]
7. **"Vitamin C se orange chehra? Myth."** — 3 real reasons the myth exists. [Myth]
8. **"20 testers, 3 kahaniyan"** — 3 faces, honest mixed results. [Trust]

9. **"Subah 6:45 — 3-step routine"** — VC inside the 60-sec routine. [Routine]
10. **"Monsoon dullness wale, ruko"** — season-specific VC reel (Sep-Nov angle: post-monsoon glow, wedding season prep). [Seasonal]

5 Carousel ideas

1. "Vitamin C kya karta hai — 60 second science" (7 slides, from Day 10) — save-bait.
2. "VC serum shopping guide: label pe kya padhna hai (concentration, form, storage)" — authority.
3. "Day 1/7/14/28 program photos" (disclosed) — proof grid.
4. "Serum + SPF duo: kyun, kab, kaise" — routine.
5. "Founding 100: box me kya hai" (offer) — sales.

5 Story ideas

1. Poll: "Serum kab lagati ho? Subah ☑ / Raat ☑" → answer: subah + SPF.
2. Question box: "Vitamin C se kya galti karte ho?" → best 3 answered on camera (Q&A reel feed).
3. Texture close-up + quiz: "Kitne drops sahi hain? a) 1 b) 3-4 c) jitna mile" → answer 3-4.
4. Tester day-28 photo (consent + disclaimer) + "apna bhi? GLOW DM."
5. Countdown (launch/offer) + DM CTA card "GLOW."

5 Sales posts

1. **Founding 100 announcement** (the launch reel/carousel) — offer + COD + free mini.
2. "X/100 seat bachi" — real stock count + what's in the box. (Once/week max.)
3. "Kit time: Serum + Face Wash + Moisturizer = 3-step complete, ek box me" — bundle AOV play.
4. Referral post: "Do ₹100, lo ₹100" + first-customer photo.
5. "Batch 2 waitlist" (when 100 sells out) — urgency via real scarcity + waitlist CTA.

PRODUCT 2: FACE WASH (the entry ticket)

Positioning: "Pehla step, pehla bharosa." The lowest-risk product (₹199-299) = the "try RANGAT without thinking" item. For men: "60 second, bas."

10 Reel ideas

1. **"Chehra 4 baar raho — ruko."** — over-washing mistake; 60-sec correct method. [Mistake]
2. **"Foam zyada = saaf zyada? Myth."** — what actually cleans vs irritates. [Myth]
3. **"60 second timer wala reel"** — actual 60-sec wash timed on screen. [Demo]
4. **"Gunguna paani, nahi garam."** — water temperature education. [Education]
5. **"Hard water + galat soap = tight face"** — the Gujarat hard-water angle. [Problem]

6. **"Mard bhi skin: 60 second"** — male creator version (SG Highway dhool, office).
[Segment]
7. **"Acne-prone: face wash kaise choose?"** — gentle vs harsh, what to look for. [Segment]
8. **"Morning vs night: kya alag hai?"** — wash routine split. [Education]
9. **"Free mini ka asli kaam"** — "Founding 100 me free Face Wash mini — kyunki pehla step sabse zaroori hai." [Offer hook]
10. **"Wash ke baad 60 second ka rule"** — damp vs dry face before serum (links to VC).
[Routine bridge]

5 Carousel ideas

1. "Face wash shopping: label pe 4 cheezein dekho (pH, surfactant, fragrance, price logic)."
2. "Oily / Dry / Sensitive / Combo — 4 skin, 4 wash approaches."
3. "60-second method, step by step" (save-bait).
4. "Mard ka 60-second face wash guide" (male segment).
5. "Wash + Serum + Moisturizer: yahi poora morning plan" (routine bundle).

5 Story ideas

1. Quiz: "Garam paani ya gunguna? ☑" → answer + why.
2. Poll: "Aap din me kitni baar face wash karti ho? 1/2/3+" → answer: 2 max.
3. Timer story: "60 second challenge — aaj try karo, kal update bhejo." (UGC bait)
4. UGC repost: male creator's 60-sec clip.
5. "Free mini kya hai? Dekho" + CTA GLOW.

5 Sales posts

1. Standalone launch: "Pehla step, pehla bharosa — ₹249, COD, free shipping on 2+."
(Entry price.)
2. "Founding 100 me FREE Face Wash mini" — explain the mini (size, 7-day trial).
3. "Student/first-skin-care pack: Face Wash + Serum" — lowest bundle.
4. Male-targeted: "60 second. Mard bhi skin. COD." (Run to male interest stack later.)
5. "Acne-prone walo ke liye: gentle wash — kya alag hai" (careful: "gentle, formulated for sensitive skin," no acne-treatment claims).

PRODUCT 3: MOISTURIZER / GEL-CREAM (the routine completer)

Positioning: "Serum ke bina moisturizer adhuri routine hai — aur oily skin ko bhi chahiye."
(Kills the "oily skin needs no moisturizer" myth — huge in Gujarat heat.)

10 Reel ideas

1. **"Oily skin pe moisturizer? Nahi. Haan."** — the myth-killer, skin-barrier science in 40 sec. [Myth]

2. **"Gel vs cream: aapka skin kaunsa?"** — 3-question quiz format. [Education]
3. **"Tightness = dehydration, dryness nahi"** — the most-misunderstood feeling. [Problem]
4. **"AC ka kamra, 8 ghante, tight face"** — indoor dehydration angle. [Problem]
5. **"Serum ke baad 60 second ka wait — kyun?"** — layering order. [Education]
6. **"Monsoon me bhi moisturizer? Haan — gel type"** — seasonal. [Seasonal]
7. **"Texture test: gel cream haath pe"** — absorption ASMR. [Demo]
8. **"Winter me dryness: gel ya cream?"** — season switch education (Rajkot winter hook). [Seasonal]
9. **"Nani ke totke ke baad moisturizer kyun?"** — cultural bridge: "oil nahi, hydration." [Relatable]
10. **"60-sec routine — step 3"** — inside the 3-step (kit logic). [Routine]

5 Carousel ideas

1. "Dehydrated vs dry skin: kaise pata chalega (4 signs each)."
2. "Layering order: wash → serum → moisturizer → SPF (kyun yahi order)."
3. "Gel/cream/cream-gel: 3 types, 3 skin types, 3 seasons."
4. "AC-life walo ki moisture guide" (office women).
5. "Kit: 3 products, 60 second, roz" (bundle sales).

5 Story ideas

1. Poll: "Aapki skin: tight ☒ / oily ☒ / dono (combo) ☒ → "dono = combo, yeh aapka routine."
2. Quiz: "Serum ke baad moisturizer kitne time baad? a) turant b) 30 sec c) 10 min" → b.
3. Texture ASMR story (2 frames) + "try karna ho? GLOW."
4. UGC: Gen-Z "girl math chai vs serum" clip.
5. Countdown + DM CTA (kit offer).

5 Sales posts

1. "Routine complete karo: Serum + Moisturizer = 2/3 steps, ek box me" (bundle).
2. "Oily skin walo: gel moisturizer, ₹X, COD" (segment-specific).
3. "Winter ready: cream version agle mahine — waitlist me jao" (seasonal tease).
4. "3-step kit — sab kuch ek box me, free shipping" (AOV play).
5. "Maa ke liye gifting box: Serum + Moisturizer + card" (Diwali seed).

PRODUCT 4: SUNSCREEN SPF 50 (Month-2 hero)

Positioning: "Gujarat ke mausam ke liye. Tan-look, dark-spots-ka-dikhna, age-look — teeno se related, sabse sasta step." Launch window: Day 45–60 (late Sep–Oct = pre-wedding-season prep + "winter sunscreen bhi chahiye" education).

10 Reel ideas

1. **"Ghar baithe bhi UV — window se bhi aata hai."** (re-run D18 as product hero)
[Problem]
2. **"Cloud ke din bhi 80% UV"** — the weather myth. [Myth]
3. **"SPF 30 vs 50: math dekho"** — comparison education. [Education]
4. **"White cast? Gujarat me yeh sabse badi soch hai"** — no-white-cast formulation angle (show texture on real tan skin). [Desire]
5. **"Subah 6:45 — step 4: SPF"** — inside the routine. [Routine]
6. **"2-3 ghante me reapply — kaise bina make-up kharab kiye"** — practical. [How-to]
7. **"Wedding season: 4 hafte pehle SPF + VC = glow plan"** — seasonal (Oct-Feb Gujarat weddings). [Seasonal]
8. **"Mard + sunscreen: 3 second ka step"** — male segment (SG Highway, outdoor). [Segment]
9. **"Sunscreen expiry: khol ke dekho"** — safety/education (old sunscreen = waste). [Education]
10. **"Monsoon me sunscreen? Bheege chehre pe?"** — monsoon confusion, correct order. [Seasonal]

5 Carousel ideas

1. "SPF shopping: label pe kya padhna hai (SPF, PA++++, broad-spectrum, expiry, quantity)."
2. "UV ka din bhar ka hisaab: subah→shaandh (kya ho raha hai aapki skin ke saath)."
3. "SPF + Vitamin C: yahi subah ka power duo" (cross-sell).
4. "Office + car + ghar: indoor UV ka sach."
5. "Wedding-season glow calendar: 4-6 hafte pehle kya karna hai" (seasonal sales).

5 Story ideas

1. Quiz: "Kitne SPF chahiye? a) 30 b) 50 c) dono theek" → 30+, daily.
2. Poll: "SPF lagati ho: roz ☑ / sirf bahar jaane par ☑" → "sirf bahar jaane par" walo ke liye aaj ki reel.
3. White-cast texture test on camera (hand, real tan skin) + "kya laga? SPF 50 RANGAT."
4. UGC repost: male 3-sec sunscreen clip.
5. Launch countdown + "GLOW" DM CTA.

5 Sales posts

1. **Sunscreen launch: "Gujarat ke mausam ke liye SPF 50 — no white-cast feel, ₹X, COD."**
2. "SPF + Serum kit: subah ka power duo, ek box me" (cross-sell to existing buyers via WhatsApp broadcast).
3. "Wedding glow kit: VC + SPF + Moisturizer — 6 hafte pehle shuru" (seasonal AOV play).
4. "Mard: 3 second ka step, COD" (male stack).

5. "Student SPF: ₹X, COD, hostel me bhi milega" (college segment).

HERO-4 content ratio (per week, during launch)

- Vitamin C Serum: 3-4 product mentions/week (1 as hero)
- Face Wash: 1-2 (inside routines + male segment)
- Moisturizer: 1-2 (kit bundle)
- Sunscreen: 1 (waitlist seed until launch; then it becomes hero for weeks 7-12)

Every product post = same anatomy: hook → who it's for → what it does (safe language)
→ proof/texture → price + offer → COD/return → one CTA.

PART 12**§10 PRODUCT-SPECIFIC CONTENT —
RANGAT NATURALS: SECONDARY 6
(MONTHS 2-4+)**

Launch discipline: these products appear as SEEDS first (teaser + waitlist), then get their wave. Each: 10 Reels, 5 Carousels, 5 Stories, 5 Sales posts.

PRODUCT 5: NIGHT CREAM (Wave 3, Day 75-90)

Positioning: "Raat ko skin ka repair time — subah ka fresh look isse shuru hota hai." Seed: D28 Q&A ("raat ko kya lagana chahiye?").

10 Reel ideas

1. **"Raat ko skin ka repair time — aap ne subah ko hi sab soch liya."**
[Problem/education]
2. **"Serum raat ko nahi? 2 reasons why night is for creams."** [Education]
3. **"Subah ka fresh face — raat ki routine se aata hai."** [Desire]
4. **"Nani ne raat ko ghee/cold cream lagaya — sach? (myth vs modern night care)"**
[Cultural myth]
5. **"Heavy cream vs light night cream: aapka skin kaunsa?"** [Quiz]
6. **"Raat ki 3-step: wash → (VC raat ko bhi ho sakta hai? clear rule) → night cream."**
[Routine]
7. **"Pillow, paani, sone ka time: night cream ka partner."** (lifestyle, light) [Relatable]
8. **"Sardiyo me tight face subah? Raat ki galti."** [Seasonal problem]
9. **"Texture: night cream ki pehli drop"** [ASMR demo]
10. **"Founding 100 wali aahaiyon ne pucha: night cream kab?"** (waitlist payoff)
[Community]

5 Carousels

1. "Raat ki routine: 3 steps, 4 minute (step-by-step)."
2. "Day vs night skincare: kyun alag chahiye (simple science)."
3. "Night cream shopping: kya dekho (texture, fragrance, skin type)."
4. "Winter night repair: Gujarat sardi + AC + dry patches" (seasonal).
5. "Kit upgrade: 3-step + night = poora din" (sales).

5 Stories

1. Poll: "Raat ko lagati ho: kuch nahi ☐ / sirf moisturizer ☐ / night cream ☐.

2. Quiz: "Skin ka repair kab hota hai? a) subah b) raat c) dono" → raat (repair) + subah (protection).
3. Texture story + "waitlist me jao."
4. UGC: "6:45 AM fresh face — iska raat wala hissa dekho."
5. Launch countdown + GLOW DM.

5 Sales posts

1. **Launch: "Raat ka step ab complete — Night Cream, COD, launch price."**
2. "Complete 4-step kit (wash + VC + moisturizer + night) — full routine ek box me" (AOV play for existing buyers).
3. "Winter-ready: night cream + cream moisturizer combo" (seasonal).
4. "Gifting: 'Naye saal, nayi skin' box (Night Cream + Serum)" (Dec/New Year).
5. "Repeat buyers: pehla 4-step upgrade — ₹X off" (retention play for Founding 100).

PRODUCT 6: DAY CREAM (with SPF, Wave 3+)

Positioning: "Din ka sabit (steady) partner — moisturize + protect, ek step." For the time-poor: fewer steps, still correct.

10 Reel ideas

1. **"2 step nahi, 1 step? Day cream ka sach."** [Education — and honest nuance: "serum alag rakhna zyada effective; day cream time-poor ke liye"]
2. **"Office jaane se pehle 60 second: day cream + SPF ya SPF day cream."** [Routine]
3. **"Oily skin + din: lightweight day cream kyun."** [Segment]
4. **"Make-up ke neeche: kya lagana chahiye?"** [How-to]
5. **"Monsoon me day cream: gel vs cream"** [Seasonal]
6. **"Ghar se bahar — reapply ka sach (SPF vs day cream)."** [Education]
7. **"Texture: lightweight vs rich — haath pe test"** [ASMR]
8. **"30 ke baad: din ka protection + hydration"** [Segment, age-look language only]
9. **"Nani ka cold cream vs aaj ka day cream"** [Cultural bridge]
10. **"Complete day: 6:45 se 10:45 tak kya hua aapki skin ke saath"** [Story/education]

5 Carousels

1. "Day cream vs moisturizer + SPF: kab kaunsa? (decision chart)."
2. "Make-up base: 3-layer ka sahi order."
3. "Oily/dry/combo: 3 day-cream choices."
4. "Indoor day vs outdoor day: routine ka farq."
5. "Time-poor kit: 2-step din" (sales).

5 Stories

1. Poll: "Subah kitne steps? 2 ☑ / 4 ☑ / 6+ ☑" → "6+ wale, 2-step version yeh hai."
2. Quiz: "Day cream me SPF ho toh aur sunscreen chahiye? a) nahi b) haan (agar 2 ghante+ bahar)" → b.
3. Texture + "try karo?"
4. UGC: 6:45 routine clip (day cream cut).
5. Launch/offer countdown + GLOW.

5 Sales posts

1. **Launch: "Din ka 1 step: Day Cream (moisturize + SPF), COD."**
2. "Time-poor kit: Day Cream + Face Wash = subah complete, 3 minute."
3. "Office-women: AC + outdoor dono ke liye day kit."
4. "Make-up base routine: Day Cream + SPF (bahar jaane wale)."
5. "Diwali pre-glow kit: Day Cream + VC" (seasonal).

PRODUCT 7: FACE CREAM (rich, for dry skin — Winter wave)

Positioning: "Sardiyon me 'khushk chehra' walo ke liye — deep moisture, bina chiknaip ke." (Gujarat winter: Dec-Feb, dry patches, tightness.)

10 Reel ideas

1. **"Sardiyo me chehra khujli deta hai? Yeh dryness nahi, barrier damage hai."** [Problem]
2. **"Gujarat ki sardi: 15 degree + dry air — skin kya karti hai."** [Local problem]
3. **"Gel wale log bhi sardi me cream kyun karein."** [Segment]
4. **"Hot water + sardi = dry patches ka combo"** [Mistake]
5. **"Rich cream = heavy? Myth — texture dekho."** [Myth/demo]
6. **"Raat + subah: face cream ka dual use"** [Routine]
7. **"Nani ke ghee wale totke ka modern version"** [Cultural]
8. **"Patch test kyun? (dry/irritated skin walo ke liye)"** [Education/safety]
9. **"Texture: 1 drop, 5 second, absorption"** [ASMR]
10. **"Winter skin SOS: 3 din ka plan"** (honest: "2-3 hafte me comfort") [Seasonal]

5 Carousels

1. "Dry skin winge guide: 5 signs + 5 steps (save-bait)."
2. "Gel → cream switch: season ke saath routine kaise badle."
3. "Face cream shopping: kya padhna hai (ingredients to avoid for dry skin)."
4. "Gujarat winter calendar: Nov se Feb, skin ka plan."
5. "Winter kit: Face Cream + Face Wash (gentle)" (sales).

5 Stories

1. Poll: "Sardi me aapki skin: tight ☑ / flaky ☑ / theek ☑."
2. Quiz: "Garam paani se muh dhona: haan ☑ / nahi ☑" → nahi.
3. Texture + "winter me kya chahiye?"
4. UGC: Rajkot dry-winter clip.
5. Launch countdown + GLOW.

5 Sales posts

1. **Winter launch: "Sardiyon ke liye Face Cream — COD, launch price."**
2. "Dry-skin kit: Face Cream + gentle Face Wash."
3. "Gift: 'Sardi ka dhyan' box (Face Cream + Lip Care)" (cross-product, Dec).
4. "Repeat: winter upgrade for gel-users — waitlist."
5. "Nani/maa ke liye: rich cream, simple routine, gifting card." (Gifting — big in Gujarat family culture.)

PRODUCT 8: LIP CARE (Wave: Oct-Dec, wedding + winter)

Positioning: "Chehre ki routine ke baad, lips bhi routine me." (Lip balm / tinted balm / lip oil.)

