RANGAT NATURALS

SOCIAL MEDIA + CONTENT + META ADS + SALES GROWTH

From zero followers to 1,000+ customers — the complete play

Asli skin. Asli result. — From zero. Gujarat first. India next.

Prepared September 2026 · All 30 strategy sections distilled · Private-label brand

**ATTENTION → TRUST → CUSTOMERS → SALES → REPEAT → PROFIT → BRAND
GROWTH**

EXECUTIVE SUMMARY

From Zero to Customers — The Mission

Mission — ATTENTION → TRUST → CUSTOMERS → SALES → REPEAT → PROFIT → BRAND GROWTH

Starting point — 0 followers, 0 customers, 0 awareness, small budget — private-label brand (we are NOT a manufacturer; the brand is the business)

Timing = a gift — Mid-Sept launch → 4-week proof build → Day-21 launch lands before Gujarat wedding season + Diwali

North star — ORDERS + REPEAT RATE — never followers or likes. “Followers are only counted if they DM.”

The rule — No generic content, no fake proof, no medical claims — every post must move a stranger one step closer to a first COD order

WHY NOW

Market Context — Why This Plan Is Built This Way

Signal	Numbers (2025-26)	What it means for RANGAT
India skincare market	\$2.98B (2026) → \$5.1B (2032) · ~9.4% CAGR	Growing pie; facial care ≈ 85% of it
Vitamin C serum (10-20%)	~60% segment share · ~9.2% CAGR · top-5 ≈ 50%	Hero rides the dominant, still-fragmented segment
Sun care	~12.5% CAGR — fastest category	Month-2 Sunscreen, timed before summer + wedding season
Indian D2C Meta ads	CPM ₹100-260 · CTR 1.2-2.5% · prospecting ROAS 1.8-3.2x · retargeting 2.8-4.5x	Small budgets work if CPA is gated
Structural reality	COD is mandatory for unknown brands; fake-product fear is real	Funnel = WhatsApp + COD; trust content attacks the fear directly

EXECUTIVE SUMMARY

The 10 CEO Decisions (the whole plan in 10 lines)

#	Decision	Choice (one line)
1	Hero product	Vitamin C Serum (10%); Face Wash = low-ticket entry, Moisturizer completes the kit
2	First customer	Women 20-35 — Ahmedabad first, then Surat / Vadodara / Rajkot
3	First platform	Instagram (Reels = attention engine); WhatsApp Business = the actual sales engine
4	Posting cadence	5-7 Reels/wk + 3-5 Stories/day + 2 Carousels/wk — batch-shot on 2 days
5	Language	50% Hinglish · 30% Gujarati · 20% English
6	Ads start	NO ads before Day 21; optional ₹200/day boost (Day 15-20); ads start ₹500/day
7	Offer	“Founding 100”: launch price + free Face Wash mini + free shipping + COD + featured review, 100-unit cap
8	Proof policy	Only REAL results: 4-week testers, real customer photos (written permission), “results may vary” always on screen
9	Funnel	Reel → Profile → DM “GLOW” → WhatsApp → COD → D1/7/14/28 sequence → review → referral → repeat
10	North-star metric	Orders + Repeat rate — NOT followers or likes

PRODUCTS

One Hero. A Ladder — Nothing Else for 60 Days

₹599-799	₹249	10%
hero price band	face-wash entry ticket	Vitamin C concentration

- Hero** — Vitamin C Serum 10% — strongest visual story (glow), cleanest honest 4-6-week timeline, biggest search demand, right price point
- Entry ticket** — Face Wash ₹249 — launches alongside; also the FREE mini inside the launch box
- Kit-completer** — Moisturizer — Day 31
- Wave 2** — Sunscreen — Day 45-60 (waitlist from Day 18); fastest-growing category (~12.5% CAGR), timed before Gujarat summer + wedding season
- Wave 3** — Night Cream — Day 75-90; gifting boxes Oct-Dec (Diwali wave)
- The rule** — Every rupee of attention in Month 1 goes to ONE serum

CUSTOMER

The First 1,000 Customers: One Clear Woman

Who — Women 20–35 — Ahmedabad first, then Surat · Vadodara · Rajkot; urban/semi-urban

Skin concerns — Tan-look, dullness, oily/monsoon skin — the 3 problems the content calendar attacks

Money — Will pay ₹399–799 for honest products — “aam daam + zyada value”, never a discount circus

Where she buys — Instagram + WhatsApp · COD-first · family-influenced decisions (daughter orders, mother approves)

How we win her — 15-minute human DM reply · batch-card anti-fake proof · honest 4–6-week timeline · reviews featured on page