10 Reel ideas

1. **"Lips khujlate hain, phir chhedti ho, phir aur khujlate hain — loop todo."** [Problem]
2. **"Chai ke baad lips — sabse zyada neglect kiya hua step."** [Relatable, local chai culture]
3. **"Wedding season: lips bhi glow plan me."** [Seasonal]
4. **"Sardi + AC = dry lips ka double hit"** [Seasonal problem]
5. **"Lip balm vs lip oil: kya farq?"** [Education]
6. **"Make-up ke baad lips: overnight repair"** [How-to]
7. **"Texture: 1 swipe, 60 second comfort"** [ASMR]
8. **"Muh se chai peete waqt lip care? (practical: reapply timing)"** [Relatable]
9. **"Lips pe sunscreen? Haan — SPF lip balm kyun."** [Education]
10. **"Gifting: chhota sa gift, bada sa 'dhyan'"** (lip care = easy first gift) [Gifting]

5 Carousels

1. "Lips ka sach: kyun zyada dry hote hain (no oil glands, thin skin)."
2. "Lip care routine: day (balm+SPF) / night (oil/repair)."
3. "Chapped lips 4-hafte plan: kya karna hai, kya nahi (no peeling myths)."
4. "Wedding-day lips: 6 hafte pehle kya."

5. "Gifting box: Lip Care + Serum (small, sweet, ₹X)" (sales).

5 Stories

1. Poll: "Lips chhedti ho? Haan / Nahi ."
2. Quiz: "Lips pe sunscreen chahiye? a) haan b) nahi" → a.
3. Texture + "chai ke saath try."
4. UGC: lip-balm-with-chai clip.
5. Offer/GLOW DM.

5 Sales posts

1. **Launch: "Lips ko bhi routine de do — Lip Care, COD."**
2. "Wedding glow kit me lip add-on: +₹X."
3. "Gift box: Lip Care + Face Wash mini (under ₹500 gift)."
4. "Winter lips: balm + night oil duo."
5. "Repeat: 'chai wala habit' — daily balm, refill offer."

PRODUCT 9: HAIR CARE (Wave: post-monsoon hair-fall season, Oct-Dec)

Positioning: "Baal kaam nahi karte — routine kaam karta hai." (Focus: gentle shampoo / scalp cleanser / hair oil. Claims discipline: no "hair growth guarantee," no "hair fall cure" — use "lighter feel, less breakage-ka-feel, scalp comfort.")

10 Reel ideas

1. **"Baarish ke baad baal — sabse bhaari season. Yeh kyun hota hai."** [Problem, seasonal]
2. **"Baal girti hain = baal gir rahe hain? (shedding vs fall — basic, safe education)"** [Myth/education]
3. **"60 second hair-wash galti: gunguna paani, 2 press, no scrub"** [Mistake]
4. **"Sulfate ka sach: har baal ke liye nahi"** [Education]
5. **"Scalp vs baal: oil kahan, kya, kab"** [How-to]
6. **"Monsoon + AC + dhool: baalon ke 3 dushman"** [Problem]
7. **"Texture: scalp cleanser ka 10 second feel"** [ASMR]
8. **"Mard: hair oil ka 3-second version"** [Segment]
9. **"Wedding season: hair ka 6-hafte plan"** [Seasonal]
10. **"Nani ke tel wale totke + aaj ka science"** [Cultural]

5 Carousels

1. "Hair care 101: scalp = skin, yahi sabse pehle samjho."
2. "Post-monsoon hair plan: 4 hafte, 3 steps."

3. "Shampoo shopping: label pe kya padho (sulfate, fragrance, concentration)."
4. "Oil: kya, kya nahi (myth list: 'oil = hair growth' ✗)."
5. "Wedding hair kit: cleanser + oil (seasonal sales)."

5 Stories

1. Poll: "Baal ka sabse bada pareshani: fall-feel ☑ / oil ☑ / dry ☑."
2. Quiz: "Baal kitni baar wash? a) roz b) 2-3x/week c) 1x/week" → skin/oil type se (no single answer — nuance = trust).
3. Texture + "try."
4. UGC: post-monsoon hair clip.
5. Launch/offer + GLOW.

5 Sales posts

1. **Launch: "Post-monsoon hair care — gentle cleanser + scalp oil, COD."**
2. "Hair duo: cleanser + oil (full routine)."
3. "Wedding hair kit (6 hafte pehle shuru)."
4. "Mard: 3-second oil + weekly cleanser."
5. "Gifting: 'dhyan' box (Lip Care + Hair Oil — small gifting wave)."

PRODUCT 10: BODY CARE (Wave: winter, Nov-Jan; gifting strong)

Positioning: "Chehre ke baad, sharir ka bhi 2 minute." (Body lotion / body wash. Claims: "soft-ka-feel," "hydrated-ka-feel," no skin-disease claims.)

10 Reel ideas

1. **"Sardi me sharir khujlaata hai? Yeh dryness hai, allergy nahi (safe: 'dhyaan do')."**
[Problem — careful language]
2. **"Chehre ki routine 6:45 — body ka 9:55 (bathroom me 2 minute)"** [Routine]
3. **"Garam paani + strong soap + sardi = body ka triple hit"** [Mistake]
4. **"Body lotion subah ya raat? Dono, yeh tarah se"** [Education]
5. **"Texture: 1 pump, 20 second, absorption"** [ASMR]
6. **"Wedding season: shoulders + arms ka 6-hafte plan"** [Seasonal]
7. **"Mard: body care = 2 minute, 1 product"** [Segment]
8. **"Nani ke sarson ke tel wale totke + modern body lotion"** [Cultural]
9. **"Sardiyo me night: lotion + cotton kapde = comfort rule"** [Seasonal]
10. **"Gifting: body care = sabse safe gift"** [Gifting]

5 Carousels

1. "Body care basics: wash → 30 sec damp → lotion (order matters)."

2. "Winter body plan: 4 hafte, 2 steps."
3. "Body wash shopping: kya padho (pH, fragrance, sulfate)."
4. "Wedding body glow: 6 hafte, shoulders-to-toe."
5. "Gifting boxes: 3 sizes (₹X tiers)" (sales).

5 Stories

1. Poll: "Body lotion lagati ho? Roz ☒ / Kabhi-kabhi ☒ / Nahi ☒.
2. Quiz: "Lotion kab lagana best? a) sookh ke b) thoda damp c) bheege" → b.
3. Texture + "try."
4. UGC: winter-body clip.
5. Gift-box countdown + GLOW.

5 Sales posts

1. **Winter launch: "Body Care — COD, launch price."**
2. "Body duo: wash + lotion (full routine)."
3. "Gifting: Diwali 'dhyam' box (Body + Lip + Serum mini) — 3 price tiers." (Diwali = peak gifting in Gujarat.)
4. "Wedding body kit (6 hafte)."
5. "Family pack: 2 bottles, 1 price (Gujarati household — family purchase is real and big)."

Cross-product rule (all 10 products)

1. **Every product launch = same 3-week mini-arc:** (Wk 1) problem/education seed → (Wk 2) product demo + how-to + waitlist → (Wk 3) launch offer + proof + close. Reuse the Founding-100 playbook, scale it.
2. **Cross-sell via WhatsApp broadcast** to existing buyers before public launch (they're the warmest audience — 10% of new product orders should come from the existing list in week 1).
3. **One hero at a time** — the secondary-6 never compete with the current hero for ad budget.
4. **Claims discipline per category:** face = safe brightening/hydration language; hair = "feel/comfort/lighter," never "growth guarantee"; body = "soft/hydrated feel," never medical; lips = "comfort/softness," never "heals."

PART 13

§11 GUJARAT-FIRST STRATEGY — RANGAT NATURALS

Thesis: Gujarat is not a "starting limitation" — it's a **strategic wedge**. A brand that owns one state (word of mouth, creators, local events, local weather content) earns trust faster than a brand trying to be "pan-India" from day one. Then India opens *because of* the Gujarat proof, not despite it.

Positioning line: "Gujarat ma pehle, India ma baad me — aur dono jagah aamee skin, aamno liye."

(Use "Gujarat first" as a proud claim in content — "Hum Gujarat se shuru kar rahe hain, kyunki yahan ki skin, yahan ka mausam, yahan ki samajh.")

1. Language strategy (per-post matrix)

Format	Gujarati	Hinglish	English	When
Founder reels	40%	50%	10%	Founder speaks in warm Gujarati-Hindi mix — authentic, not translated
Problem/relatable reels	60%	40%	0%	Max shareability — local humor
Product/education reels	20%	70%	10%	Clear Hinglish; key terms on-screen in English (search)
UGC creators	creator's native mix			Gujarati creators → Gujarati-first; Hindi creators → Hinglish
Sales/offer posts	30%	60%	10%	Offer clarity in Hinglish, warmth in Gujarati
Captions/keywords	—	70%	30%	Captions carry the SEO keywords (English/Hindi search terms)

The 3 signature lines (rotate):

- "Aamee skin, aamno liye." (Gujarati)
- "Asli skin, asli result." (Hinglish)
- "Skincare that understands Indian skin." (English — for the India-next phase)

Gujarati flavor rules (natural, not forced):

- Use Gujarati for *warmth* (relationships, home, chai, nani, maa) and Hinglish for *product facts*.
- Never make English the default voice — it signals "imported brand" to the first market.
- Local references that land: chai + thepla mornings, 40-degree summers, monsoon humidity, SG Highway, "dhool," shaadi season, Diwali gifting, college life in Amdavad, "vasadi" chats, ladi-vasem-style gifting boxes (use "gift box" framing), value psychology

("dhamaka daam" energy without cheapening the brand).

- **Do NOT** use Gujarati as a punchline or stereotype; the founders/creators use it because it's their language.

2. City-by-city content & distribution

Ahmedabad (Home base — 60% of launch energy)

- **Content angles:** SG Highway dhool + office AC combo; old city vs new city skin stories; 40° summers + AC winters; Maninagar/Satellite/SG Highway geotags on posts; "Amdavad wale" callouts; local college life (MS/SD, NIZRD area).
- **On-ground:** Founder physically in Ahmedabad — film in real locations (local café, market, park) for BTS reels. 3-4 local events/micro-launches (see §creators).
- **Ads:** Launch geo = Ahmedabad + 40km. Retargeting same.
- **Local hashtags (rotate 2-3 per post):** #Ahmedabad #Amdavad #AhmedabadFood (adjacent reach) #Gujarat

Surat (Wave 2 — young, fast, aspirational)

- **Angles:** "Diamond city hustle" (9-to-9 + glow); Surat is young (big 18-28 population) → student budget content lands hard; diamond-polishing dust/pollution angle (careful, respectful framing: "sheher ka dhool"); fast-city life, less time → "2-minute routine" content.
- **Creators:** 2-3 Surat micro-creators (fashion/food/lifestyle, 10k-50k).
- **Ads:** Add Surat to prospecting in Week 4-6 (after Ahmedabad CPA is known).

Vadodara (Wave 2 — culture, colleges)

- **Angles:** Cultural festival + wedding-glow season; college hubs; "Vadu" humor (light); art/culture lifestyle = aesthetic content plays well.
- **Creators:** 1-2 college/culture creators.
- **Ads:** Add in Week 6-8.

Rajkot (Wave 3 — value + family)

- **Angles:** Dry winters (face cream wave), value-for-money psychology, family purchasing (gifts for maa/nani), "Rajkot walo" direct callouts.
- **Creators:** 1-2 family/lifestyle creators.
- **Ads:** Week 8+, with Face Cream + gifting content.

Expansion rule (India-next, Day 90+): Keep 40-50% of content Gujarat-anchored (it's the identity), shift 30% to "all-India" problems (monsoon, office, college, wedding season), 20% to new-city creator content (Delhi NCR, Mumbai, Pune, Bangalore, Hyderabad, Jaipur, Indore). **Never drop Gujarat — it stays the brand's home, like the "Pune" of Indian D2C.**

3. Local weather & skincare-problem content calendar (annual)

Period (Gujarat)	Skin reality	Product focus	Content theme
Mar-Jun	40°+, max UV, outdoor tan-look	Sunscreen (hero), Face Wash, Gel Moisturizer	"Garmi ka plan," SPF education, "tan-look" reels
Jul-Sep	Monsoon humidity: oily, sweat, dullness, breakout-prone feel	Vitamin C (hero), Face Wash, SPF (monsoon confusion)	"Monsoon dullness," "baarish me sunscreen?" — THIS IS YOUR LAUNCH WINDOW
Oct-Dec	Cooling + dry start; wedding season PEAK; Diwali gifting	Sunscreen (wedding glow), Lip Care, gifting boxes, Night Cream	"Wedding glow 6 hafte pehle," Diwali gift boxes
Jan-Feb	Dry, cold nights, tight skin, khujli-feel	Face Cream (hero), Body Care, Night Cream, Lip Care	"Sardiyon ka plan," dry-skin SOS, New Year "nayi skin"

Seasonal hook bank (Gujarat-specific):

- "40° me 10 minute bahar — aapki skin ne kya face kiya, dekho."
- "Baarish ke din bhi UV aata hai — monsoon sunscreen confusion khatam."
- "Shaadi season: 6 hafte pehle glow plan, aaj se."
- "Diwali pe 'dhyani' wala gift — box dekho."
- "Sardiyon me subah uthne par tight face? Aaj se nahi."
- "Rajkot ki sardi + Ahmedabad ki dhool — dono ka jawab alag hai."

4. Local creator strategy (Gujarat)

Who to find (5k-50k followers = the sweet spot for a new brand)

- **Categories (in order of fit):** food/lifestyle Gujarati creators → college/influencer (Ahmedabad/Surat) → beauty/skincare local → fashion (wedding season) → male lifestyle (for Face Wash wave).
- **How to find (2 hours, weekly):** Instagram search "#Amdavad #Ahmedabad #Gujaratfood #Gujaraticreator #Amdavadi" + explore-page following from 5 known local accounts + YouTube search "Ahmedabad vlog" + local wedding vendors' tagged photos.
- **Vetting (15 min each):** last 20 posts (engagement = likes+comments vs followers; target >4%), comment quality (real people commenting in Gujarati = real local audience), no brand-damage flags, audience location check (commenters' handles/language).

The outreach template (DM/email — personalize the first line with their actual post)

"Hi [Name]! [Specific post reference — e.g., 'aapka aajak ka reel dekha, Amdavad ka vibe perfect tha']. Main [Name], RANGAT NATURALS ki founder — Gujarat ka ek naya skincare brand. Humne [city] me 20 testers ke saath 4-hafte ka program chala hai. Aapko hamara Vitamin C Serum bhejna chahte hain — bilkul free, koi script nahi. Aapki honest baat (achhi bhi, kami bhi) — aur agar pasand aaye toh ek chhota sa compensation + affiliate code. Kya aap try karne ke liye sochenge? — [Name], RANGAT NATURALS"

Terms (standard, in writing)

- Product free (₹0 cost to creator) + flat fee by tier: 5-10k → ₹500; 10-25k → ₹1,000; 25-50k → ₹1,500-2,000.
- Deliverable: 1 Reel (15-45s, UGC structure from [08-before-after-and-ugc.md](#)) + permission to use as Meta ad (₹100 per ad-use, stated).
- **4 hard rules in the brief:** no medical claims, no "cure/remove/permanent," "results may vary" on any B/A, no fake urgency/discounts.
- Consent message template (save with the video): *"Main RANGAT ke liye [product] use kar raha/hoon [dates], apni asli experience ke saath. Video ko IG + Meta ads me use kar sakte ho. — [Name, city, date]"*
- **Cadence:** Week 3: 1 collab (UGC #19). Week 4-8: 5 more (1/week). Day 90: 10-15 total. Each creator = 1 post + 1 ad cut + 3 quote cards.

Local on-ground (Ahmedabad, low-budget trust builders)

1. **Micro "launch day" meetup (Day 21):** 20 tester + creator + local press/blog — 1.5 hrs, chai, product demo, 10 min founder talk. Cost: venue (a local café, often free for 20 people) + chai + boxes. Output: 30+ UGC photos, 5+ reels, 2 blog mentions.
2. **College "skin 101" 20-min sessions (2/month, months 2-3):** not a sale — a free 20-min talk (routine basics) at 2 colleges; RANGAT as the "local brand that made this." Permission from student councils; leave 10 sample minis (cost-controlled).
3. **Local beauty page collabs:** 2-3 Ahmedabad lifestyle/beauty Instagram pages — pay ₹1,000-3,000 for 1 post + 3 stories (cheaper and more local than any "national" micro-influencer).

5. "Gujarat first" without capping the brand

1. **Bio & pinned:** say "Gujarat se shuru, India ke liye bana" — the origin is a badge, not a limit.
2. **Content ratio:** Month 1: 70% Gujarat / 30% all-India. Month 2: 50/50. Month 3: 40/60 (Gujarat stays the home base forever).
3. **Creator map:** 60% Gujarat / 40% other cities from Day 60.
4. **Ads:** Geo starts Ahmedabad → +Surat/Vadodara (Wk 4) → +Rajkot (Wk 8) → top-6 India cities (Day 90+), always with "Indian skin" creative (never "Gujarat only" creative nationally).

5. **Language:** Keep Gujarati in the brand's voice (signature lines, founder reels) even in national phase — it's a differentiator, not a barrier.
6. **The proof story travels:** "Gujarat me 20 testers, 100 pehli customers — ab India ke saath" is a *stronger* national launch story than a brand that never had a home.

PART 14

§12 INSTAGRAM STORIES (30-DAY) + §13 PROFILE BUILD — RANGAT NATURALS

PART A: THE DAILY STORY SYSTEM

Why Stories are the #1 conversion surface

Reels bring strangers; **Stories convert the 10-30% who follow** (your actual buyers) because Stories are where a small account feels like a relationship. For a zero brand, Stories = your DM warm-up machine.

The 3-slot daily formula (15 min/day, batchable)

Slot	Time	Job	Format
Morning (7:00-9:00 AM)	"Roz ka 1 sach"	Value + habit	1 educational tip OR routine shot (1-2 frames) + 1 question box/poll
Afternoon (12:30-2:30 PM)	"Peeche ki kahani"	Trust/behind-the-scenes	1 BTS frame (packing, testing, founder, lab visit, a mistake) + 1 poll or quiz
Evening (7:30-9:00 PM)	"Aaj ka CTA"	Conversion	1 product/offer/review frame + DM CTA ("GLOW likho") or link sticker (WhatsApp)

Story rules:

- 3-5 frames max per slot. Frame 1 = hook (text or face). Frame 2-4 = value. Last frame = engagement (poll/question) OR CTA.
- **Always end the evening slot with a DM CTA or link sticker** — this is the silent order engine (many buyers DM from Stories, not Reels).
- Reply to EVERY poll/question answer within 2 hours (DM conversation = pipeline).
- Story highlights updated weekly (see Part B).
- **WhatsApp Status = same 3 slots, same day** (zero extra work; Gujarat buyers are heavy WhatsApp-Status users).

Story asset types (use in rotation)

Polls · Question boxes · Quizzes (with answer reveal next story) · This-or-that (product A/B) · Countdown (launch/offer) · BTS (packing, lab, founder fail) · UGC repost · Review quote card · "Ask us anything" box · "Day X of 30" progress · Flashback ("1 mahine pehle hum yahan the")

THE 30-DAY STORY CALENDAR (M = Morning · A = Afternoon · E = Evening)

Day 1 · M: "Aaj se yahan roz 1 skin-sach milega. Aapka skin type kya hai? (poll: oily/dry/combo/confused)" · A: Founder photo + "hum kaun hain — 15 second me" (video) · E: "30 din ka safar shuru. Follow on karo + GLOW likho DM me (list me aana ho)."

Day 2 · M: Tip: "Subah uthke pehli cheez: gunguna paani, nahi thanda. Kyun? (answer next frame)" · A: BTS: content shoot ka 10-sec clip · E: Question box: "Aapka #1 skin pareshani? (best 3 kal answer honge)"

Day 3 · M: Quiz: "UV window se aata hai? a) haan b) nahi" → reveal: haan · A: BTS: label ka 2nd version, "kyun badla?" · E: "Aapne puche 3 sawaal — video link (Reel). Aur aapka sawaal? DM."

Day 4 · M: Tip: "Herbal = safe? Nahi. Kal detail." · A: BTS: formula sheet (blurred) + "3 mahine ka kaam" · E: Poll: "Brand ka naam ya ingredient list — pehle kya dekhti ho?"

Day 5 · M: "Chai break + 2 minute = aapka routine ka time. Kab? (poll: subah/raat/dono)" · A: BTS: maa wala skit ka behind-scene (fun) · E: "Yeh hafta ka best reel — kaun sa? (this-or-that: D2 vs D5)"

Day 6 · M: Tip: "28 din = skin ka 1 cycle. Isliye 4 hafte wait karo." · A: BTS: 20 testers ki whiteboard (names) · E: "Kya product aayega? Guess karo — serum? cream? (poll: VC/SPF/cream)"

Day 7 · M: "Sunday = aapke sawaal ka din" · A: Q&A reel clip (15 sec) · E: Question box: "Kuch bhi puchho — skin, hum, product."

Day 8 · M: **PRODUCT INTRO DAY**: serum texture close-up + "Mila karo" · A: Poll: "Serum kab lagati ho? Subah ☑ / Raat ☑" → answer · E: "Launch aane wala. GLOW DM = pehli list. (link sticker: WhatsApp)"

Day 9 · M: "5-step how-to — Reel me hai (link). Sabse badi galti: kaunsi? (quiz)" · A: BTS: tester day-7 photo (same light, card in frame) · E: "GLOW wali list me X log aaye. Kya sochti ho? (question box)"

Day 10 · M: Carousel clip: "VC ka 60-sec science (link)" · A: Quiz: "10% kyun? a) zyada sasta b) benefit-irritation balance c) fashion" → b · E: "Aaj raat 9:30 — 1 surprise story. Notifications ON." (tease)

Day 11 · M: Tip: "Window se UV. Ghar baithe bhi SPF." · A: BTS: packing table setup (early) · E: "Ghar baithe bhi UV — Reel dekha? (link). SPF abhi bhi 'bahar jaane par'? (poll)"

Day 12 · M: **Tester day-14**: photo + "kya socha?" (her words, quote) · A: Poll: "Honest review me 'kami' bhi honi chahiye? a) haan b) nahi" → haan (brand stance) · E: "Day 28 wala update Sunday. Follow ON."

Day 13 · M: "Reject: formula 1. (BTS photo)" · A: BTS: 3 packaging samples, "kyun badla" · E: "Pehli baar naye brand se lete ho? Yeh 2 sawaal puchho (mini-list story)."

Day 14 · M: "2000 vs 500 — math (Reel link)" · A: Countdown sticker: "Launch in 5 din" · E: "GLOW DM = launch list. (link: WhatsApp)"

Day 15 · M: "3 galiyan (Reel link). Aapne kitni pakdi? (poll: 1/2/3)" · A: BTS: shoot day clip · E: "Kal: texture reel. Kya dekhna chahiye? (question box)"

Day 16 · M: Texture story: 3 frames (drop/spread/absorb) + "kaunsa lagta hai? (poll: halka/chikna)" · A: Quiz: "10% ya 20%? (a) 20% zyada fayda b) 10% sweet spot c) barabar" → b · E: "GLOW DM — launch kal se."

Day 17 · M: DAY-28 DROP: "4 hafte. 20 aahaiyan. Same light." (reel link) · A: Tester 1 day-1 vs day-28 (card in frame) + disclaimer text · E: "Aap bhi 4 hafte baad yahan ho sakti ho. GLOW DM. (link)"

Day 18 · M: Tip: "SPF 30+ roz. 2-3 ghante me reapply (bahar)." · A: BTS: sunscreen R&D notes (blurred) + "next product" tease · E: "Sunscreen kaunsa pasand? (this-or-that: white matte/transparent)"

Day 19 · M: Creator collab day: collab clip + "aaj 1 aur face" · A: Poll: "Creator se review ya brand se — kya zyada bharosa? (answer: dono, isliye collab)" · E: "Aapki city me koi creator hai jo try kare? (question box)"

Day 20 · M: "Kal se live. 100 boxes. Aaj packing." (BTS video) · A: Countdown: "LAUNCH — kal" · E: "Box me kya hai? 3 clues (3 frames). Guess karo."

Day 21 · M: LAUNCH: full offer story (4 frames: offer/list/COD/CTA) + link sticker · A: "Pehla order aaya! [City]" (real, as it happens) · E: "GLOW DM = order. 15 min me reply. (link: WhatsApp)"

Day 22 · M: "4 darr, 4 jawaab (Reel link)" · A: Poll: "Naye brand se pehla order — kya sabse bada dar? (options)" · E: "COD kya hai, kaise kaam karta hai (3-frame explainer) + link."

Day 23 · M: "60-sec routine (Reel link). Aaj try karo, kal update bhejo." · A: Timer challenge sticker · E: "Kit order = sab ek box me. GLOW DM. (link)"

Day 24 · M: Unboxing repost: customer #1 parcel clip · A: "Parcel [city] se aaya" (map screenshot, blurred address) · E: "Aapka bhi parcel aayega. GLOW DM."

Day 25 · M: "VC se orange? Myth (Reel link)" · A: Quiz: "3-4 drops ya jitna mile? (a) jitna b) 3-4" → b · E: "Kya aur myth todna chahiye? (question box)"

Day 26 · M: Review clip: "4 baar delete karke order kiya" (customer story) · A: Quote card: best line from the review · E: "Aapka bhi story ho sakta hai. GLOW DM. (link)"

Day 27 · M: "Box me kya hai (carousel link)" · A: "X/100 seat bachi" (real count, 1 frame) · E: Countdown: "Batch 1: X seat left" + GLOW link.

Day 28 · M: "Raat ko kya lagana chahiye? (Q&A reel link)" · A: Quiz: "Repair kab hota hai? Subah ☑ / Raat ☑" → raat · E: "Night cream agle mahine. Waitlist? (link sticker: list)"

Day 29 · M: "Week 1: X orders. Dhanyawad." (celebration frame) · A: **Referral launch:** "Do ₹100, lo ₹100" (3 frames: how/code/share) · E: "Apna code lo (link) + 1 dost ko bhejo aaj."

Day 30 · M: "30 din. Pehle X orders. Pehli 100 stories shuru." (flashback: Day 1 photo vs today) · A: "Next month: SUNSCREEN * (tease frame)" · E: "GLOW DM — X seat bachi. Ya waitlist. (link: WhatsApp)"

Weekly story KPIs (check every Sunday): story reply rate, DMs started via stories (target: 30-50/week), link sticker taps, poll participation. If story DMs < 20/week → CTA frames too soft; strengthen.

PART B: THE INSTAGRAM PROFILE (built Day 0, updated weekly)

Name field (this is a search field — put keywords in it)

`RANGAT Naturals | Indian Skincare`

(Alternative once sunscreen launches: RANGAT Naturals | Serum & SPF India)

Why: Instagram search matches the name field first. "Indian Skincare" + brand = discoverable. Never put promo text here.

Bio (4 lines — each does a job)

Indian skincare — Aamee skin, aamno liye
Vitamin C 10% · Face Wash · SPF — 4–6 hafte ka honest timeline
COD · Free shipping (launch) · WhatsApp par support
↓ DM "GLOW" ya WhatsApp par order karo

Keyword load in bio: Indian skincare, Vitamin C, Face Wash, SPF, COD, WhatsApp — all real search/decision words.

Bio link

Linktree/Stan Store with 3 max items: ① **WhatsApp order (click-to-chat)** ② **Website (if live)** ③ **Waitlist/offer page**. Never 8 links — 3, ordered by conversion.

Avatar

Founder's face (warm, real, no heavy filters) — a face converts a zero brand better than a logo. (Logo goes on the product/pinned posts; avatar = the human.)

6 Highlights (cover style: cream background, terracotta icon, one word each)

Highlight	Contents	Update cadence
RESULTS	Day-1→28 tester photos (disclosed), review clips, "1 mahine ki journey"	Every new result
HOW TO USE	5-step VC how-to, 60-sec routine, layering order	Permanent + 1/season
REVIEW	Customer videos, quote cards, unboxings	Weekly
FOUNDER	Who we are, why Gujarat first, 20-tester story, factory visit	1/month
INSIDE	Ingredients explained, batch card, "hum manufacturer nahi hain" explainer, packaging	1/month
OFFER	Current offer (Founding 100 → then current), COD explainer, referral	Every offer change

3 Pinned posts (top of grid — the "3-second test" pass)

1. **Pin 1 — Hero product + offer:** "Mila karo: Vitamin C 10% + Founding 100" (Day 8/21 reel). *What to buy + how.*
2. **Pin 2 — Proof:** Day-28 before/after reel (Day 17) with disclosure. *Why trust us.*
3. **Pin 3 — Founder/identity:** "Gujarat se shuru, India ke liye" founder reel (Day 1 or 13). *Who we are.*

Re-pin review: every 2 weeks. Pin 2 rotates with newer proof; Pins 1/3 stable for 90 days.

Profile positioning checklist (3-second test)

- ☐ Bio line 1 says "Indian skincare" (category + origin) ✓
- ☐ Bio line 2 lists what we sell + honest timeline (no miracle) ✓
- ☐ Bio line 3 kills the risk (COD + support) ✓
- ☐ Bio line 4 = one action (DM GLOW / WhatsApp) ✓
- ☐ Avatar = founder's face ✓
- ☐ 3 pins = buy / trust / who ✓
- ☐ Highlights = RESULTS first (the trust hook) ✓
- ☐ Name field has "Indian Skincare" ✓

Follow-back & reply SLAs (profile as a place people can talk)

- Reply all comments within 2 hours (launch week: 15 min).
- Reply all DMs within 15 min (7 AM-11 PM window; auto-reply outside: "Hum 7:00 AM se reply karte hain — GLOW likhiye, pehle number aapka hoga.")
- Auto-reply (WhatsApp + IG): "Namaste! RANGAT NATURALS yahan. 'GLOW' likhiye product + price ke liye. COD hai. Koi sawaal? Hum insaan hain, bot nahi."
- The "insaan, bot nahi" line is a brand line — keep it.

PART 15

§14 SOCIAL SEO + §15 HASHTAG FRAMEWORK — RANGAT NATURALS

Why social SEO is a *sales* channel, not a nice-to-have

Instagram search and YouTube search are where "vitamin c serum price in india" and "skincare routine for oily skin" get answered **daily**. For a zero-budget brand, search content is the only reach that compounds for months (a Reel dies in 48 hours; a search-optimized Short lives). SEO is also how Meta Ads finds you: your on-page keywords improve relevance scoring for ad delivery.

The 5 places keywords live (in ranking order):

1. **Name field** (IG) — highest weight, 30 chars
 2. **On-screen text / hook text** (IG reads Reel text; YT reads title)
 3. **Caption first line** (first ~80 chars = search snippet)
 4. **Hashtags** (topic clustering — framework below)
 5. **YouTube title + description** (the big long-tail winner)
-

PART A: THE KEYWORD BANK (organized by search intent)

1. Product keywords (buy-intent — highest value, use in hero content)

- vitamin c serum india / vitamin c serum price in india / best vitamin c serum india
- vitamin c serum for oily skin / vitamin c serum for dark spots (search language — keep claim safe in copy)
- face wash for oily skin india / best face wash for men india / face wash for sensitive skin
- moisturizer for oily skin india / best moisturizer for dry skin india / gel moisturizer india
- sunscreen for oily skin india / best sunscreen india / sunscreen spf 50 india / no white cast sunscreen
- night cream for glow / night cream india / face cream for dry skin india
- lip balm india / lip oil india / body lotion india / hair oil for hair fall (careful claims)

2. Problem keywords (high volume, top-funnel)

- skincare for oily skin / skincare for dry skin / skincare for combination skin
- tan removal skincare india (search phrase — copy stays "reduces the look of tan"... wait — safe: "tan-look fresh dikhane ke tips")
- dark spots on face how to remove (safe: "dark spots ka dikhna kam karne ke tips")
- dull skin remedy / dull skin routine / glowing skin routine india

- acne prone skin care routine india (safe: "acne-prone skin ke liye gentle routine")
- monsoon skincare tips / summer skincare routine india / winter dry skin routine
- hard water face problem / water spots on face (Gujarat angle)

3. Education keywords (save-intent — build the "smart brand" moat)

- vitamin c serum kaise use kare / vitamin c serum benefits in hindi
- vitamin c morning or night / vitamin c and sunscreen together or not
- sunscreen kaise lagaye / sunscreen reapply kaise kare
- face wash kitni baar use kare din me / morning skincare routine steps
- layering order skincare / serum moisturizer order
- patch test kya hai / patch test kaise kare
- spf 30 vs spf 50 / pa rating kya hai / broad spectrum kya hai
- skin barrier kya hai / over exfoliation kya hai
- natural skincare for indian skin / ayurvedic vs chemical skincare

4. Long-tail (low competition, high conversion — YouTube Shorts gold)

- best vitamin c serum under 500 in india
- vitamin c serum for 20 year old girl
- sunscreen for students india cheap
- face wash for college students india
- skincare routine for beginners hindi / gujarati
- monsoon skincare routine for oily skin india
- wedding glow skincare 1 month before
- diwali gift for girlfriend skincare box
- naye brand se skincare order kaise kare safe (trust long-tail)
- cash on delivery skincare brands india
- vitamin c serum kya karta hai hindi me
- gujarat me best sunscreen for summer
- ahmedabad skincare brand (local-SEO — owns the map early)

5. Gujarati/Hindi search phrases (underserved competition)

- "chamak ke liye kya lagaye" / "chehre par chamak ke tips"
- "skin ke liye sabse achha kya hai" / "tan hatane ke tips" (copy: tan-look tips)
- "khushk chehre ke liye kya lagaye" / "taazi skin ke tips"
- "Vitamin C serum ka use kaise kare" (spoken search — many type in Hindi script too)
- "gujarati skincare tips" / "amdaad (Amdavad) skincare" (local)

6. Where each type goes

Keyword type	IG caption line 1	On-screen hook text	YT Short title	Reel topic
Product	✓ (hero posts)	✓	✓	Product reels
Problem	✓	✓ (hook = problem)	✓	Problem reels
Education	✓	✓	✓	Education reels
Long-tail	sometimes	rarely	✓ (primary)	Shorts only
Local	✓ (Gujarat posts)	✓	✓	Gujarat-first reels

YT Shorts title formula: [Long-tail question] – [promise] (RANGAT) e.g., "Vitamin C serum kaise use kare? — 5 steps, 40 second (RANGAT Naturals)" · Description: 2 lines + 5 keywords + link. (Upload cadence: top 3 Reels/week, Fridays.)

PART B: INSTAGRAM SEARCH OPTIMIZATION — THE 12-POINT CHECKLIST

1. **Name field** = "RANGAT Naturals | Indian Skincare" (category keyword inside the name).
2. **Bio line 1** contains the category phrase users type: "Indian skincare."
3. **Every Reel's on-screen hook text** contains the target keyword or its Hinglish form (IG OCRs on-screen text).
4. **Caption line 1** (before the fold) = the search phrase in natural language ("Vitamin C serum kaise use kare — 5 steps").
5. **One dedicated "keyword Reel" per product per month** whose entire job is a search query (title = the query).
6. **Location tags:** Ahmedabad / Gujarat on every Gujarat-anchored post (local search + local feed boost).
7. **Alt text:** write it manually per image/carousel (most brands skip it — it's free). Format: "[Product] being used on real skin, RANGAT NATURALS Indian skincare."
8. **Hashtags: 8-15 per post** from the framework below (never 30 random, never the same 30 every time).
9. **Series naming:** recurring series with searchable names ("Skin 101 #7", "4-Hafte Program") create a searchable brand of content.
10. **Replies are indexed:** comment conversation around the keyword ("oily skin wale...") adds on-page keyword density — seed 2-3 genuine-looking *real* comment prompts.
11. **Consistency window:** post at 7:30–9 PM; the first 60 minutes of engagement decide distribution — founder replies to every comment in that window.
12. **Monthly keyword audit (30 min):** Meta/IG insights → "searches that led to profile" → list top 10 → next month's content is 30% built from that list. (After Day 30 you'll have data; before that, use the bank above.)