Not yet — Men (face wash/sunscreen) = Month 3+ side stream — never the lead

CHANNELS

Platforms Ranked — Do NOT Manage Them Equally

Platform	Share	Role	Why
Instagram (Reels)	60%	Attention engine — all hero content	Where the ICP scrolls; Reel + Profile = top of funnel
WhatsApp Business	25%	THE actual sales engine	CTWA ads · catalog · GLOW DM → COD close · 15-min human reply
Facebook	10%	Broadcast + retargeting reach	Family influence layer + ad inventory
YouTube (Shorts)	5%	Repurpose only	3 reels/wk re-cut with SEO titles — zero native effort
Pinterest	0%	Excluded for 90 days	Wrong audience for D2C COD skincare right now

BRAND

Positioning, Voice & the Proof Policy

Positioning — “Skincare that understands Indian skin” — totke ki samajh + science ka formula

Tagline — “Aamee skin, aamno liye” — real skin, for normal people

The honest frame — “Hum manufacturer nahi hain — we are RANGAT NATURALS, a private-label brand: formula chuna, concentration test ki, 4 hafte 20 aahaiyon par test kiya”

Proof policy — Only real results — 4-week testers, real photos with written permission, “Results may vary” always on screen; 1 honest negative per 3 positives

Language — 50% Hinglish / 30% Gujarati / 20% English — how Gujarat actually talks on social

Profile = shopfront — Name field “RANGAT Naturals | Indian Skincare” · RESULTS-first highlights · 3 pins (buy / trust / who) · DM SLA 15 min

CTA signature — DM “GLOW” — one keyword, one action, on everything

CONTENT

The 7 Content Pillars

Pillar	Job	Signature format
1 · Problem (Indian skin, Indian problems)	Attention + comment fuel	40°/monsoon problem reel

Cadence + Batch Production (survives busy weeks)

What	Frequency	System

Team & cost	Founder + 1 editor (₹8-15k/mo) · gear < ₹10k	Master sheet, 6 tabs: ideas / shoots / publish / UGC / ads / KPIs

HOOKS

Hook System — 3-Second Rule + Copy-Paste Bank

The rule — Hook in 2 seconds · one idea per reel · last 3 seconds = CTA (follow / save / DM GLOW)

Library — 60+ hooks by style & segment in the master plan — the 6 that carry the launch:

Hook	Job
"40 degree bahar, 25 degree andar — dono aapki skin par alag se alag karte hain"	Problem
"Gujarati ghar me pehli baar 'skincare' shuru ki? Watch this."	Relatable / share
"'100% herbal' likha hai toh lagao? Yeh sach jano."	Myth vs reality
"4 hafte. 20 aahaiyan. Same light, same angle."	Proof
"Naya brand? 4 baar delete karke order kiya — yeh kahani hai."	Testimonial / ad
"Vitamin C kya karta hai? 60 sec me, bina jargon ke."	Education

Format — 3-5 sec + 3 shorts per idea; every launch hook re-tested in ads after D21

LAUNCH

OFFER

Founding 100 — The Launch Offer

100 units — hard cap	FREE Face Wash mini in every box	FREE shipping + COD
--------------------------------	--	-------------------------------

The offer — Launch price + free Face Wash mini + free shipping + COD + your review featured on the page

Why it works — Free item (tangible) beats fake “% OFF” · “X/100 seats bachi” = real urgency · featured review = next customer’s proof

Box = 5 touches — Thank-you card · usage guide · D7 WhatsApp · D14 review ask · D28 result + refill seed

Gate — Ads start only when offer + proof exist — never sell before believable

PROOF

Before/After + UGC — Real Proof Only

B/A rules — Real 4-week testers only · disclosed in-frame: “Day 1 → Day 28 · 4 hafte · Results may vary” · show Day-7 “kuch nahi aaya” honestly · 1 honest negative per 3 positives · same light/angle, logged

Tester program — 20 testers (friends/college, Ahmedabad, women 20-40, mixed skin types) — starts Day 1 with the actual product batch

UGC machine — 20 ready scripts · comp = free product + ₹500-2,000 + 20% affiliate (first 20 sales) + ₹100 per ad use · 1 shoot = 6 assets · 40-60 assets in bank by D90 · UGC #20 = 30-day serial

Creators — 10 shortlisted (5k-50k, Gujarat) · 3 live by D19 · consent + ad-use rights signed in writing

AI UGC — Concept/teaser frames only — clearly labeled, never passed off as a customer, real voice-over, locked character sheet

SALES SYSTEM

The 9-Stage Sales Machine (1 DM → 1 COD)

The chain — Reel → Profile (3-sec test) → Trust (proof) → Product clarity → DM “GLOW” → WhatsApp close (15-min human reply) → COD → Review → Repeat → Referral

GLOW = a machine — 5-step DM script · auto-reply outside 7 AM-11 PM · labels (NEW / ORDER / D7 / D14 / BUYER) · broadcast lists · status = your Stories

The close — Human, fast, COD — “the Indian first order is a phone conversation, not a checkout flow”