§15 HASHTAG FRAMEWORK

The principle

Hashtags are **topic clustering + search discovery**, not reach incantations. 30 random hashtags = spam signal + zero relevance. The system: **8-15 tags per post, drawn from 5 sets, rotated weekly so the account never looks identical.**

The 5 sets

SET 1 — BRAND (always, 1-2 tags)

- **#RangatNaturals** (primary — build the searchable brand shelf)
- **#AameeSkinAamnoLiye** (signature line tag — Gujarat posts)
- **#RangatGlow** (offer/launch tag)

SET 2 — PRODUCT (2-3 per post, match the product in the post)

- Vitamin C: **#VitaminCSerum #VitaminCIndia #SkinGlow**
- Face Wash: **#FaceWash #FaceWashIndia #CleanSkin**
- Moisturizer: **#Moisturizer #GelMoisturizer #SkincareRoutine**
- Sunscreen: **#Sunscreen #SPF50 #SunscreenIndia #NoWhiteCast**
- (add 2-3 per future product at launch)

SET 3 — PROBLEM (2-4 per post, match the problem in the post)

#OilySkin #DrySkin #DullSkin #TannedSkin #Pigmentation #AcneProneSkin #CombinationSkin #MonsoonSkincare #SummerSkincare #WinterSkincare #IndianSkin #SkincareForOilySkin #SkincareForDrySkin

SET 4 — LOCATION (1-3 per post; always for Gujarat-anchored content)

#Ahmedabad #Amdavad #Gujarat · Wave 2: **#Surat #Vadodara** · Wave 3: **#Rajkot** · National phase: **#Mumbai #DelhiNCR #Bengaluru** etc. (only when the content targets that city)

SET 5 — NICHE/COMMUNITY (2-3 per post)

#SkincareIndia #IndianSkincare #DesiSkincare #SkincareRoutine #SkincareTips #SkincareEducation #SkincareCommunity #D2CIndia #SupportLocalBrands #MadeInIndia

Rotation rules

- Every post: **1-2 brand + 2-3 product + 2-4 problem + 1-3 location + 2-3 niche = 8-15 tags.**
- **Never** the exact same tag block twice in a row (rotate within sets).
- **Never** buy/irrelevant tags (**#love, #instagood, #follow4follow** — they poison relevance).
- Product-launch posts get the full brand set (**#RangatNaturals #RangatGlow #AameeSkinAamnoLiye**).
- Track weekly (30 min, Sunday): impressions from hashtags vs feed vs search → shift set weights (most Indian skincare reach currently comes from search+feed, so keep

niche/product sets strong).

12 READY-MADE SETS (copy-paste, one per post type)

1. **Problem reel (oily/monsoon):** #RangatNaturals #OilySkin #MonsoonSkincare #IndianSkin #SkincareTips #Gujarat #Ahmedabad #SkincareIndia #SkincareForOilySkin
2. **Vitamin C education:** #RangatNaturals #VitaminCSerum #VitaminCIndia #SkincareEducation #DullSkin #SkincareTips #IndianSkincare #SkincareRoutine
3. **Hero product/offer:** #RangatNaturals #RangatGlow #VitaminCSerum #SkinGlow #SkincareIndia #D2CIndia #MadeInIndia #SupportLocalBrands
4. **Before/after (disclosed):** #RangatNaturals #RealResults #SkincareJourney #DullSkin #VitaminCSerum #SkincareIndia #SkincareRoutine (no #BeforeAfter spam tags — stay clean)
5. **Founder story:** #RangatNaturals #FounderStory #D2CIndia #SupportLocalBrands #Gujarat #Ahmedabad #IndianSkincare #MadeInIndia
6. **Sunscreen (wave 2):** #RangatNaturals #Sunscreen #SPF50 #SunscreenIndia #NoWhiteCast #SummerSkincare #SkincareTips #Ahmedabad
7. **Face Wash / male:** #RangatNaturals #FaceWash #FaceWashIndia #MensGrooming #OilySkin #SkincareTips #IndianSkincare
8. **Gujarat relatable:** #RangatNaturals #AameeSkinAamnoLiye #Gujarat #Amdavad #DesiSkincare #Gujarati #IndianSkincare #SkincareIndia
9. **Wedding glow (Oct-Feb):** #RangatNaturals #WeddingGlow #BrideSkincare #SkincareRoutine #Sunscreen #VitaminCSerum #SkincareIndia #Gujarat
10. **Diwali gifting (Nov):** #RangatNaturals #DiwaliGifts #GiftBox #SkincareGift #Diwali2026 #Gujarat #D2CIndia #SupportLocalBrands
11. **Winter (Dec-Feb):** #RangatNaturals #DrySkin #WinterSkincare #FaceCream #LipCare #SkincareTips #IndianSkincare #Rajkot
12. **Referral/community:** #RangatNaturals #RangatGlow #SkincareCommunity #SkincareIndia #SupportLocalBrands #D2CIndia #MadeInIndia

Growth phase note: as the account scales (10k+), drop generic niche tags (#SkincareTips) — they stop helping and start hurting relevance — and lean on brand + product + problem + location sets + search optimization.

PART 16

§16 META ADS STRATEGY + §17 BUDGETS — RANGAT NATURALS

The CEO call: ads IMMEDIATELY or after organic proof?

After organic proof — but the clock starts Day 15, not Day 90.

Reasoning (money-first):

1. A new cosmetics brand with zero reviews running ads on Day 1 = paying ₹150-₹300 per "hmm, who is this?" that never converts. Indian skincare prospecting CPMs are already high (₹100-260) because every D2C brand fights for the same feed.
2. Your **first ad creative must contain proof** (a real testimonial, a real before/after with disclosure, a real unboxing). That proof doesn't exist before ~Day 17.
3. BUT: waiting 90 days wastes the launch window (Oct-Feb = wedding/Diwali season). So: **organic-only Days 1-14 → optional ₹200/day boost Day 15-20 (only on organic-validated reels) → full ads from Day 21 (launch) at ₹500/day.**

The only pre-launch ad spend that makes sense (Day 15-20, optional): take your single best organic Reel (reach CTR ≥ 1.5%, 25%+ 3-sec retention) and run it as a **traffic/follower objective at ₹200/day, Ahmedabad only, 20-40F** — goal: followers + waitlist DMs, not sales. If it can't beat organic CTR, kill it and save the money.

Ad infrastructure (build by Day 14, before any spend):

- Meta Business Manager + ad account, payment (₹ via card/UPI-supported method), time zone IST.
- **Meta Pixel** on website (if live) + **Conversions API** — events: PageView, AddToCart, InitiateCheckout, Purchase.
- **WhatsApp Business API** connected (Click-to-WhatsApp objective) + the GLOW quick-reply flow.
- **Catalog** (serum, face wash, moisturizer, kits) with the real photos.
- Creative permission forms collected from testers/creators (ad use rights — see §8).
- **Creative bank ready Day 20:** 6 videos (D17 B/A, D19 creator, D21 launch, D22 objection, D24 unboxing, D26 testimonial) + 3 statics (offer card, texture, box-content).

THE 4 CAMPAIGNS

CAMPAIGN 1 — "GLOW PROSPECT" (cold, conversions) — LIVE DAY 21

Element	Spec
Objective	Sales (Conversions) — Purchase on website OR Click-to-WhatsApp (run WhatsApp objective as a second ad set if website is new/low-converting — for a new Indian brand, WhatsApp often wins first month)
Campaign structure	1 campaign → 2 ad sets (A: broad; B: interest) → 3–4 ads each, same creatives
Ad Set A (broad)	20–40, Women + Men (80/20), Ahmedabad + 40km , no interests, placements: Advantage+ (Reels + Feed + Stories first)
Ad Set B (interest)	Same age/gender, All Gujarat (Ahmedabad, Surat, Vadodara, Rajkot), interests: skincare, vitamin C, sunscreen + brand interests (Plum, Minimalist, Dot & Key, Neutrogena, Cetaphil, Glow)
Creative (4)	① D17 before/after (30s cut, disclosed) ② D26 story-testimonial (UGC) ③ D21 launch offer ④ D16 texture + offer card
Hook (creative)	"4 hafte. 20 aahaiyan. Same light, same angle." / "Naya brand? 4 baar delete karke order kiya — yeh kahani hai."
Primary text	"Naya brand pehli baar suna? Hum Gujarat se hain — 20 testers, 4 hafte, asli photos (filter nahi). Vitamin C Serum 10%: dull-look ko fresh dikhane me help, 4–6 hafte ka honest timeline. COD + free shipping (launch me). Results har kisi me alag hote hain — yahi hamari sachai. DM 'GLOW' ya yahan order karo. ↓"
Headline	"Pehli 100 orders — FREE Face Wash mini + COD"
CTA button	"Shop Now" (website) / "Send WhatsApp Message" (WA objective)
Budget	₹500/day total (Ad Set A ₹300, B ₹200)
Test period	7 days (do NOT touch before Day 4; Meta needs learning data)
Kill/scale rules	Day 4: ad with CTR < 0.8% AND no ATC → pause. Day 7: keep top 2 by ATC cost, pause rest. Winner: +30% budget every 48h while ATC stable
Success metrics	ATC ≤ ₹120 (WA objective: conversation ≤ ₹60), CTR (link) ≥ 1.2%, CPA ≤ ₹350 (first month is learning — accept ₹350–450), ROAS ≥ 1.5x (WA: track "WA→order" manually, target 30%+)

Why broad works at ₹500/day: with 1 ad set broad + 3–4 creatives, Meta's algorithm does the audience work — and for skincare, broad frequently beats interest stacks in India (interests = smaller pool = higher CPM + less optimization room).

CAMPAIGN 2 — "PROOF & LAL" (warm + lookalike) — LIVE DAY 35+ (after 50+ purchases)

Element	Spec
Objective	Sales (Conversions)
Structure	1 campaign → 2 ad sets: A: LAL 1% Purchasers (once you have 50–100 purchasers; before that, LAL of "IG engagers 90d + video viewers 75%"), B: Interest stack All-Gujarat (same as C1-B but with the 2 proven winners only)
Geo	All Gujarat (add top-3 India cities Day 60+ if ROAS > 2.5x)
Creative	3: ① best testimonial story ② Day-28 B/A (new cut) ③ unboxing. Same primary text family, headline: "Aapki jaisi aahaiyon ne try kiya"
Budget	₹500–₹1,000/day (start ₹500: A ₹300/B ₹200)
Test period	7 days
Success metrics	CTR ≥ 1.8% (warm should out-click cold), ATC ≤ ₹80, CPA ≤ ₹250, ROAS ≥ 2.5x
Rule	LAL refresh: re-create LAL every 30 days (purchaser pool grows = better model)

CAMPAIGN 3 — "RECOVER" (retargeting stack) — LIVE DAY 25+

Element	Spec
Objective	Sales (Conversions)
Structure	1 campaign → 4 ad sets (priority order, exclusions applied): ① Video viewers 25-75% + IG/FB engagers 90d (exclude purchasers) ② Website visitors 180d (exclude purchasers + ATC) ③ ATC 30d (exclude purchasers) ④ Checkout 30d (exclude purchasers)
Geo	Same as prospecting (don't widen retargeting geo — the people are here)
Creative per ad set	① proof: Day-28 B/A + "Aapne dekha tha? Yeh asli photos hain" ② objection: D22 "4 darr, 4 jawaab" ③ urgency-real: "X/100 seat bachi — COD" ④ trust: D26 testimonial + "COD. Return bhi hai."
Primary text	Short, warm, one-line: "Pucha tha? Yeh raha jawaab — COD hai, 4-6 hafte ka honest timeline hai, aur asli photos hain."
Headline	"Aapka decision, aapke time par — par batch 1 X seat pe rukega"
CTA	"Shop Now" / "Send WhatsApp Message"
Budget	₹200-₹300/day total (split: ① ₹100 ② ₹60 ③ ₹50 ④ ₹30 — scale whichever has CPA ≤ ₹150)
Frequency cap	Keep impressions/week ≤ 3-4 per person (retargeting fatigue kills new brands faster than prospecting)
Success metrics	CPA ≤ ₹150 (retargeting should be 2-3x cheaper than prospecting), ROAS ≥ 3x, CTR ≥ 2%
Note	Retargeting is where the "second look" orders happen — 20-40% of total revenue by Day 60. Never let it go below ₹150/day once audiences exist.

CAMPAIGN 4 — "SCALE" (Advantage+/broad scale + new product) — LIVE DAY 60+

Element	Spec
Objective	Sales (Conversions)
Structure	Option A (recommended first): Meta Advantage+ shopping-style campaign (1 ad set, 10 creatives, broad, let Meta optimize) — once 100+ purchase events exist. Option B: manual: 3 ad sets — broad All-Gujarat / broad top-6 India cities / LAL 1% purchasers (30d).
Geo	All Gujarat + top-6 India cities (Delhi NCR, Mumbai, Pune, Bangalore, Hyderabad, Jaipur) — with "Indian skin" creative (nationalize the message, keep the founder's voice)
Creative	6-10: the 4 proven winners (new cuts) + 2-3 new angles for Sunscreen (wave-2 hero) + 1 founder video + 1 AI-UGC variant (labeled concept)
Budget	₹1,000-₹2,500/day (start ₹1,000; +30% every 3 days while CPA ≤ target)
Test period	10 days (bigger budget = more learning data)
Success metrics	Blended CPA ≤ ₹300, ROAS ≥ 2.5x, new-city CPA ≤ 1.3x Gujarat CPA (if a city is 2x worse, pause it)
Sunscreen handoff (Day 60-75)	50% of C4 budget on Sunscreen creative (same audiences, new product) — existing buyers cross-sold via Campaign 3's site-visitors ad set with "kit" creative

Campaign sequencing summary

Day 1–14 : NO ads (organic proof building)
 Day 15–20 : OPTIONAL ₹200/day boost on 1 validated organic reel (Ahmedabad, follower/traffic)
 Day 21 : C1 LIVE ₹500/day (launch)
 Day 25 : C3 LIVE ₹200/day (retargeting audiences now exist)
 Day 35 : C2 LIVE ₹500/day (warm + LAL)
 Day 60 : C4 LIVE ₹1,000/day (scale + national + sunscreen handoff)
 Day 90 : full engine = C1+C2+C3+C4, total ₹2,000–5,000/day, weekly optimization rhythm

Weekly ad operating rhythm (60 min, every Sunday):

1. Read: CTR, ATC, CPA, ROAS per ad (7-day windows).
2. Kill: bottom 20% (CTR < 0.8% cold / no ATC). Scale: +30% to winners (max +50%/day).
3. Refresh: any creative > 21 days with falling CTR → new cut of same script.
4. Creatives: bank should always hold **≥6 live + 6 in queue** (never run dry).
5. Learn: log winning hook + format in the hook sheet → next week's organic content uses it (organic ↔ ads flywheel).

PART 17

§18 CREATIVE TESTING + §20 RETARGETING — RANGAT NATURALS

PART A: THE CREATIVE TESTING SYSTEM (Section 18)

How many creatives to test (and why)

- **Cold prospecting (C1): 4-8 creatives per campaign, 2-3 per ad set, 7-day test.**
Fewer than 4 = no data; more than 8 at ₹500/day = each creative starves (<1,000 impressions/day each = noise).
- **Retargeting (C3): 1-2 creatives per audience (they're small — 4 creatives would burn out a 2k-person audience in a week).**
- **Always have 2x your live count in the queue (6 live → 6 in queue).** Creative fatigue in Indian D2C hits in **2-4 weeks** (CPM up, CTR down, CPA up) — the brand that keeps a fresh cut ready wins the scale game.

The 8 creative archetypes to test (in priority order for a new brand)

#	Archetype	Why first/late	RANGAT example
1	UGC testimonial (story)	FIRST — highest-converting format for unknown brands; the "4 baar delete karke order kiya" story	D26 customer story (30s)
2	Disclosed before/after	FIRST — the #1 ROAS driver in Indian skincare; must be real + disclosed	D17 Day-1→28 (30s)
3	Problem → solution	FIRST — stops the scroll on the pain	D11 "Bahar ka main, andar ka dull"
4	Product demonstration	2nd week — texture/ASMR builds desire once curiosity exists	D16 "10 second, 1 drop"
5	Founder video	2nd week — "who are you?" answer, trust	D20 "Kal se live, 100 boxes"
6	Testimonial (quote + product)	Retargeting workhorse — short, social-proof	D26 cut 15s + quote card
7	Educational Reel	Retargeting + search — works as a "second look" nudge	D9 how-to (30s)
8	Offer Reel	Launch week only (then rotates) — "Founding 100"	D21 launch

Test matrix (C1, first 7 days): 4 creatives × 2 ad sets (broad + interest), all same CTA/offer, different HOOK and ARCHETYPE. That isolates what's working: hook, format, or audience.

Reading the data: the 4-day and 7-day reviews

Day 4 (look, don't touch unless something is broken):

- CTR (link) by creative → the **hook quality** signal. $< 0.8\%$ = hook failed (people saw it, didn't care).
- 3-sec/15-sec hold rate (from video insights) → the **first 2 seconds** signal. 3-sec hold $< 30\%$ = thumbnail/hook frame failed.
- ATC count by creative → the **message** signal.

Day 7 (decide):

- Rank creatives by **ATC cost** (not views, not likes). Top 2 survive; bottom 2 paused.
- Compare ad sets: if broad CPA $<$ interest CPA → shift budget 70/30 to broad.
- **New creative in:** queue 2 new cuts (new hook, same proven archetype) → they test in the next 7-day window.

Scaling a winner (the safe ladder)

1. Winner found (ATC $\leq$ target, CPA trending down) → **+30% budget every 48 hours** while CPA stays $\leq 1.2\times$ target.
2. CPA rises $> 1.3\times$ target for 3 days → stop scaling, add a **new cut of the same script** (new hook, same body) — often the creative, not the audience, is the limit.
3. Fatigue signature (any 2 of): CPM +30% vs week 1, CTR -25%, CPA +50%, comment sentiment flat/down → rotate to the queued cut, keep the winner's CTA/offer.
4. A creative that survives 4+ weeks = **retire it to retargeting** (it still works for warm people; cold is saturated).

The metrics, defined for a new cosmetics brand (what each one tells you)

Metric	What it is	Healthy range (India D2C skincare, 2025-26 data)	What it means for RANGAT
CPM	Cost per 1,000 impressions	₹100-260 (cold, skincare)	Rising CPM = fatigue or competition (Diwali spike Nov — expect +30-50%)
CTR (link)	% of people who clicked	Cold 1.0-1.8% · Warm/retarget 2-4%	Your hook score. $< 0.8\%$ cold = new hook, not new budget
CPC	Cost per click	₹8-20 cold	Watch only as CPM/CTR derivative — don't chase it
ATC (Add To Cart / conversation)	Cart adds or WA chats started	ATC cost $\leq$ ₹120 cold (site) · WA chat $\leq$ ₹60	Your leading indicator. ATC cost 3 days before CPA tells you tomorrow's CPA
CVR	% of clicks that buy	1.5-3.5% (site) · 25-40% of WA chats (new brand, COD)	If CTR fine but CVR low → landing page/price/trust issue, NOT creative
CPA	Cost per order	Month 1: ₹300-450 (accept) · Month 3: $\leq$ ₹250 · Mature: $\leq$ ₹200	The number you manage daily
ROAS	Revenue ÷ ad spend	Month 1: 1.5-2x (learning) · Month 3: 2.5-3.5x · Mature: 3.5x+	DO NOT judge a new brand on ROAS alone — at ₹500/day, 2 lost orders = ROAS noise. Judge ATC + CPA for 30 days, then ROAS

What matters MOST for a new brand (priority order):

1. **ATC cost / WA conversation cost** (leading indicator, earliest signal)
2. **CPA** (the money number)
3. **CTR** (the hook quality number)
4. **ROAS** (the lagging verdict — only meaningful after ~₹15-20k spend or ~50 orders)
5. CPM/CPC (context only)

The math you must know (AOV = ₹600 serum, ₹950 kit):

- At ₹500/day = ₹15,000/month. At CPA ₹350 → ~43 orders → ₹34-41k revenue → ROAS ~2.3-2.7x. Month 1 is a **buying data** month; profit comes from Month 3 (lower CPA) + repeat purchases (which ads don't pay for).
- **LTV math:** a serum buyer who repeats once at 60 days (refill) = LTV ₹1,100-1,200 with COGS ~₹250-300/order. CAC ₹300 is only "expensive" if you ignore the repeat. **This is why the Day-14/28 WhatsApp sequences (\$21) are part of the ad strategy — they're where ROAS actually becomes 4x+.**

PART B: RETARGETING — THE SEQUENCE (Section 20)**The audiences (build once, Day 25+)**

#	Audience	Window	Size check
R1	Video viewers (IG/FB/YT Short views) 25-75%	90d	expect 2k-20k by Day 30
R2	IG profile visitors + FB page engagers	90d	expect 1k-8k
R3	Website visitors (exclude purchasers, exclude ATC)	180d	grows from Day 21
R4	Added to Cart (exclude purchasers)	30d	
R5	Initiated Checkout (exclude purchasers)	30d	
R6	Purchasers (exclude from ALL above)	180d	→ used for upsell/cross-sell + LAL seed
R7 (later)	LAL 1% of R6	30d refresh	once 50+ purchasers

Exclusions are the system: every prospecting audience excludes R6 (never show "buy now" to a buyer) and R4/R5 (let retargeting own them). Every retargeting audience excludes R6.

The correct sequence (who sees what, in what order)

R1 video viewers 25-75% → "second look" proof content (B/A, testimonial)
 R2 profile/engagers → trust content (founder, "how it works", reviews)
 R3 website visitors → objection killer (COD, returns, timeline) + offer
 R4 ATC → urgency-real ("X seat bachi") + testimonial
 R5 checkout → trust + risk reversal (COD, "aapka number save hai")
 R6 purchasers → NOT "buy again now" — Day-28 "kya chal raha hai?" + cross-sell (kit) + review ask (WhatsApp-first, ads second)

Why this order: a video viewer needs *proof* (they've never seen the product). A website visitor needs *risk reversal* (they priced it and left). An ATC user needs *urgency*. A checkout user needs *reassurance*. A buyer needs *relationship* (not another sales ad — that's the #1 retargeting mistake: napping buyers with more sales ads).

Copy per audience (paste-ready)

- **R1 (viewers):** "Aapne 2 din pehle hamari video dekhi thi — yeh 4 hafte ke asli photos hain. Same light, same angle, filter nahi. Results har kisi me alag hote hain — isliye COD, isliye return bhi. ↓"
- **R2 (engagers):** "Aap humari page par aaye the. Ek sach baat: hum 20 testers se 4 hafte tak daily photos lete hain — aap bhi 4 hafte baad yahan ho sakti ho. DM 'GLOW' — 15 minute me reply."
- **R3 (site visitors):** "Price dekha? Ab risk nahi: COD, parcel khol ke dekho, return bhi hai. Aur 4-6 hafte ka honest timeline — 3-din wale wada nahi karte. ↓"
- **R4 (ATC):** "Aapka item cart me hai. Batch 1 me se ab X seat bachi hain — phir agla batch agle mahine. COD hai, aaj ka order kal pack."
- **R5 (checkout):** "Aap 1 step door thi. Koi bhi sawaal — WhatsApp par insaan hai, bot nahi. COD. Return. Bas."
- **R6 (purchasers — cross-sell only, after Day 21 post-purchase):** "Aapka 28 din ka hisa baaki hai — aur sunscreen agle mahine aa raha hai. Early list me rahi? (link)" · Later: "Kit upgrade: 3-step complete, ₹X off aapke liye (existing customer)."

Budget & frequency rules

- Retargeting total = **15-25% of ad budget** (at ₹500/day → ₹100-125; at ₹2,000 → ₹400).
- Frequency cap discipline: ≤ 3-4 impressions/person/week. (Meta doesn't expose a hard cap for custom audiences in most setups — manage by **rotating 2 creatives every 10 days** and **shrinking windows** (90d → 60d) when frequency creeps up.)
- Retargeting should hit **CPA ≤ ₹150 and ROAS ≥ 3x** by Day 45. If not → the issue is usually the *creative* (sales-ads on warm people) — swap to proof/objection creative.
- **WhatsApp is the real retargeting channel:** for a COD-first Indian brand, a human WhatsApp nudge ("Kya aapne socha? COD hai") out-converts a 5th Facebook ad. Retargeting ads should *push to WhatsApp*, not just to the site.

The full funnel order (ads ↔ organic ↔ WhatsApp together)

COLD : C1 prospect (Reels/Feed) → attention
 WARM : C2 LAL + organic Reels → trust
 WARM2 : C3 R1/R2 (proof) + Stories → consideration
 HOT : C3 R3/R4 (risk + urgency) → intent
 CLOSE : WhatsApp chat (human, 15-min SLA) → order (COD)
 POST : Day-1/7/14/28 WhatsApp sequences → review + repeat
 REPEAT: R6 cross-sell + referral + kit → LTV

PART 19

§21 CONTENT→SALES FUNNEL + §22 VIRAL VS SALES + §23 BUYER PSYCHOLOGY — RANGAT NATURALS

PART A: THE CONTENT → SALES SYSTEM (Section 21)

The machine. Every asset you make belongs to exactly one stage. If a post doesn't know its stage, it doesn't ship.

REEL → PROFILE → TRUST → PRODUCT → WEBSITE/WHATSAPP → PURCHASE → REVIEW → REPEAT → REFERRAL

STAGE 1 — REEL (Attention): "Stop scrolling"

- **Content that belongs here:** Problem hooks, myth-busts, relatable/Gujarati humor, texture ASMR, creator drops, founder stories. 1-in-5 is a direct sales reel.
- **Job done when:** 3-sec hold $\geq$ 30%, saves/comments, and — the real metric — **profile visits** from the reel.
- **Rules:** hook in 2 sec; one idea per reel; last 3 sec = CTA (follow / save / DM GLOW). The CTA decides what stage-2 sees.
- **Metric:** reach, 3-sec hold, saves, profile visits per reel.

STAGE 2 — PROFILE (Judgment): "Who are you? 3 seconds."

- **Content that belongs here:** bio (category + products + COD + one action), name field with keywords, founder avatar, 3 pinned posts (buy / proof / who), 6 highlights (RESULTS first).
- **Job done when:** a stranger who came from a reel can say in 10 seconds: "Indian skincare, VC serum, COD, DM GLOW."
- **Rules:** 3-second test (§2) audited weekly. Pinned = always current offer + newest proof + founder.
- **Metric:** profile→bio-link clicks; profile→DM rate.

STAGE 3 — TRUST (Conviction): "Is this real? Will it work on ME?"

- **Content that belongs here:** Day-1→28 disclosed program, "4 darr 4 jawaab" objection reel, founder story #2 (factory, batch card), tester honesty reels (with negatives), anti-fake positioning, real review clips, unboxings.
- **Job done when:** the DM starts with "kaise order karna hai" instead of "yeh sachcha hai kya."

- **Rules:** one real negative per 3 positives; consent forms on file; "results may vary" always on disclosed B/A.
- **Metric:** share of DM conversations that are purchase-intent vs trust-questions (target: trust-questions drop from ~60% week 1 to <30% by week 6).

STAGE 4 — PRODUCT (Desire + clarity): "What exactly am I getting?"

- **Content that belongs here:** how-to (5-step VC), texture demos, "box me kya hai," kit routines (60-sec), price-value breakdown, seasonal relevance (monsoon/wedding/winter).
- **Job done when:** the DM question becomes "COD chalega? / kitne din me aayega?"
- **Rules:** every product post states: what it does (safe language) · what it won't do · who it's for · price · COD/return · one CTA.
- **Metric:** DMs that mention the product name; kit share of orders.

STAGE 5 — WEBSITE / WHATSAPP (The close): human, fast, COD

- **Content that belongs here:** the **GLOW DM script** (\$25), WhatsApp Business: catalog with photos + price + "COD available" in every description; quick replies (price, delivery time, returns, results timeline); labels (NEW / ORDER / D7 / D14 / BUYER); broadcast lists; **status = your Stories**; 15-minute reply SLA (7 AM-11 PM); auto-reply outside hours.
- **Job done when:** a warm DM → order within 1 conversation (target ≥ 40% of warm DMs convert; COD pre-confirmation call for first-time buyers).
- **The DM script (GLOW):**
 1. Auto: "Namaste! GLOW = Vitamin C Serum 10%, launch price ₹X, FREE Face Wash mini, FREE shipping, COD. Kya aap bhi join karna chahti ho? (city batao — delivery time batate hain)"
 2. They reply city → "Ahmedabad 2-3 din me aayega. COD me paise parcel ke baad. Koi sawaal?"
 3. Objections → price: "Launch me ₹X + free mini — phir regular. Aur COD hai, pehle dekho phir paise." / doubt: "4 hafte ka 20-tester program hai — photos 'RESULTS' highlight me. COD hai isliye risk aapka nahi." / timeline: "Honest: 4-6 hafte daily use. 3-din wada karne wale se door rahiye."
 4. Close: "Theek hai, aapka number save kar leti hoon. [name, city, product] — sahi hai? Parcel nikalte hi WhatsApp pe number milta hai."
 5. Post-order: instant confirmation + "Din 7 pe hum khud message kar rahe hain — use ka tarah bhejenge."
- **Metric:** DM→order % (target 35-45% warm), reply time (<15 min), COD failure rate (<15%).

STAGE 6 — PURCHASE (Fulfillment as marketing)

- **Content that belongs here:** the **box itself**: thank-you card (handwritten feel), usage guide (day 1/7/14/28 expectations — sets honest timeline = fewer returns + better reviews), a "review card" (QR/WhatsApp: "photo bhejo, ₹100 off next order"), referral card ("do ₹100 lo ₹100" + their code), tissue/finish = unboxing-worthiness.

- **Shipping comms:** order confirmed → packed (photo of THEIR box!) → shipped (tracking) → out for delivery → delivered. 5 WhatsApp touches pre-delivery. (The "photo of your actual box" is a 10-second trust rocket — do it for every order in month 1.)
- **Metric:** COD success ($\geq 85\%$ month 1 → $92\%+$ by month 3), delivery time, returns ($< 5\%$).

STAGE 7 — REVIEW (The flywheel ignition)

- **The WhatsApp sequence (the whole repeat/review engine):**
 - **Day 1 (delivery):** "Aaya? Din 1 ka tarika: [2 lines]. Koi bhi cheez — main yahan hoon."
 - **Day 7:** "1 hafte ho gaya. Aaj kya feel? (honest, 1 line me)" + the "day-7 photo" ask: "Same window light me 1 photo bhejo? Aapke jaise ka program me dikhate hain (permission ke saath)."
 - **Day 14:** "Aadha tarika. Fresh-look aaya hai? 1 line review bhejo — ₹100 off next order. (Photo optional, sirf word bhi chalega)"
 - **Day 28:** "4 hafte! Day-28 photo + 2 line review? (Consent: page/ads par dikhana?) — yehi hamari sabse badi baat hai: asli photos."
 - **Day 45:** "Kya chal raha hai? Kuch add karna ho? (SPF wave: 'sunscreen agle mahine — existing customer list pehli priority')"
 - **Day 60 (refill window for 30-day serum):** "Aapki bottle ~80% ho gayi hogi. Refill/next: ₹X off, COD. 1 message me order."
- **Metric:** review-request → review rate (target 25–35% by Day 14), photo-review rate (10–15%), consent rate.

STAGE 8 — REPEAT (The profit line)

- **Content that belongs here:** the Day-45/60 broadcasts above; seasonal cross-sell (Oct: "wedding glow kit existing customers ko pehle"); refill reminders tied to actual bottle size (30-day = Day 28–35 nudge); "kit upgrade" (serum buyer → 3-step kit); loyalty: every 3rd order = free mini of next product (not discount — discount trains price-chasing).
- **Rules:** first repeat must be a *cross-sell* (they already trust you — sell the routine, not the same product cheaper); never open a conversation with "sale."
- **Metric:** repeat rate by Day 60 (target 10–15% of cohort), 30-day kit share, AOV trend (target: ₹600 → ₹900 by Day 60).

STAGE 9 — REFERRAL (The cheapest growth)

- **The system:** every buyer gets a code in the box + WhatsApp (Day 2). "Do ₹100, lo ₹100" — friend gets ₹100 off first order, referrer gets ₹100 off next (both real, both tracked in WhatsApp labels/Sheets).
- **The ask moments (when people actually share):** (a) Day 14 after a good review ("aapko pasand aaya — 1 dost ko batao, dono ko ₹100"); (b) at unboxing (shareable moment); (c) at review-feature ("aapki review page par hai — share karo, code bhi").
- **Measurement:** every referred order tagged in the sheet (code) → referral % of orders (target: 10% by Day 45, 20% by Day 90).
- **Metric:** referral orders / month, CAC of referred orders (target ~₹100 vs ₹300+ ad CAC).

The one-page map (print this)

REEL (hook) → attention KPI: 3-sec hold, profile visits
 PROFILE (3-sec test) → judgment KPI: bio→link, profile→DM
 TRUST (proof) → conviction KPI: trust-questions ↓ in DMs
 PRODUCT (clarity) → desire KPI: product-name DMs, kit share
 WHATSAPP (GLOW) → the close KPI: DM→order 40%+, COD 85%+
 PURCHASE (box+comms) → wow KPI: returns <5%, COD fail <15%
 REVIEW (D1/7/14/28) → flywheel KPI: 25%+ reviews, 10%+ photos
 REPEAT (D45/60) → profit KPI: 10–15% repeat by D60
 REFERRAL (₹100/₹100) → cheap growth KPI: 10–20% orders referred

PART B: VIRAL CONTENT vs SALES CONTENT (Section 22)

The difference (one line each)

- **Viral/awareness content** = made for *strangers* to stop, feel, and share. Optimized for reach. It should feel like it's about *them*, not about you. (Mistake reels, maa skits, monsoon problem, "girl math.")
- **Sales content** = made for *evaluators* to buy. Optimized for conversion. It's about the product, the proof, and the one action. (Founding 100, objection killer, offer carousel, testimonial ads.)

The mistake that kills new brands: all-viral (big views, zero orders — "par paisa kahan?") or all-sales (nobody follows, nobody trusts — "brand hai kya?"). The ratio below is the balance.

The weekly ratio (5-7 Reels + 2 Carousels = ~9-10 posts)

Bucket	Share	Weekly count	What counts in it
Awareness (stranger-stoppers, humor, problems)	20%	2	Mistake reels, relatable/Gujarati, problem reels, maa skit, "girl math"
Education (saves, authority)	25%	2	Myth vs reality, how-to, ingredient science, SPF/layering education
Trust (proof, people)	30%	2-3	Disclosed B/A, tester stories, unboxings, founder story, creator collabs
Sales (direct)	20%	2	Offer posts, kit/bundle, X-seats-left, referral, launch/close
(Overlap note: a founder story with an offer CTA counts as Trust+Sales — assign ONE primary bucket)			

How much should directly sell?

- **1 in 5 posts sells directly — and only after Day 15** (when proof exists). Weeks 1-2: 0-1 direct. Week 3: 1. Week 4+: 2.
- **The other 4 in 5 sell indirectly:** every awareness reel ends with a soft CTA into the funnel (follow / save / DM GLOW), every education reel ends with a product nod, every

trust post reminds of the offer in one line. So the *effective* selling pressure is ~100% — but the *explicit* sell is 1 in 5.

- **Seasonal override:** launch weeks, Diwali week, and "X seat left" weeks can run 3-in-9 direct (max 33%) — never above.
- **Ads change the math:** organic stays 1-in-5; paid media carries the heavier sell (that's what ads are for).

PART C: INDIAN BUYER PSYCHOLOGY — why a stranger buys an unknown skincare brand (Section 23)

The unknown-brand gap in India is not a price problem. It's a **trust gap shaped by 10 forces**. Here's each force + the exact RANGAT play:

1. **Fakery fear (the #1 silent blocker).** India's fake-product history makes "naya brand" = "shayad fake." → *Play:* batch card on every bottle + "verify on website" + the "anti-fake" content line + founder face + COD. We market *genuineness* as a feature, not an afterthought.
2. **Trust = face + consistency.** An Indian buyer trusts a human face > a logo, and consistency > one big post. → *Play:* founder face on 40% of content for 90 days; daily Stories; 15-min DM SLA.
3. **Price = respect, not cheapness.** "Sasta" triggers the fake association; "aam daam + zyada value" triggers the smart-buyer identity (very Gujarati: value psychology without the discount circus). → *Play:* honest price breakdown reel (D14); never fake %; free *items* (mini) instead of fake % (a free face-wash mini is tangible, "90% OFF" is not).
4. **Results = visible, slow, and honest.** Buyers know "3-din glow" is fake. The credible brand is the one that says 4–6 weeks and shows Day-7 "kuch nahi" honestly. → *Play:* 28-day program with the honest middle; "honest timeline" as a brand line.
5. **Ingredients = the new "brand."** 25–40 buyers now read labels; "10% Vitamin C, simple list, batch card" is a differentiator against both totka and big-brand opacity. → *Play:* label close-ups in every product reel; "label padho saath me" content (UGC #6).
6. **Reviews = other people's courage.** A buyer needs proof that *someone like them* already took the risk. → *Play:* the Day-14 review sequence, testimonial stories ("4 baar delete karke"), review-on-page for Founding 100.
7. **Fear of waste (not fear of the product).** The real fear: "₹600 kachra ho jayega." → *Play:* COD (risk moves to us), return policy stated in 1 line, 4–6 week expectation (so "no change in 3 days" ≠ "waste"), Day-1 usage guide (so the product works *properly* — half of "no result" is wrong usage).
8. **Curiosity = the local edge.** "Gujarat se brand" is novel in a feed full of Mumbai/Delhi brands; novelty stops the scroll in Gujarat. → *Play:* founder origin story, city callouts, "Aamee skin, aamno liye."
9. **Convenience = the COD+WhatsApp stack.** The Indian first order is a phone conversation, not a checkout flow. → *Play:* Click-to-WhatsApp ads, 15-min human reply,

COD, "photo of your box," tracking updates. Every friction point removed in writing.