After the sale — WhatsApp D1 usage guide → D7 “kya badla?” → D14 review ask → D28 result + refill → D45/60 cross-sell

Fulfillment = marketing — 5 box touches + “photo of your box” + tracking updates — every order feeds the next 100

Funnel KPI Targets (managed daily)

Stage	KPI	Target
Profile → DM	GLOW DMs collected	600-1,000 by Day 30
DM → order	Conversion	35-45% (warm 40%+)
COD	Failure rate	< 15%
Reply speed	DM / WhatsApp	< 15 min (7 AM-11 PM)
Review	Rate of buyers	25-35%
Repeat	Rate by Day 60	10-15%
Referral	Rate (from D29)	10-20% — ₹100 give / ₹100 get

4 Campaigns — Each with a Job, a Day, a Kill Rule

Campaign	Live	Audience & structure	Budget	Kill / scale rule
C1 · GLOW PROSPECT	D21	Broad Ahmedabad + interest Gujarat · 4 creatives · Click-to-WhatsApp	₹500/day	Rank by ATC cost; scale winners +30%/48h while $CPA \leq 1.2\times$
C3 · RECOVER (retarget)	D25	R1-R7: viewers · engagers · ATC · checkout (purchasers excluded)	₹200-300/day	$CPA \leq ₹150$ — else cut frequency
C2 · PROOF & LAL	D35	1% purchasers lookalike	₹500/day	Kill at $CPA > 1.3\times$
C4 · SCALE	D60	Advantage+ + 6 India cities (national test)	₹1,000 → 2,500/day	Kill cities $> 1.3\times$ CPA

Budget Path + Creative Testing Discipline

Budget path — ₹500 → ₹1,000 → ₹2,000 → ₹3,000/day by D90 — every step CPA-gated, never date-based

Targets — CPA $\leq$ ₹300 Month 2 · $\leq$ ₹250 by D90 · ROAS $\geq$ 3 $\times$ by D90 · LTV math makes CAC ₹300 viable

Retargeting — 15–25% of total spend · frequency $\leq$ 3–4/week · retargeting ROAS 2.8–4.5 $\times$

Testing system — 4–8 creatives · 7-day window · rank by ATC cost (priority: ATC > CPA > CTR > ROAS) · scale +30%/48h while CPA $\leq$ 1.2 $\times$

Fatigue triggers — CPM +30% · CTR –25% · CPA +50% → swap the creative

Guardrail — Lawyer review of ad copy BEFORE ₹2k+/day and before Diwali — ₹5–15k, the cheapest insurance in this document

META ADS

Ad Creative — 10/10/10/10 Library + UGC $\approx$ 2 $\times$

Library — 10 hooks + 10 primary texts + 10 headlines + 10 CTAs — ready to paste · 3 fully assembled ads

First ad — “The Story Testimonial” — “Naya brand? 4 baar delete karke order kiya — yeh kahani hai.” (D26 UGC cut)

Why UGC wins — Indian D2C data: UGC video $\approx$ 2 $\times$ brand creative on ROAS — authenticity beats polish

Formats — 30-sec B/A cut · story-testimonial · unboxing · texture + offer-card statics · box-content carousel

Creative bank by D20 — 6 videos (D17 B/A · D19 creator · D21 launch · D22 objection · D24 unboxing · D26 testimonial) + 3 statics

GEOGRAPHY

Gujarat First → India Next (a wave plan, not a limit)

Wave	Geo	Trigger
Week 1-3	Ahmedabad (founder’s city)	Launch — all content + ads land here first
Week 4-6	+ Surat	Ahmedabad CPA at target + content buffer ≥ 3 weeks
Week 6-8	+ Vadodara	Same gate
Week 8+	+ Rajkot → C4: +6 national cities	Advantage+ test; kill anything > 1.3× CPA

Brand framing — Language stays 50/30/20 · local culture used naturally — the brand is Indian, not “a Gujarat brand”

Creators — 5k-50k Gujarat micro-creators first · 1 established national collab by D90

Season — Diwali = gifting wave Oct-Dec (100+ boxes in The Machine)

KPIs

Day-30 Scoreboard — Pass or Fix

80-100 orders	600-1,000 GLOW DMs	25-40% DM → order	1-2k followers	$\geq$ 85% COD success	$\leq$ ₹400 CPA	15 UGC assets	3 reels > 10k views
------------------	-----------------------	----------------------	-------------------	------------------------------	-----------------------	------------------	------------------------

If a KPI fails — find the broken funnel stage — the next 30 days of content goes there (not more of everything)

90-DAY PLAN

Days 1-30: THE 100 — Believable Brand, 100 Customers

Objective — Believable brand · 100 customers · proof bank — “trust before scale”