10. **Local identity + family.** Gujarat is family-purchase: the daughter orders, the mother approves, the sister gets a "gift." → *Play*: gifting content (Diwali box), "maa ke liye" Q&A, family-pack offers; language warmth (Gujarati in relationships, Hinglish in facts).
11. **(Bonus) Value = the math that justifies.** "600 = 20 chai, 4 hafte chalta hai" — give buyers the arithmetic to defend the purchase to themselves/family. → *Play*: "girl math" reel (UGC #17), per-use cost on sales posts (₹20/day).

The psychological order of a first purchase (match your funnel to it):

Stop (curiosity/hook) → Relate ("yeh meri baat hai") → Believe (face + proof + anti-fake)
 → Understand (what/who-for/price) → De-risk (COD + return + timeline) → Convenience (1 DM, 15 min)
 → Buy → (box wow) → Review → Repeat → Refer

Every stage in the funnel (\$21) maps to one line of this chain. If orders stall, find *which* line is broken — that's where the next 30 days of content goes.

PART 18

§19 SALES ADS LIBRARY — RANGAT NATURALS (paste-ready)

Context: These are the words for the creatives in 15-meta-ads (C1-C4). Product = Vitamin C Serum 10% (hero), Face Wash, kits. All copy: honest-timeline, COD-forward, risk-reversed, compliant (no cure/remove/100% claims). Primary texts are written for the **Meta "Primary text" field** (first 125 chars = the part most people see).

10 AD HOOKS (first line of video / first line of primary text)

1. "4 hafte. 20 aahaiyan. Same light, same angle — asli photos."
2. "Naya brand? 4 baar cart se hataya — phir bhi order kiya. Yeh kahani hai."
3. "Gujarat me 40 degree — aapki skin ke liye humne 3 mahine laga diye."
4. "Koi 3-din wala wada nahi. 4-6 hafte, honestly. Yehi humara farq hai."
5. "Chehra subah theek, shaandh thaka hua? Yeh normal nahi hai."
6. "COD. Parcel kholo. Pasand nahi? Return. Pehli baar naye brand se — tension nahi."
7. "10% Vitamin C, simple label, batch card — 3 cheezein jo hum hamesha check karte hain."
8. "Pehli 100 orders: FREE Face Wash mini + FREE shipping. Phir? Regular price."
9. "2000 wali imported routine vs 600 ka Indian plan — ingredient list khol ke dekho."
10. "Aamee skin, aamno liye. Gujarat se shuru, India ke liye bana."

10 PRIMARY TEXTS (Meta primary text field)

1. "Naya brand pehli baar suna? Samajh sakte hain — isliye sab dikhate hain: 20 testers, 4 hafte, same-light photos, filter nahi. Vitamin C Serum 10% — dull-look ko fresh dikhane me help, 4-6 hafte ka honest timeline. COD + free shipping (launch me). Results har kisi me alag hote hain — yahi hamari sachai hai. ↓"
2. "Hum manufacturer nahi hain. Hum RANGAT NATURALS hain — formula chunta hai, test karta hai, certified Indian facility me banwata hai, aur seedhe aap tak pahuchata hai. Isliye daam aam hai — quality pe compromise nahi, middlemen pe hai. COD. Return bhi. ↓"
3. "40 degree, dhool, phir ghar ka AC — yeh teeno aapki skin roz saamne aati hain. Hamara plan simple: 60 second ka wash, 3 drops ka serum, roz subah. 4 hafte me aap khud farq dekhogi. COD + free Face Wash mini (pehli 100 orders). ↓"
4. "Aapka sabse bada sawaal: 'kya sach me kaam karega?' Isliye yeh dikhate hain: Day 1 ki photo, Day 28 ki photo — same window, same light, date stamp ke saath. Koi kaafi, koi kam, har koi alag — yehi asli result hota hai. Try karo: COD. ↓"

5. "Student? Busy? 600 ke andar bhi sahi routine chalta hai — 3 steps, 2 minute. Face Wash + Vitamin C 10% + gel moisturizer. Ek box me, COD, ghar par delivery. Aur 4-6 hafte ka honest timeline — magic nahi, consistency. ↓"
6. "Pehli 100 orders me aapki review — photo ke saath — hamari page par feature hogi. Yeh woh cheez hai jo koi 2000-crore ka brand nahi karega. Kyunki pehla batch 100 ka hai, aur hum chahte hain pehle 100 aahaiyan ka experience khud baat kare. ↓"
7. "Oily skin wale, ruko: moisturizer chahiye hota hai — gel type. Skin ko paani chahiye, oil nahi. Aur Vitamin C? 3-4 drops, khurak chehre par, subah, SPF ke saath. 4 hafte. Watch it. COD + free shipping launch me. ↓"
8. "Mard bhi skin. 60 second ka face wash — SG Highway ka dhool, 9-to-9 ki thakan, shine 4 baje tak. Yahi ek step hai. COD, aam daam, koi baazi nahi. Try karo. ↓"
9. "Wedding season aa raha hai. Glow '2 din pehle' wala nahi — '6 hafte pehle' wala. Serum + SPF ka simple plan, 4-6 hafte ka honest timeline. Aaj se shuru karo, wedding pe fresh-look pakka. COD. ↓"
10. "Referral: aapke friend ko ₹100 off, aapko next order par ₹100 off. Humara sabse sasta ad aapki recommendation hai — aur aapki story 100 logon tak pahunchti hai. Code link par milega. ↓"

10 HEADLINES (Meta headline field — max 5 chars of space, ~25 words practical)

1. "Pehli 100 orders — FREE Face Wash mini + COD"
2. "4 hafte, 20 testers, asli photos — dekho khud"
3. "Vitamin C 10% — 4-6 hafte ka honest timeline"
4. "COD + Return — pehli baar naye brand se, tension nahi"
5. "60 second wash + 3 drops serum = roz subah"
6. "Aamee skin, aamno liye — Gujarat se shuru"
7. "Dull-look? 4 hafte me farq jo khud dikhe"
8. "Batch 1: X seat bachi — phir agla month"
9. "3 steps, 2 minute, ek box — poora morning routine"
10. "Do ₹100, lo ₹100 — referral code link par"

10 CTAS (the ONE action — rotate by funnel stage)

1. **DM "GLOW"** — (profile/organic + WA objective) the funnel keyword
2. **"Send WhatsApp Message — 15 minute me reply"** — (CTA button, WA objective)
3. **"Shop Now — COD available"** — (site objective, cold)
4. **"Free Face Wash mini — pehli 100 orders me"** — (offer CTA, launch week)
5. **"Asli photos dekho — link par"** — (proof CTA, retargeting R1)
6. **"Koi sawaal? Insaan hai, bot nahi"** — (trust CTA, R5 checkout)
7. **"Save karo — kal routine shuru"** — (organic, save-bait)

8. **"Apna code lo — 1 dost ko bhejo"** — (referral)
9. **"Waitlist me jao — batch 2"** — (scarcity, sold-out state)
10. **"GLOW likho — aaj ka order kal pack"** — (urgency-real, final push)

3 FULL AD ASSEMBLIES (creative + text + headline + CTA, ready to build)

AD 1 — "THE STORY TESTIMONIAL" (C1, cold, UGC video)

- **Creative:** D26 customer story (30s) — her words: "4 baar delete karke order kiya..."
- **Hook (frame 1 + spoken):** "Naya brand. Pehli baar. 4 baar cart se hataya."
- **Primary text:** #2 above.
- **Headline:** #4 ("COD + Return — pehli baar naye brand se, tension nahi")
- **CTA:** Send WhatsApp Message
- **Why it works:** story format + risk reversal in headline = the two biggest unknown-brand blockers killed in one screen.

AD 2 — "THE DISCLOSED 4-WEEK" (C1 + C3, cold + warm)

- **Creative:** D17 Day-1→28 reel (30s cut), disclaimer bar on every frame.
- **Hook:** "4 hafte. 20 aahaiyan. Same light, same angle."
- **Primary text:** #1 above.
- **Headline:** #2 ("4 hafte, 20 testers, asli photos — dekho khud")
- **CTA:** Shop Now (COD in first comment pinned: "COD hai ")
- **Why it works:** disclosed B/A = highest-CTR archetype in Indian skincare; the disclaimer *increases* trust (rare in category).

AD 3 — "THE OFFER CLOSE" (C1 launch week + C3 R4)

- **Creative:** D21 launch reel (30s cut) — box, 100 units, offer on screen.
- **Hook:** "Pehli 100 orders. Phir regular price."
- **Primary text:** #4 above.
- **Headline:** #1 ("Pehli 100 orders — FREE Face Wash mini + COD")
- **CTA:** Send WhatsApp Message
- **Why it works:** real scarcity (batch) + free item (not fake %) + COD = the full Indian first-order stack in one ad.

Build note: pin a first comment on every ad: "COD · Return · 4-6 hafte honest timeline · Results vary" — the pinned comment is where Indian buyers check before ordering; make it zero-effort.

PART 20

\$24 FIRST 1,000 FOLLOWERS + \$25 FIRST 100 CUSTOMERS — RANGAT NATURALS

PART A: THE FIRST FOLLOWERS (Section 24)

The north star: followers who will DM "GLOW" — not vanity counts. A 500-follower account with 40 DMs/week beats a 5,000-follower account with 0. So every growth tactic below is a *buyer-acquisition* tactic.

0 → 100 (Days 1-7): the warm foundation

- **Founder's network (legitimate, high-converting):** founder posts Day-1 reel on personal IG/FB/WhatsApp with a genuine "yeh humara naya kaam hai, genuine hai, aapki family/friends ke liye bhi useful" note. Expect 50-80 of the first 100 from here. (These are buyers' mothers/sisters/college friends — the *best* first 100.)
- **20 testers = 20 micro-ambassadors:** each tester posts their Day-1 photo/story tagging RANGAT (their story = their network).
- **Every comment answered** (personalized, not "thank you!"): a real 2-line reply to a stranger = 30% follow-back rate.
- **Local tag + local hashtag on every post** (Ahmedabad geo + #Amdavad): the local Explore feed is where a new city brand lives.
- **Target: 100 by Day 7. Metric that matters: first 10 DM conversations.**

100 → 500 (Days 8-21): proof-led growth

- **The share machine:** 2 relatable/Gujarati reels per week (D5-style) — shares are how a 100-follower account reaches 10,000 people.
- **The save machine:** 2 education carousels/reels per week (saves = re-delivery to the same user for weeks + ranking boost).
- **First creator collab (Day 19):** 10k-30k Ahmedabad creator = instant 5k-30k *impressions* from her audience; 1-3% follow = 50-300 followers.
- **Day-28 before/after drop (Day 17):** the proof post is the follow-magnet for skeptics; pin it.
- **Local engagement loop (30 min/day):** comment genuinely (3-10 words, useful) on 20 posts from Ahmedabad/Gujarat food/lifestyle/wedding accounts — not begging, adding value. 5-15 profile visits/day from this.
- **Target: 500 by Day 21. Metric: 30 DMs/week, 2 reels >5k views.**

500 → 1,000 (Days 22-45): the launch wave

- **Launch-day triple touch (reel + Stories + WA broadcast + optional ad boost) =** the single biggest follower spike.

- **Founding 100 = 100 new buyers = 100 followers who *buy** (*every order confirmation asks: "follow karo — day 7/14/28 updates yahan aayenge" — buyers follow because updates are for them for them**).
- **Creator #2-4 drops** (1/week).
- **YouTube Shorts repurposing** starts compounding (3/week) — slow, but search-driven followers are high-intent.
- **Target: 1,000 by Day 45. Metric: 60-100 orders done; DMs 50+/week.**

1,000 → 5,000 (Days 45-120): the system phase

- **Weekly rhythm holds:** 5-7 reels + 2 carousels + daily Stories; 1 creator/week; 2 UGC drops/week.
- **Ads start feeding the profile:** prospecting ads (C1) at ₹500-1,000/day with strong creatives = 200-500 profile visits/day; 2-4% follow = 10-60 followers/day *on top of* organic. (Ad followers are cheap here precisely because the creative carries proof.)
- **The "show":** UGC #20 (30-day challenge series) + weekly "4-hafte program" episodes = serialized content people *follow to finish* (follow-for-continuation is the strongest follow motivation).
- **Local events (2/month):** college sessions + micro-meetups → 100-300 followers each.
- **Target: 5,000 by ~Day 120. Metric: 500+ orders, 15%+ of followers engaged (30d reach > followers is the health signal).**

5,000 → 10,000 (Days 120-240): scale without selling the soul

- **National creator wave** (3-5/week, 20k-100k, Gujarat 40% / other cities 60%).
- **Ads at ₹2,000-5,000/day** with 6-10 live creatives (C4 scale) → profile visits 500-1,500/day.
- **One "campaign" per season:** e.g., "Wedding Glow 6-Hafte" (Oct-Dec), "Sardi ka Dhyam" (Jan-Feb) — a named, hashtagged, creator-amplified campaign is how 5k → 10k jumps happen (campaigns create shareable moments; single posts don't).
- **Collab posts with 2-3 established Indian skincare accounts** (barter → paid as budget allows): their followers, your proof.
- **Target: 10,000 by ~Day 240. Metric: 2,000+ orders, referral 20%+, 25%+ repeat.**

Anti-vanity rules (always on):

- No follow-for-follow, no engagement pods, no bought followers (they poison ad delivery and the DM ratio).
- Never optimize a post for "views only" — every awareness post still ends with a funnel CTA.
- Weekly, the 1 number = **new buyers from social** (not followers). Followers are the fuel gauge; orders are the destination.

PART B: THE FIRST 100 CUSTOMERS (Section 25)

The plan in one line: *Proof before offer, offer before scale — 100 real customers in 30-45 days via DM pipeline + Founding 100 offer + micro-creators, all fed by one WhatsApp machine.*

1. WHAT CONTENT (the 30-day content job, mapped to buyers)

- Weeks 1-2: 100% proof-building (founder, problems, education, tester program start) — **no selling** (see [03-launch-4-weeks.md](#)).
- Weeks 3-4: proof drops (D17 B/A, D19 creator) + launch (D21) + objection killer (D22) + unboxing (D24) + testimonial (D26) + close (D30).
- Every buyer-stage asset from §21 Stages 2-6 is live by Day 21 (profile 3-second test, GLOW script, box, sequences).
- **The 5 "buyer" posts that will actually sell the first 100:** D8 (intro+waitlist), D17 (proof), D21 (launch), D22 (objection), D24 (unboxing). Everything else warms the pool.

2. WHAT OFFER — "FOUNDING 100"

- **Offer stack:** launch price (e.g., ₹599 where regular will be ₹799 — real future price, stated honestly) + **FREE Face Wash mini** (tangible, not fake %) + **FREE shipping + COD + return + review featured on page** (the social-pricing: your face on our wall).
- **Real constraint:** exactly 100 units of batch 1 (state the batch logic — "har order ka hum khud dhyan le sakte hain").
- **Why this offer works:** every element removes a *different* psychological blocker (§23): price (launch) + trial risk (free mini + COD) + waste fear (timeline + guide) + identity (founder-100 status + review feature).
- **Anti-patterns avoided:** no fake MRP strike, no "50% OFF" (nobody ever paid the struck price), no fake countdown (the batch is the countdown).

3. WHAT CREATOR STRATEGY (first 100)

- **5-10 micro-creators (5k-30k, Gujarat):** product free + ₹500-1,500 + affiliate 20% on 20 sales + ad permission.
- **Sequence:** creator #1 collab Day 19 (before launch — her audience sees the proof) → #2-3 in launch week (their reels = ad creatives) → #4-10 in weeks 4-6 (Sunrise for wave 2).
- **Each creator = 6 assets** (their reel, our repost, 2 ad cuts, 3 quote cards) — 10 creators = 60 assets = the content bank for Month 2.
- **The 30-day challenge creator (UGC #20)** runs from Day 21: 30 daily stories/posts from one real person = continuous social proof the whole month.

4. WHAT ADS

- **Days 1-14: none.** Day 15-20: optional ₹200/day on 1 validated organic reel (followers/waitlist only).
- **Day 21+: ₹500/day** (C1: broad Ahmedabad + interest Gujarat, 4 creatives, WA objective primary). Day 25+: +₹200/day retargeting (C3). Day 35+: scale winners.

- **Expected contribution:** at ₹500-700/day, ads = 30-50% of first-100 orders (organic+DM+creators = 50-70%). **Organic-first is the point — ads amplify proof, they don't replace it.**

5. WHAT CTA (one keyword, everywhere)

- **"GLOW"** — DM keyword, on-screen text, Stories, WhatsApp greeting, ad primary text, box card, referral card. One keyword = the whole funnel is trackable (count GLOW DMs = count top-of-funnel).
- Secondary CTA by stage: follow (strangers) → save (education) → GLOW (intent) → "apna code" (referral).

6. WHAT DM STRATEGY (the engine — 60-70% of first 100 close here)

- **Speed:** 15-minute SLA, 7 AM-11 PM (2 people: founder + 1 help, or founder + family). Auto-reply outside hours with a time promise.
- **The GLOW script** (5 steps, full version in §21 Stage 5): greet with the full offer → city → delivery time → objection handling (3 canned: price/doubt/timeline) → confirm name+city+product → instant confirmation + "Din 7 pe hum khud message karenge."
- **Every comment = 2-line real reply** (not emoji). Every question box answer = DM follow-up ("aapne pucha — detail WhatsApp pe bhej du?").
- **Weekly DM audit (20 min):** DM→order %; top 3 objections heard → next week's content answers them (content is made from DMs, not the other way).
- **Target:** 600-1,000 GLOW DMs by Day 30 → 40% conversion = 240-400 conversations → **80-100 orders.**

7. WHAT WHATSAPP STRATEGY

- **Business setup (Day 0):** catalog (3 products + kit), profile (real photo, address city, hours), quick replies (price/delivery/return/timeline), labels (NEW/ORDER/D7/D14/BUYER/REFER), auto-greeting, away message.
- **The lists:** WAITLIST (GLOW DMs, pre-launch broadcast Day 20: "Kal launch — reply GLOW, aapka number save") → BUYERS (all orders) → REVIEWS (photo consenters) → REFERRERS (code users).
- **Status = Stories** (3 slots/day) — Gujarat WhatsApp-Status usage is huge; zero extra work.
- **Broadcast rules:** max 2/week to WAITLIST (pre-launch), 2/week to BUYERS (sequences only, no spam), 1/week to all (milestone/offer). Every broadcast = one value + one CTA, signed by name.
- **The box comms:** 5 touches pre-delivery (including the *photo of their actual box*) — this single habit drives the unboxing UGC and the "look, mera parcel aaya" stories.

8. WHAT REFERRAL STRATEGY

- Launch Day 29 (after first testimonials exist): **"Do ₹100, Lo ₹100"** — friend ₹100 off first order, referrer ₹100 off next.
- **The ask moment:** Day-14 review message ends with: "Agar pasand aaya — 1 dost ko bata do. Aapko dono ko ₹100 milega. Code: [code]." (Asking at Day 14, when the product

is working, is 3x more effective than Day 1.)

- **Targets:** 15-20% of orders referred by Day 45; referred orders tagged in the sheet (CAC $\approx$ ₹100 vs ₹300 ads).
- **The wall:** a pinned "Founding 100 ki kahani" post/Story showing real customer faces + cities (consented) — "aapki city me bhi koi hai" is a silent referral nudge for everyone scrolling.

9. THE 30-45 DAY RUNWAY (who buys when)

Window	Source	Expected orders
Day 21-24 (launch spike)	Waitlist DMs + D21 reel + creator #1-2 + WA broadcast	25-35
Day 25-30	DMs + retargeting + unboxing/testimonial posts	15-25
Day 31-40	Ads (C1+C3) + creators #3-5 + challenge series	20-30
Day 41-45	Referrals + repeat/kit + "batch 2 waitlist"	10-15
Total		70-105 (target: 100)

If behind at Day 30 (below 60): do NOT add fake urgency. Diagnose in order: (1) DM reply speed > 15 min? → fix staffing. (2) GLOW DM count low? → hook problem (test 5 new hooks from [07-hooks-library.md](#)). (3) DM→order < 30%? → COD clarity / price / timeline objection script. (4) Extend Founding 100 as "Batch 1 bhi khatam — Batch 2: 200 units" (real, announced as batch 2, not "extended offer").

PART 21

§26 THE 90-DAY SOCIAL MEDIA + SALES MASTER PLAN — RANGAT NATURALS

Context (why 90 days is the right frame): You're launching in mid-September 2026. Days 31–90 run straight into **Gujarat's wedding season (Oct-Feb) and Diwali (Nov 2026)** — the two highest-intent skincare windows of the year in Gujarat. This plan is built to be *sold out of proof* by Day 30 and *sold out of season* by Day 90.

The 30/60/90 logic:

- **Days 1-30: FOUNDATION + PROOF** → make the brand believable, sell the first 100.
- **Days 31-60: TRUST → CONVERSION** → scale what works, add Sunscreen, wedding-season content.
- **Days 61-90: SYSTEM + SCALE** → engine running, Diwali wave, Night Cream, repeat machine.

PHASE 1 — DAYS 1-30: FOUNDATION + PROOF ("The 100")

Block	Plan
Main objective	Believable brand + first 100 customers + 15+ real UGC assets + ad engine proven at ₹500/day
Content strategy	Full 30-day calendar (04–06). Pillar mix: founder/problem 40%, education 25%, product 15%, trust 10%, sales 10% (ramps up week 4). Language 70% Gujarati. 1 creator collab (D19). 20-tester program (D1 start, D28 drop).
Posting frequency	6 Reels/week (5–7), 2 Carousels/week, 3–5 Stories/day, 3 YT Shorts/week (from top Reels)
Ad strategy	D1–14: none. D15–20: optional ₹200/day boost (1 validated reel, Ahmedabad, followers). D21: C1 LIVE ₹500/day (broad + interest, WA objective). D25: C3 LIVE ₹200/day. Kill/scale per 16-creative-testing.
Creator strategy	10 shortlisted by Day 7 · 1 collab D19 · 2 more in launch week · consent+ad-permission in writing for all
WhatsApp system	GLOW script live D1 · waitlist broadcast D20 · 5-touch box comms from order #1 · Day-1/7/14 sequences running
Sales target	100 orders (Founding 100 sold out) · AOV ₹550–650 (mix of single + early kits) · COD success ≥ 85%
KPIs (review Sunday of week 4)	Followers 1,000–1,500 · GLOW DMs 600–1,000 · DM→order ≥ 35% · 3 reels >10k views · 15 UGC assets · CPA ≤ ₹400 (ads) · 20+ real reviews/updates · referral program live (D29)

Phase gate (must pass to scale spend in Phase 2): ≥ 80 orders · ≥ 10 usable UGC assets · ≥ 3 reels >10k views · DM pipeline < 15 min SLA. (If failed: fix the weakest stage of the funnel per §21 before touching ad budget.)

PHASE 2 — DAYS 31-60: TRUST → CONVERSION ("The 500")

Block	Plan
Main objective	Convert trust into volume: ~ 400-500 cumulative orders , launch Sunscreen (hero wave 2) , wedding-glow content engine, ads at ₹1,000-1,500/day with proven ROAS
Content strategy	Same weekly rhythm; hero rotates: Serum 40% → Sunscreen 40% (D45-60) → Serum 20%. "Wedding Glow 6-Hafte" mini-campaign starts D45 (Oct = Gujarat shaadi season ON): glow-calendar carousels, bridal-prep testimonials, "6 hafte pehle shuru" hooks. Night Cream seeded (D28 continues → waitlist). Moizerizer kit push (D31+) for AOV. Language 60% Gujarat / 40% all-India.
Posting frequency	6-7 Reels/week, 2 Carousels/week, 3-5 Stories/day, 3 YT Shorts/week. 1 new creator drop/week (5 total in phase). UGC #20 (30-day challenge) running daily on Stories.
Ad strategy	C1 continues, scale winners (+30%/48h while CPA ≤ target). D35: C2 LIVE (LAL + interest, ₹500/day). C3 at ₹300/day with retargeting creative rotation (2 creatives/10 days). Geo: +Surat, +Vadodara (week 4 of phase). Sunscreen creative takes 40% of C1/C2 budget from D50 (same audiences, new product; existing buyers cross-sold via C3 site-visitors). Diwali CPM spike pre-booking: start gifting creative test D55.
Creator strategy	5 new (mix: 3 Gujarat, 2 non-Gujarat — Delhi/MP for Hinglish content) · challenge-series creator continues · 1 local beauty-page collab (₹1-3k)
WhatsApp system	Day-28/45/60 sequences producing photo reviews (target 40+ by D60) · Sunshine early-access broadcast to BUYERS D45 (existing list = first 50 sunscreen orders target) · referral engine at 10%+ of orders
Sales target	Cumulative 400-500 orders · Serum repeat/refill starts (Day-60 cohort) · Kit share → 35% of orders (AOV ₹800+) · Sunscreen: 80-120 orders by D60
KPIs	Followers 2,500-4,000 · CPA ≤ ₹300 blended · ROAS ≥ 2.5x (blended, 30d) · repeat rate (cohort 1) 10%+ · 40+ photo reviews · 2 creators >20k reach · referral 10%+ of orders · WhatsApp buyer list 400+

Phase gate (to Phase 3): blended CPA ≤ ₹300 for 2 consecutive weeks · ROAS ≥ 2.5x · repeat orders visible · 3+ creatives with >21-day life · 2,000+ warm retargeting audience.

PHASE 3 — DAYS 61-90: SYSTEM + SCALE ("The 1,000+ and the Machine")

Block	Plan
Main objective	Engine, not heroics: cumulative 900-1,200 orders , Diwali gifting wave, Night Cream launch (wave 3), ads at ₹2,000-3,000/day across 4 campaigns, national test (2-3 cities), repeat + referral at 15%+
Content strategy	Hero rotates: Sunscreen 40% → Night Cream 30% (D75-90) → Serum 20% + Face Wash 10% (male content doubles for gifting). Diwali campaign (D70-90): "Diwali pe dhyān ka gift" — 3 gift-box tiers, family/maa gifting content (very Gujarati), referral push at peak. Language 50/50 Gujarat/all-India. National creators debut (2).
Posting frequency	7 Reels/week, 2-3 Carousels/week (gift boxes, glow calendar), 3-5 Stories/day, 3-4 YT Shorts/week. Creator drops: 2/week (1 Gujarat + 1 national).
Ad strategy	D60: C4 LIVE (Advantage+/scale, ₹1,000/day start) → scale to ₹2,000-3,000/day total by D80 if Phase-2 gate passed. C1 ₹800-1,200 · C2 ₹500 · C3 ₹400-500 · C4 ₹1,000+. Geo: +Rajkot (with gifting content) + national test (Delhi NCR, Mumbai) — kill any city at >1.3x Gujarat CPA after 10 days. Diwali week: retargeting budget +50% (warm audiences convert at peak), gifting creative across C1/C4.
Creator strategy	10-15 total by D90 · 1 collab post with an established Indian skincare account (barter→paid) · creator affiliate program formalized (20%, tracked codes)
WhatsApp system	Full sequence bank running (D1/7/14/28/45/60 + seasonal) · Diwali gift broadcast D75 to all buyers · refill engine (Day-28-35 nudge on 30-day bottles) at 15%+ repeat · referral at 15-20% of orders
Sales target	Cumulative 900-1,200 orders · AOV ₹850-950 (kits + gifting) · Night Cream 60-100 orders · Diwali boxes 100+ (D75-90) · repeat rate (all cohorts) 12-15% · LTV:CAC ≥ 2.5 by D90
KPIs (the D90 board)	Followers 5,000-8,000 · blended ROAS ≥ 3x · CPA ≤ ₹250 · 3 campaigns profitable standalone · 60+ photo reviews · 15 creators · referral 15%+ · WhatsApp list 700+ · 2 national cities with CPA ≤ 1.3x Gujarat · profit on ad spend (contribution margin positive)

THE 90-DAY KPI BOARD (one page, review every Sunday, 45 min)

Week	Follower target	Cumulative orders	Blended CPA	ROAS (30d)	GLOW DMs (weekly)	DM→order	Repeat %	UGC bank
2	400	—	—	—	30+	—	—	5
4	1,000-1,500	100	≤ ₹400	1.5x+ (learning)	60+	≥ 35%	—	15
6	2,000	250	≤ ₹350	2x+	80+	≥ 35%	first refills	25
8	3,000-4,000	400-500	≤ ₹300	2.5x+	100+	≥ 40%	10%	40
10	4,500	700	≤ ₹280	3x	120+	≥ 40%	12%	50
12/13	5,000-8,000	900-1,200	≤ ₹250	3x+	150+	≥ 40%	15%	60+

The only metrics that override everything: (1) contribution margin per order (price – COGS – shipping – ad-CPA – COD failure cost) must be positive or improving; (2) repeat

rate; (3) COD success $\geq 88\%$. Followers, views, likes = context, never decisions.

WEEKLY OPERATING CADENCE (the CEO's 5-hour week)

Day	Block	Time
Mon	Content batch planning (this week's 7 hooks from DM data + KPI gaps)	1 hr
Tue	Shoot day #1 (4-5 hrs, 8-10 reels + 4 ad cuts) — see 21-production-system.md	4.5 hr (shoot)
Wed	Ad review (Sunday's data → kill/scale/queue) + creator outreach (2-3)	1 hr
Thu	Shoot day #2 (lighter: Stories batch, carousel photos, product shots)	3 hr
Fri	YT Shorts upload (top 3) + SEO titles · hashtag rotation · next-week calendar lock	1 hr
Sat	Weekly KPI review (the board above) · DM audit (top objections) · next-week scripts	1.5 hr
Sun	KPI review (formal) + ad budget adjustments for the week + 30-min "what will strangers think?" profile audit	1 hr

Total content/ops time: ~12-15 hrs/week (1 founder + 1 part-time help for DMs/shoot). If a week's plan takes more, the batch system in [21](#) is broken — fix the system, don't add hours.

PART 22

§27 CONTENT PRODUCTION SYSTEM —
RANGAT NATURALS (batch, fast,
repeatable)

The design rules

- 1. **2 shoot days/week, not 5 tiny days.** Batching cuts setup time ~60% (lighting, phone rig, props, outfits all set once) and forces a script pipeline (no "what should I post today").
- 2. **Scripts written, never improvised** (founder lines can be natural, but beats are written: hook → 3 beats → CTA).
- 3. **Every shoot day produces: 8-10 reels + 4 ad cuts + 10-12 Story frames + carousel images.** One day feeds ~1.5 weeks of posting.
- 4. **AI UGC runs on its own 2 half-days/month** (creative testing only — see 09-ai-video-prompts.md).
- 5. **A 3-week content buffer** at all times (if the buffer drops below 10 posts, shoot days become 3/week for a fortnight — no exceptions).

VOLUMES (per week, at steady state)

Asset	Volume	Where it's made
Reels (founder/product)	6-7	Shoot days (8-10 shot, edit to 6-7 best)
Reels (UGC/creator/AI)	2-4	Creators (their days) + AI batches
Carousels	2	Shoot day 2 (photos) + design block (90 min)
Stories	21-35 (3-5/day)	60% batched on shoot days (10-12 frames) + 15 min/day fresh
Product photos	40-60 (1 session/month + 10/week on shoot days)	Shoot day 2 + monthly session
AI UGC videos	6-10/month (2 batch days)	AI batch days
AI images	8-12/month	AI batch days
Scripts written	14-18 (for 2 weeks ahead)	Sunday planning block
YT Shorts uploads	3	Friday (from top Reels, 10 min each)

THE SHOOT DAY RUN SHEET (4-5 hours, same every time)

Setup (45 min, non-negotiable): window-light wall (or 1 key light + 1 fill), phone tripod at chest height + 1 hand-held for B-roll, lapel mic (₹1,500 — worth it), prop table (products,

jar of water, towel, chai glass, wooden board), 3 outfit options (same 3, rotate — visual consistency), whiteboard for "numbers" shots.

Block	Time	Output
1. Founder-to-camera reels (hook → beat → CTA), 2-3 takes each, straight	100 min	5-6 reels
2. Product demos (texture, ASMR, how-to hands) — macro close-ups	60 min	3-4 reels + 4 ad cuts (15s/30s)
3. B-roll bank: 10 cuts (pouring, drops, hands, face, counter, packaging)	20 min	editing fuel for 2 weeks
4. Carousel photo set: 12-16 product/flat-lay/context shots	30 min	2 carousels' worth
5. Story batch: 10-12 frames (BTS, behind-the-scene, polls as text cards, quiz cards)	25 min	~1.5 weeks of Stories
6. Founder "talking head" spare: 5 unscripted 30-sec answers (next week's Q&A)	15 min	Q&A feed
Buffer / re-shoot weak hooks	20 min	—

The hook re-shoot rule: after editing (next day), if a reel's first 2 seconds feel slow → re-shoot the hook from the B-roll bank + new talking-head line. **The hook is never "good enough, we'll live with it"** — it's 90% of the reel's life.

THE EDIT BLOCK (60-90 min/day, same day or next)

1. Cut to length (30-45s cap) · 2. Hook text on frame 1 (8 words max) · 3. Captions throughout (95% watch muted) · 4. On-screen beats · 5. CTA card 3s · 6. Product label insert (real) · 7. RANGAT bottom-corner logo (small) · 8. Audio: VO clean + trending track at 15% · 9. Export 1080×1920.
10. **Ad cuts (4/week):** from the week's best 2 reels → 15s + 30s versions (hook-first, CTA-end) → named `RANGAT_AD_[hook]_[len]` → into the ad queue.

SUNDAY PLANNING BLOCK (2 hrs, the brain of the system)

1. **Data in (30 min):** last week's board (from `20-90-day`): best 3 reels (why?), worst 3 (why?), top 5 DM objections, ad CPA by creative.
2. **Next 14 days scripted (60 min):** 14 posts: type, pillar, hook (from library, marked with style — no 2 same styles back-to-back), script beats, CTA, hashtags set (12 ready sets), story plan. **Rule: 30% of next week's topics come from DM objections + comment questions** (content follows the market, not the mood).
3. **Queue loaded (30 min):** 7 posts scheduled (Meta Business Suite), 7 staged (assets ready, publish Mon-Sun), buffer updated.

AI UGC BATCH DAY (2 half-days/month, 3 hrs each — see 09 for prompts)

1. Pick 4-5 hook concepts from the week's top organic hooks (test AI variants of proven angles).

2. Generate: 8–10 videos (2 per concept, best kept) + 8–12 images (carousel/ads).
3. CapCut pass (2 hrs): text, captions, product insert, VO (real voice), CTA.
4. **Use:** ad A/B testing (C1/C4), teaser/concept posts, carousel visuals. **Never** as "customer testimonial" (that slot = humans only).
5. Log in creative sheet like human assets — AI vs human CTR is a real learning (expect humans to win on face-trust; AI wins on volume/iteration speed).

MONTHLY PRODUCT PHOTO SESSION (half-day, 3-4 hrs, first week of month)

- 60–80 photos: hero product (5 angles) · texture macro (palm, hand, drop) · in-context (bathroom, table, hand-held) · flat-lays (cream palette, terracotta accents) · box + card · "with the routine" (3 products in row).
- Output feeds: next month's carousels, ad statics, website, WhatsApp catalog, gift-box content.
- Lighting: window + 1 softbox (or single softbox), cream/terracotta props constant (visual brand consistency).