Content — 30-day calendar · founder 40% · 1 creator · tester program D1 → D28

Ads — D15-20: optional ₹200 boost → D21: C1 ₹500 → D25: C3 ₹200 → D35: C2 ₹500

Gates to Phase 2 — 100 orders · CPA ≤ ₹400 · 15 UGC assets · 1-1.5k followers · 3 reels > 10k views

90-DAY PLAN

Days 31-60: THE 500 — Convert Trust Into Volume

Product wave — Sunscreen launch (waitlist from D18) · “Wedding Glow 6-Hafte” campaign

Ads — C4 prep · scale winners + Surat/Vadodara · sunscreen takes 40% of creative from D50 · Diwali creative test D55

Creators — 5 new (3 Gujarat / 2 national) + 1 beauty-page collab

Gates — CPA $\leq$ ₹300 · ROAS $\geq$ 2.5x · 40 photo reviews · repeat 10%

90-DAY PLAN

Days 61-90: THE MACHINE — System, Scale, Diwali

Gates — ROAS $\geq 3\times$ · CPA $\leq$ ₹250 · LTV:CAC ≥ 2.5 · 5k-8k followers · contribution margin positive

GROWTH

Follower Curve + Where the First 100 Come From

100	500	1,000	5,000	10,000
Day 7	Day 21	Day 45	Day 120	Day 240

First 100 customers (by D30-45) — 60-70% warm DMs (network + waitlist) · 15-25% creators · 30-50% ads

Follower math — Followers only matter as DM-senders — the KPI is GLOW DMs, not follower count

Community — Daily Stories · 15-min DM SLA · referral from D29 (₹100/₹100) · “girl math” + girl-talk language

Content→Sales Balance + The Buyer Forces

Bucket	Share	Weekly	What counts in it
Awareness (stranger-stoppers)	20%	2	Mistake reels · maa skit · “girl math”
Education (saves, authority)	25%	2	Myth vs reality · ingredient science
Trust (proof, people)	30%	2–3	Disclosed B/A · testers · collabs · founder
Sales (direct)	20%	2	Offer · X-seats-left · referral · launch/close

Explicit sell — 1 in 5 posts — and only after Day 15 (when proof exists); seasonal max 3-in-9, never above

Top buyer forces — Fakery fear = #1 silent blocker (batch card + “verify on website” + COD) · COD+WhatsApp convenience · family purchase (daughter orders, mother approves) · “aam daam” value math (₹600 = 20 chai, 4 hafte chalta hai)

Non-Negotiables — 8 Lines We Never Cross

Never	Instead
Medical / cure claims	“Tan-look ko fresh dikhane me help karta hai” — help-look language only
100% / permanent / instant	Honest 4-6-week timeline, always on screen
Fake before/after or filtered “results”	Real + disclosed + “Results may vary”
Fake reviews / testimonials	Every review = real buyer, permission in writing
Fake urgency / scarcity	“X/100 seats bachi” must be TRUE
Fake discounting	Free items — never “90% OFF” off a never-sold MRP
Unsupported ingredient claims	Label says everything — “label padho saath me”
Dermatologist / doctor claims	Only if true + documented

Lawyer — Review final ad copy + website claims before ₹2k+/day and before Diwali — ₹5-15k, against Drugs & Cosmetics Rules + ASCI Code

CEO VERDICT

The Final Verdict — If I Owned RANGAT NATURALS

Mistake #1 that kills brands — Selling before you are believable — no ads, no hard sell before D21; build the proof first

Mistake #2 that kills them slowly — Chasing likes instead of DMs — a reel with 1M views and 0 GLOW DMs is a failure

The focus rule — 1 hero serum · 1 ICP (women 20-35, Ahmedabad) · 1 funnel (DM GLOW → COD) · 1 metric (orders + repeat)

The CEO's week — the 5-hour-week cadence (Mon plan · Tue shoot · Wed ads · Thu shoot · Fri repurpose · Sat DM audit · Sun formal KPI + budget) — ~12-15 hrs/week content ops total with 1 part-time helper

The daily prayer — “Hum likes ke liye nahi, orders ke liye post karte hain. Har DM = 15 minute me jawaab, insaan wala.”

EXECUTION

Start Today — 5 Actions (Day 0)

#	Action	Detail
1	Build the profile	Bio (4 lines) · name field “RANGAT Naturals Indian Skincare” · 5 highlights · 3 pins (buy / trust / who)
2	Set up WhatsApp Business	Catalog (3 products) · quick replies · labels · greeting message
3	Assemble the 20-tester list	Friends/family/college · Ahmedabad · women 20-40 · mixed skin types — program starts Day 1
4	Shortlist 10 micro-creators	5k-50k, Gujarat · email/DM template ready
5	Batch-shoot Day 1-7 content	One 4-hour session — the production system runs from here

Asli skin. Asli result. — From zero. Gujarat first. India next.