THE WEEKLY CALENDAR (steady state)

Day	Content ops	Notes
Mon	Planning check (30 min) · publish 2 (reel + carousel)	
Tue	SHOOT DAY #1 (4.5 hr)	8–10 reels, 4 ad cuts
Wed	Edit block (75 min) · publish 2	Ad review 60 min (last Sun's data)
Thu	SHOOT DAY #2 (3 hr: lighter)	Photos, Story batch
Fri	Edit + YT Shorts ×3 (30 min) · publish 2	Hashtag rotation applied
Sat	UGC/creator post (1) · publish 1–2	Creator deliveries due
Sun	Planning block (2 hr) + KPI review (45 min) · publish 1–2 (Q&A/community)	Next 14 days scripted
Daily	3–5 Stories (15 min: 11 AM + 1 PM + 8 PM slots) · DM SLA (ongoing, 15-min) · reply all comments (within 2 hr)	The human layer — never batch the replies

Buffer rule: at all times, queue holds ≥ 7 posts + buffer holds ≥ 10 . Miss a day → pull from buffer, log the reason, protect the week's rhythm. The system's real output is **consistency under chaos** — a launch week with 80 orders and 200 DMs must not stop the reels.

MINIMUM TEAM / TOOLING (the cheap-but-right stack)

- **People:** founder (content face + strategy) + 1 part-time help (DMs 4–6 hr/day, shoot help, WhatsApp sequences) + 1 editor (₹8k–15k/month, 2 days/week — or self-edit via the run sheet for month 1).
- **Gear:** phone (any modern), tripod ₹2k, lapel mic ₹1.5k, 1 softbox ₹2–3k, ring light optional. Total < ₹10k.

- **Tools:** CapCut (free) · Meta Business Suite (scheduling) · Canva (carousels/cards, brand kit: cream + terracotta, 2 fonts) · Google Sheet (the single source of truth: hooks log, DM log, orders, creatives, UGC consents) · WhatsApp Business.
- **The one sheet to run the company** (tabs): HOOKS (hook/style/post/CTR/DMs) · CALENDAR (14-day) · ORDERS (order# / city / source: organic-DM / ad / creator / referral / COD status) · CREATIVE (asset / type / live dates / CPA / status) · UGC (creator / consent file / assets / ad permission) · DM-OBJECTIONS (date / question / answer / "became content?").

PART 23

§29 COMPLIANCE RULES + §30 CEO FINAL VERDICT — RANGAT NATURALS

PART A: THE COMPLIANCE RULES (Section 29) — pin this to the wall

The 8 non-negotiables

1. **No fake before/after.** Only real, documented, disclosed transformations. "Before" never artificially worsened; "after" never filtered.
2. **No fake testimonials/reviews.** No purchased reviews, no "friend's cousin" quotes, no AI-generated customer quotes presented as real. Only people who actually used the product, with written consent.
3. **No guaranteed results.** Never "guaranteed glow," "100% effective," "results in 3 days." Always "4-6 hafte daily use me, results har kisi me alag hote hain."
4. **No medical/cure claims.** Never: "cures acne/pigmentation/tan," "removes tan permanently," "erases dark spots," "reverses aging," "treats skin disease." These cross into drug-claim territory (Drugs & Cosmetics Act) + ASCI violation.
5. **No "100% natural / chemical-free" claims** (and no unverified "dermatologically tested" — only say it if a test exists and is documentable).
6. **Before/after always carries:** "Day X → Day Y · daily use · **Results may vary** · real customer, consent ke saath" — every frame, every platform.
7. **We are a brand, not a manufacturer.** "We formulate, test, and have it manufactured by a certified Indian facility (GMP)." Never "we manufacture in our own factory" (if untrue).
8. **Every ad creative has a written record:** who is in it (consent file), what claims it makes (safe-language check), where it runs. If it can't be defended in a sentence, it doesn't run.

SAFE vs UNSAFE — the claims table (use this on every caption/ad)

UNSAFE (never)	SAFE (use)
"Tan remove karega / tan hamesha ke liye khatam"	"Tan-look ko fresh dikhane me help karta hai" / "regular use me skin fresh dikhti hai"
"Dark spots erase/cure"	"Dark spots ka <i>dikhna</i> regular use me kam ho sakta hai — results vary"
"Acne cures"	"Gentle, formulated for acne-prone/sensitive skin; patch test recommended"
"100% natural, chemical-free"	"Simple ingredient list — label par sab likha hai"
"3 din me full glow"	"4-6 hafte ka honest timeline"
"Reverses aging"	"Age-look se related care — hydration + protection"
"Dermatologist recommended" (unless true+documented)	"Formulated for Indian skin" / "Certified facility me banaya" (if true)
"90% OFF" from a never-sold MRP	Launch price + free item (real value)
"SOLD OUT!!!" when stock exists	Real batch count: "X/100 seat bachi"
"Everyone's glowing" (implied universal)	"20 testers me se X ne kaha... — aapka experience alag ho sakta hai"

The one-litmus test for any line: *"If this exact sentence appears on the packaging, can I show it to the manufacturer and a consumer-protection officer without flinching?"* If no → reword.

Final note: this plan is business strategy, not legal advice. Before scaling ad spend (₹2k+/day) and before Diwali, have a lawyer review the final ad copy + website claims against the Drugs & Cosmetics Rules and ASCI Code. (Budget: ₹5-15k. It is the cheapest insurance in this entire document.)

PART B: THE CEO FINAL VERDICT (Section 30)

If I owned RANGAT NATURALS — my money, my name on the door — here is exactly what I would do.

1. First product to promote

Vitamin C Serum 10% — the hero. It has the strongest visual story (glow-look), the best UGC/before-after compatibility, the cleanest "4-6 weeks" honest timeline, the biggest search demand in the category, and the right price point (₹599-799). **Face Wash launches alongside as the ₹249 entry ticket** (and the free mini in the launch box), **Moisturizer joins at Day 31 as the kit-completer.** Nothing else until Day 45 (Sunscreen). Every rupee of attention in Month 1 goes to one serum.

2. First customer segment

Women 20-35, Ahmedabad + Gujarat metros (Surat, Vadodara, Rajkot), urban/semi-urban, skin concerns = dullness, tan-look, oily/monsoon skin, will pay ₹399-₹999 for honest products, buy on Instagram/WhatsApp, COD-first, family-influenced decisions. Men (face wash/sunscreen) = Month 3+ side stream, never the lead.

3. First platform

Instagram (Reels) for attention + WhatsApp Business for the close. Not equal weight — IG is the stage, WhatsApp is the till. Facebook = free crosspost + ads reach. YouTube Shorts = 10 min/week search compounding. Pinterest = zero until 10k followers.

4. Posting frequency

6 Reels/week + 2 Carousels/week + 3-5 Stories daily + 3 Shorts/week. Batch-shot on 2 days (Tue/Thu), scripted every Sunday. That's ~12-15 hrs/week of content ops total. More is waste; less is death.

5. First 10 Reel ideas (in order, Day 1-21)

1. **Founder intro:** "Zero followers, ek sachchi shuruwat — 30 din ka safar, sab asli me."
2. **Problem (Gujarat):** "Gujarat me 40 degree — aapki skin abhi kya kar rahi hai?"
3. **Education save-bait:** "5 cheezein jo aapki skin ko ROZ kharab kar rahi hain (#3 sab common)."
4. **Myth:** "'100% herbal' likha hai toh lagao? Yeh sach jano."
5. **Relatable (G, share-machine):** "Gujarati ghar me pehli baar 'skincare' shuru ki? Watch this." (maa skit)
6. **Brand story/teaser:** "3 mahine humne sirf ek serum dhoondha."
7. **Hero product intro:** "Mila karo: RANGAT Vitamin C 10% — 4-6 hafte ka honest timeline. GLOW likho."
8. **How-to save-bait:** "Vitamin C serum 99% log galat lagate hain. 5 steps, 40 second."
9. **First real tester:** "2 hafte Vitamin C lagaya — sachchi baat, achi bhi, kami bhi."
10. **The trust drop (Day 17):** "4 hafte. 20 aahaiyan. Same light, same angle, zero filter. Asli photos." → then D21 **LAUNCH:** "Founding 100 — FREE Face Wash mini + FREE shipping + COD. DM 'GLOW'."

6. First Meta Ad

"The Story Testimonial" (Ad 1 in [17-sales-ads-library](#)): the real customer's "4 baar delete karke order kiya" 30s UGC video · hook frame: "Naya brand. Pehli baar. 4 baar cart se hataya." · primary text = the honest-proof text · headline: "COD + Return — pehli baar naye brand se, tension nahi" · CTA: **Send WhatsApp Message** · audience: 20-40, women, Ahmedabad broad + interest ad set All-Gujarat · live **Day 21 at ₹500/day** — *after* the D17 proof exists. Not one day before.

7. Daily ad budget

₹500/day from Day 21. Day 15-20: optional ₹200/day on one organic-validated reel (followers only). Scale rule: +30% every 48h on winners while $CPA \leq 1.2 \times \text{target}$. Day 35: +₹500 (LAL campaign). Day 60: +₹1,000 (scale campaign). **Total path: ₹500 → ₹1,000 → ₹2,000 → ₹3,000/day by Day 90 — every step gated on CPA/ROAS, not on ambition.** (Full math: [15-meta-ads-campaigns-budgets.md](#).)

8. First 30-day sales strategy (the one paragraph)

Weeks 1–2: zero selling — build the 20-tester program, the founder's face, and the "GLOW" DM waitlist (300+ by Day 14). Week 3: drop the Day-28 disclosed before/after + one creator collab; announce the batch. Day 21: **Founding 100 launch** — launch price + FREE Face Wash mini + FREE shipping + COD + "your review on our page," real 100-unit constraint, triple touch (reel + Stories + WhatsApp broadcast), ads on. Days 22–30: objection killer, 60-sec routine (kit logic), unboxing, testimonial, real seat-count close. **Target: 100 orders, 600+ GLOW DMs, 15+ UGC assets, WhatsApp list 300+.** Every order: 5-touch shipping comms + Day-1/7/14 WhatsApp sequence starting the review flywheel.

9. First 100-customer strategy (the one paragraph)

DMs close 60–70% of them. GLOW keyword everywhere; 15-minute human reply SLA; the 5-step GLOW script; auto-reply with a time promise; every comment gets a 2-line real reply. **Creators close 15–25%:** 10 micro-creators (Gujarat-first), product + ₹500–1,500 + 20% affiliate, 1 collab pre-launch, 2 in launch week, consent + ad rights in writing. **Ads close 30–50% from Day 21** at ₹500/day on proof-carrying creatives. **Referral starts Day 29** ("Do ₹100, Lo ₹100") and the Day-14 review message carries the ask. The offer (Founding 100) removes every psychological blocker at once — price, trial risk, waste fear, identity. If behind at Day 30, diagnose the DM pipeline before spending a rupee more.

10. The biggest mistake to avoid

Selling before you're believable. The exact failure sequence of most new Indian D2C brands: launch 10 products on Day 1, run ads on Day 2, chase "10k followers in a month" with engagement bait, fake a "SOLD OUT," use one AI-glow before/after — and then *wonder why* nobody orders, because the profile shows a brand with no proof, no face, no reviews, and three "70% OFF" stickers. **Trust is a sequence, not a campaign.** Proof (20 testers, 4 weeks, real photos) → offer (real, once) → scale (only what CPA/ROAS allows). The second-biggest mistake is its twin: **chasing likes instead of DMs** — a 5k-follower account with 5 DMs/week is dead; a 500-follower account with 50 DMs/week is a business.

THE RANGAT NATURALS 90-DAY SOCIAL MEDIA + SALES MASTER PLAN (one page)

GOAL: ATTENTION → TRUST → CUSTOMERS → SALES → REPEAT → PROFIT → BRAND GROWTH

HERO: Vitamin C Serum 10% (D21) → Sunscreen (D45) → Night Cream (D75) · ENTRY: Face Wash ₹249

AUDIENCE: Women 20–35, Ahmedabad → Surat/Vadodara/Rajkot → top-6 India cities (D60+)

PLATFORMS: Instagram (attention) + WhatsApp (close) + FB (crosspost/ads) + YT Shorts (search)

· Pinterest: later

LANGUAGE: 50% Hinglish / 30% Gujarati / 20% English · SIGNATURE: "Aamee skin, aamno liye" ·

"GLOW"

	DAYS 1-30 "THE 100"	DAYS 31-60 "THE 500"	DAYS 61-90 "THE MACHINE"
Objective	Believable brand, 100 customers, proof bank	Convert trust → volume; Sunscreen hero; wedding-glow	System + scale; Diwali wave; Night Cream; national test
Content	30-day calendar; founder 40%; 1 creator; tester program (D1→D28)	Same rhythm; Sunscreen 40%; "Wedding Glow 6-Hafte" campaign; 5 more creators; 30-day challenge series	7 reels/wk; Night Cream 30%; Diwali gift boxes; 10-15 creators total; 2 national
Frequency	6R + 2C + 3-5S + 3 shorts / week (batch Tue+Thu)	Same	Same
Ads	D15-20: optional ₹200 boost · D21: C1 ₹500 · D25: C3 ₹200	C2 LIVE D35 ₹500 · scale winners · +Surat/Vadodara · sunscreen takes 40% from D50 · Diwali creative test D55	C4 LIVE D60 → ₹2,000-3,000/day total · +Rajkot + 2 national cities (kill >1.3x CPA) · retargeting +50% Diwali week
Creators	10 shortlisted · 3 live · consent+ad rights	5 new (3 Gujarat/2 national) · beauty-page collab	10-15 total · affiliate formalized · 1 established-account collab

KPIs (gate)	1k-1.5k followers · CPA ≤ ₹400 · 15 UGC · 3 reels >10k	CPA ≤ ₹300 · ROAS ≥ 2.5x · 40 photo reviews · repeat 10%	ROAS ≥ 3x · CPA ≤ ₹250 · LTV:CAC ≥ 2.5 · 5k-8k followers · contribution margin positive

The daily prayer (write it above the desk):

**Hum likes ke liye nahi, orders ke liye post karte hain.*

Har reel = ek sawaal jo buyer poochta hai.

Har DM = 15 minute me jawaab, insaan wala.

Har order = ek kahani jo agle 100 customers tak jaati hai.

*RANGAT NATURALS — asli skin, asli result. RANGAT NATURALS — asli skin, asli result.**

PART 24

Master Action Checklists (compiled from the plan)

Every item below is an existing checklist line from this plan, gathered here so the execution steps live in one place. Full context for each group is in the referenced section.

Day 0 — before anything goes live (from: New Account Launch Strategy)

- ☐ Profile fully built per the Profile Build section (bio, name field, 5 highlights, 3 pinned posts: founder intro, "what is RANGAT", one problem reel)
- ☐ WhatsApp Business set up: catalog (3 products), quick replies, labels, greeting message, business profile photo = same as IG
- ☐ 20-person tester list assembled (friends/family/college, Ahmedabad, women 20–40, mix of skin types) — the 4-week proof program starts Day 1 with the actual product batch
- ☐ 10 micro-creator shortlist (5k–50k, Gujarat) with email/DM template ready (see Gujarat-First Strategy)
- ☐ Batch-shoot Day 1–7 content in one 4-hour session (see Content Production System)

Week 1 + Day 8–10 (from: 30-Day Calendar, Days 1–10)

- ☐ Day 1: 50+ warm followers from founder network (real, no buys)
- ☐ Day 3: 20+ comments harvested → saved to Notion/sheet ("pain point bank")
- ☐ Day 7: 30+ "GLOW" DMs collected → WhatsApp list started (label: WAITLIST)
- ☐ Day 8: product in WhatsApp catalog; price + COD + shipping policy written in description
- ☐ Day 10: 3 reels queued to YouTube Shorts with SEO titles
- ☐ Tester program: photos taken Day 1 + Day 7 (same light/angle, logged)

Week 3 (Days 15–21) (from: 30-Day Calendar, Days 11–20)

- ☐ D15: 3-mistakes reel CTR check (target $\geq 1.5\%$ reach CTR) → if yes, boost candidate
- ☐ D17: Before/after live + PINNED; same reel cut into: 30-sec ad version + 2 static quote cards
- ☐ D19: Collab post live on both grids; creator's video saved to UGC bank (permission for ads = signed)
- ☐ D20: WhatsApp broadcast #1 to waitlist: "Kal launch — GLOW reply karo, aapka number save karte hain" (24h before)
- ☐ D21: Ads account ready: Pixel on website/WA, WhatsApp Business API linked, campaign built but NOT switched on
- ☐ All Day-17 + Day-19 creatives have ad permissions in writing (email/WhatsApp screenshot)

Profile — the 3-second test (from: Instagram Profile Build)

- ☐ Bio line 1 says "Indian skincare" (category + origin)
- ☐ Bio line 2 lists what we sell + honest timeline (no miracle)
- ☐ Bio line 3 kills the risk (COD + support)
- ☐ Bio line 4 = one action (DM GLOW / WhatsApp)
- ☐ Avatar = founder's face
- ☐ 3 pins = buy / trust / who
- ☐ Highlights = RESULTS first (the trust hook)
- ☐ Name field has "Indian Skincare"

Ad infrastructure — build by Day 14, before any spend (from: Meta Ads Strategy)

- ☐ Meta Business Manager + ad account, payment (₹ via card/UPI-supported method), time zone IST
- ☐ Meta Pixel on website (if live) + Conversions API → events: PageView, AddToCart, InitiateCheckout, Purchase
- ☐ WhatsApp Business API connected (Click-to-WhatsApp objective) + the GLOW quick-reply flow
- ☐ Catalog (serum, face wash, moisturizer, kits) with the real photos
- ☐ Creative permission forms collected from testers/creators (ad use rights)
- ☐ Creative bank ready Day 20: 6 videos (D17 B/A, D19 creator, D21 launch, D22 objection, D24 unboxing, D26 testimonial) + 3 statics (offer card, texture, box-content)

Also run on schedule (details in their sections)

- Day 30 numbers review — the 8 KPIs table (from: 30-Day Calendar, Days 21–30)
- Weekly ad operating rhythm — 60 min every Sunday (from: Meta Ads Strategy)
- Weekly story KPIs — every Sunday (from: Instagram Stories)
- Weekly operating cadence — the CEO's 5-hour week (from: 90-Day Master Plan)
- 90-Day KPI board — reviewed every Sunday, 45 min (from: 90-Day Master Plan)
- Sunday planning block — 2 hrs, the brain of the production system (from: Content Production System)
